The company conducts and facilitates live, open experiments in the field of Low Energy Nuclear Reactions in hopes of stimulating interest in this field of research. We carry out experiments with rigorous disclosure of methodology, data, and results through our website at www quantumheat,org

Over a dozen experiments, some lasting months, were run and documented through our website which developed a large contingency of thousands of followers. We have reached out to potential investors through one on one conversations, as well, to better understand what level of experimental success would merit investment in the field and how our team might be able to validate claimed technologies in order to lend credibility to this field.

We also attended and presented at the International Conference on Cold Fusion and had many personal discussions that we took guidance from
