.....
Professor W Pope - Director

.....
R Stubbs - Director

The notes form part of these financial statements

**Notes to the Financial Statements
for the Year Ended 31 March 2019**

1. COMPANY INFORMATION

Yorkshire and Humber Partners Academic Health Science Network Limited is a private company, limited by guarantee, registered in England and Wales. The company's registered number and registered office address can be found on the Company Information page.

2. ACCOUNTING POLICIES

Basis of preparing the financial statements

These financial statements have been prepared in accordance with Financial Reporting Standard 102 "The Financial Reporting Standard applicable in UK and Republic of Ireland" and the Companies Act 2006 as applicable to companies subject to the small companies regime. The disclosure requirements of section 1A of FRS 102 have been applied other than where additional disclosure is required to show a true and fair view.

The financial statements have been prepared under the historical cost convention.

The functional and presentational currency of the company is considered to be pounds sterling.

Turnover

Turnover represents the fair value of the consideration received or receivable for services provided, net of VAT.

The Company has been set up to create and harness a strong, purposeful partnership between patients, health services, industry and academia. Funding is only available for these purposes and to cover the costs of these activities. These funds are not available to create profit within the Company. On this basis, income is recognised in the income and expenditure account so as to match costs as and when they are incurred on those contracts. Deferred income is recognised where funds receivable are in excess of costs during the year and when those funds are not related to specific time periods or performance measures.

Other income generated is recognised in the period in which the service by the Company is performed.

Tangible fixed assets

Tangible fixed assets are stated at purchase cost together with any incidental expenses of acquisition, net of depreciation and any provision for impairment.

Depreciation is provided on all tangible assets at rates calculated to write off the cost less estimated residual value of each asset on a straight line basis over its expected useful life.

Short leasehold	- Over the period of the lease
Computer equipment	- 33% on cost

Residual value represents the estimated amount which would currently be obtained from disposal of an asset after deducting estimated costs of disposal, if the asset were already at an age and in the condition expected at the end of its estimated useful life.

The need for any fixed asset impairment write down is assessed by comparison of the carrying value of the assets against the higher of realisable value and value in use.

The gain or loss arising on the disposal of an asset is determined on the difference between the sale proceeds and the carrying value of the asset, and is recognised in the income and expenditure account.

**Notes to the Financial Statements - continued
for the Year Ended 31 March 2019**

2. ACCOUNTING POLICIES - continued

Taxation

Current tax, including UK corporation tax is provided at amounts expected to be paid (or recovered) using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

Cash and cash equivalents

Cash and cash equivalents include cash in hand and deposits held at call with banks.

Foreign currencies

Assets and liabilities in foreign currencies are translated into sterling at the rates of exchange ruling at the balance sheet date. Transactions in foreign currencies are translated into sterling at the rate of exchange ruling at the date of transaction. Exchange differences are recognised in the income and expenditure account.

Leasing commitments

Rentals under operating leases are charged on a straight line basis over the period of the lease.

Retirement benefits

The company operates a defined contribution scheme. Contributions payable to the company's pension scheme are charged to the income and expenditure account in the period to which they relate.

Employee benefits

The costs of short-term employee benefits are recognised as a liability and an expense.

Where material, the cost of any unused holiday entitlement is recognised in the period in which the employee's services are received.

Termination benefits are recognised immediately as an expense when the company is demonstrably committed to terminate the employment of an employee or to provide termination payments.

Financial instruments

Financial assets and financial liabilities are recognised when the company becomes a party to the contractual provisions of the instrument.

Financial liabilities are classified according to the substance of the contractual arrangements entered into.

All financial assets and liabilities are initially measured at transaction price (including transaction costs), except for those financial assets classified as at fair value through profit and loss, which are initially measured at fair value (which is normally the transaction price excluding transaction costs), unless the arrangement constitutes a financing transaction. If an arrangement constitutes a financing transaction, the financial asset or financial liability is measured at the present value of the future payments discounted at a market rate of interest for a similar debt instrument.

The following assets and liabilities are classified as basic financial instruments - trade debtors, other debtors, cash and bank balance, trade creditors and other creditors.

Trade debtors, other debtors, cash and bank balances, trade creditors and other creditors are measured at the amortised cost equivalent to the undiscounted amount of cash or other consideration expected to be paid or received.

Notes to the Financial Statements - continued
for the Year Ended 31 March 2019

2. ACCOUNTING POLICIES - continued

Impairment of assets

Assets are assessed for indicators of impairment at each balance sheet date. If there is objective evidence of impairment, an impairment loss is recognised in profit and loss as described below.

Non financial assets

An asset is impaired when there is objective evidence that, as a result of one or more events that occurred after initial recognition, the estimated recoverable value of the asset has been reduced. The recoverable amount of an asset is the higher of its fair value less costs to sell and its value in use.

Financial assets

For financial assets carried at cost less impairment, the impairment loss is the difference between the asset's carrying amount and the best estimate of the amount that would be received for the asset if it were sold at the reporting date.

Where indicators exist for a decrease in impairment loss, and the decrease can be related objectively to an event occurring after the impairment was recognised, the prior impairment loss is tested to determine reversal. An impairment loss is reversed on an individual impaired financial asset to the extent that the revised recoverable value does not lead to a revised carrying amount higher than the carrying value had the impairment loss not been recognised.

3. EMPLOYEES AND DIRECTORS

The average number of employees during the year was 28 (2018 - 16).

4. TANGIBLE FIXED ASSETS

	Short leasehold £	Computer equipment £	Totals £
COST
