This template illustrates what the Regulator of Community Interest Companies considers to be best practice for completing a simplified community interest company report. All such reports must be delivered in accordance with section 34 of the Companies (Audit, Investigations and Community Enterprise) Act 2004 and contain the information required by Part 7 of the Community Interest Company Regulations 2005. For further guidance see chapter 8 of the Regulator's guidance notes and the alternate example provided for a more complex company with more detailed notes.

PART 1 - GENERAL DESCRIPTION OF THE COMPANY'S ACTIVITIES AND IMPACT

In the space provided below, please insert a general account of the company's activities in the financial year to which the report relates, including a fair and accurate description of how they have benefited the community, or section of the community, which the company is intended to serve.

The company conducts and facilitates live, open experiments in the field of Low Energy Nuclear Reactions in hopes of stimulating interest in this field of research. We carry out experiments with rigorous disclosure of methodology, data, and results through our website at www.quantumheat.org and our Facebook Page ("Martin Fleischmann Memorial Project").

The company worked with collaborators in various countries to engineer derivative experiments based on the work of researchers including Francesco Celani, Francesco Piantelli & Andrea Rossi. We have also been enabling other researchers at universities and open private groups to replicate our work.

Over a dozen experiments, some lasting months, were run and documented through our website which in some cases has been engaged with 10,000s times. The many comments, suggestions, and resulting discussion amongst the website's followers had the dual effects of (1) improving the effectiveness of our technical work, and (2) stimulating wider interest in the field of Low Energy Nuclear Reactions. We have also produced considerable reference material including high quality video learning.

PART 2 – CONSULTATION WITH STAKEHOLDERS – Please indicate who the company's stakeholders are, how the stakeholders have been consulted and what action, if any, has the company taken in response to feedback from its consultations? If there has been no consultation, this should be made clear

The company's stakeholders, as we identified them are (1) other researchers in this field, (2) enthusiasts in the field, (3) potential investors in the field, (4) the general public

The methodology we use of publishing our experiments as they progress in a live, open manner, and inviting public comment and criticism, we have fostered an ongoing, very meaningful dialogue with the first three categories of stakeholders. Fellow researchers and enthusiasts from myriad disciplines have guided us on aspects of our experimentation on almost a day to day basis through the website and our facebook channel

We have reached out to potential investors through one on one conversations and group meetings as well and it is clear that our work over the past year is making us an important part of the research community and a place where interested persons seek believable and honest data and guidance on how the field is developing for the common good

We also attended and conducted research at the International Conference on Cold Fusion 19, held in Padua Italy and had many personal discussions that we took guidance from
