**NOTES TO THE ABBREVIATED FINANCIAL STATEMENTS**

**FOR THE PERIOD ENDED 31ST MARCH 2013**

**1. Accounting policies**

**1.1. Accounting convention**

The financial statements are prepared in accordance with applicable accounting standards and under the historical cost accounting rules

The company has taken advantage of the exemption from preparing a cash flow statement conferred by Financial Reporting Standard No 1 on the grounds that it qualifies for the small companies regime of the Companies Act 2006

**1.2. Tangible fixed assets and depreciation**

Depreciation is provided at rates calculated to write off the cost less residual value of each asset over its expected useful life, as follows

Freehold land and buildings - Not depreciated, subject to periodic revaluation

**1.3. Investment property**

The company's property is held for long term investment and is included in the balance sheet at the lower of cost and open market value, in accordance with Statement of Standard Accounting Practice No 19. No depreciation is provided in respect of freehold investment property

**1.4. Deferred taxation**

The charge for taxation takes into account taxation deferred as a result of timing differences between the treatment of certain items for taxation and accounting purposes. In general, deferred taxation is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date. However, deferred tax assets are recognised only to the extent that the directors consider it more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted. Deferred taxation is measured on a non-discounted basis at the rates that are expected to apply in the periods in which the timing differences reverse, based on the tax rates and the law enacted or substantively enacted at the balance sheet date
