---

For the year ending 31 December 2019 the company was entitled to exemption from audit under section 479A of the Companies Act 2006 relating to subsidiary companies.

**Directors' responsibilities:**

- The members have not required the company to obtain an audit in accordance with section 476 of the Companies Act 2006.
- *The directors acknowledge their responsibilities for complying with the requirements of the Act with respect to accounting records and the preparation of accounts.*
- These accounts have been prepared and delivered in accordance with the provisions applicable to companies subject to the small companies' regime.
- The company has taken advantage of section 444(1) of the Companies Act 2006 and opted not to deliver to the registrar a copy of the company's Profit and Loss Account.
- All of the company's members have consented to the preparation of an Abridged Profit and Loss Account and an Abridged Balance Sheet for the year end 31 December 2019 in accordance with section 444(2A) of the Companies Act 2006.

On behalf of the board

Mr Lawrence Bates  
Director

18/12/2020

The notes on pages 3 to 7 form part of these financial statements.

**Nobel Oil E&P Management (UK) Limited**  
**Notes to the Unaudited Abridged Financial Statements**  
**For The Year Ended 31 December 2019**

## **1. Accounting Policies**

### **1.1. Basis of Preparation of Financial Statements**

These financial statements have been prepared in accordance with FRS 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" ("FRS 102") and the requirements of the Companies Act 2006 as applicable to companies subject to the small companies regime. The disclosure requirements of section 1A of FRS 102 have been applied other than where additional disclosure is required to show a true and fair view.

The financial statements are prepared in US dollars, which is the functional currency of the company. Monetary amounts in these financial statements are rounded to the nearest \$'000.

The financial statements have been prepared under the historical cost convention. The principal accounting policies adopted are set out below.

This company is a qualifying entity for the purposes of FRS 102, being a member of a group where the parent of that group prepares publicly available consolidated financial statements, including this company, which are intended to give a true and fair view of the assets, liabilities, financial position and profit or loss of the group. The company has therefore taken advantage of exemptions from the following disclosure requirements:

- Section 4 'Statement of Financial Position' – Reconciliation of the opening and closing number of shares;
- Section 7 'Statement of Cash Flows' – Presentation of a statement of cash flow and related notes and disclosures;
- Section 11 'Basic Financial Instruments' and Section 12 'Other Financial Instrument Issues' – Carrying amounts, interest income/expense and net gains/losses for each category of financial instrument; basis of determining fair values; details of collateral, loan defaults or breaches, details of hedges, hedging fair value changes recognised in profit or loss and in other comprehensive income;
- Section 26 'Share based Payment' – Share-based payment expense charged to profit or loss, reconciliation of opening and closing number and weighted average exercise price of share options, how the fair value of options granted was measured, measurement and carrying amount of liabilities for cash-settled share-based payments, explanation of modifications to arrangements;
- Section 33 'Related Party Disclosures' – Compensation for key management personnel.

The financial statements of the company are consolidated in the financial statements of Nobel Oil E&P (UK) Limited. These consolidated financial statements are available from its registered office, 48 Dover Street, London W1S 4FF, United Kingdom.

### **1.2. Going Concern Disclosure**

The directors have not identified any material uncertainties related to events or conditions that may cast significant doubt about the company's ability to continue as a going concern. After the period end, the spread of COVID-19 and measures introduced by governments across the world to manage the pandemic led to an unprecedented drop in global demand for oil. In addition, a disagreement within OPEC+ on or about 7 March 2020 triggered an oil price war that caused the largest one-day fall in the oil price since 1991.

The Company will meet its ongoing obligations at least over the next 12 months from its available cash balance and cash flows generated from operations. Any additional funding (as approved by the directors) will be provided by the Company's parent company Nobel Oil E&P (UK) Limited. As such, the directors have a reasonable expectation that the Company has adequate resources to continue in existence for the foreseeable future.

### **1.3. Turnover**

Turnover is measured at the fair value of the consideration received or receivable, net of discounts and value added taxes. Turnover includes revenue earned from the sale of goods and from the rendering of services. Turnover is reduced for estimated customer returns, rebates and other similar allowances.

### **Rendering of services**

Turnover from the rendering of services is recognised by reference to the stage of completion of the contract. The stage of completion of a contract is measured by comparing the costs incurred for work performed to date to the total estimated contract costs. Turnover is only recognised to the extent of recoverable expenses when the outcome of a contract cannot be estimated reliably.

### **1.4. Tangible Fixed Assets and Depreciation**

Tangible fixed assets are measured at cost less accumulated depreciation and any accumulated impairment losses.

Depreciation is provided at rates calculated to write off the cost of the fixed assets, less their estimated residual value, over their expected useful lives on the following bases:

Plant & Machinery	3 to 5 years straight line
Fixtures & Fittings	3 to 5 years straight line

*The gain or loss arising on the disposal of an asset is determined as the difference between the sale proceeds and the carrying value of the asset, and is credited or charged to profit or loss.*

### **Impairment of fixed assets**

At each reporting period end date, the company reviews the carrying amounts of its tangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). Where it is not possible to estimate the recoverable amount of an individual asset, the company estimates the recoverable amount of the cash-generating unit to which the asset belongs.

Recoverable amount is the higher of fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

*If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognised immediately in profit or loss, unless the relevant asset is carried at a revalued amount, in which case the impairment loss is treated as a revaluation decrease.*

Recognised impairment losses are reversed if, and only if, the reasons for the impairment loss have ceased to apply. Where an impairment loss subsequently reverses, the carrying amount of the asset (or cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or cash-generating unit) in prior years. A reversal of an impairment loss is recognised immediately in profit or loss, unless the relevant asset is carried at a revalued amount, in which case the reversal of the impairment loss is treated as a revaluation increase.

---

### **1.5. Financial Instruments**

The company has elected to apply the provisions of Section 11 'Basic Financial Instruments' and Section 12 'Other Financial Instruments Issues' of FRS 102 to all of its financial instruments.

Financial instruments are recognised in the company's balance sheet when the company becomes party to the contractual provisions of the instrument.

Financial assets and liabilities are offset, with the net amounts presented in the financial statements, when there is a legally enforceable right to set off the recognised amounts and there is an intention to settle on a net basis or to realise the asset and settle the liability simultaneously.

#### **Basic financial assets**

Basic financial assets, which include debtors and cash and bank balances, are initially measured at transaction price including transaction costs and are subsequently carried at amortised cost using the effective interest method unless the arrangement constitutes a financing transaction, where the transaction is measured at the present value of the future receipts discounted at a market rate of interest. Financial assets classified as receivable within one year are not amortised.

#### **Classification of financial liabilities**

Financial liabilities and equity instruments are classified according to the substance of the contractual arrangements entered into. An equity instrument is any contract that evidences a residual interest in the assets of the company after deducting all of its liabilities.

#### **Basic financial liabilities**

Basic financial liabilities, including creditors, bank loans, loans from fellow group companies and preference shares that are classified as debt, are initially recognised at transaction price unless the arrangement constitutes a financing transaction, where the debt instrument is measured at the present value of the future payments discounted at a market rate of interest. Financial liabilities classified as payable within one year are not amortised.

Debt instruments are subsequently carried at amortised cost, using the effective interest rate method.

Trade creditors are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. Amounts payable are classified as current liabilities if payment is due within one year or less. If not, they are presented as non-current liabilities. Trade creditors are recognised initially at transaction price and subsequently measured at amortised cost using the effective interest method.

### **1.6. Foreign Currencies**

Transactions in currencies other than US dollars are recorded at the rates of exchange prevailing at the dates of the transactions. At each reporting end date, monetary assets and liabilities that are denominated in foreign currencies are retranslated at the rates prevailing on the reporting end date. Gains and losses arising on translation are included in the profit and loss account for the period.

### **1.7. Pensions**

The company operates a defined pension contribution scheme. Contributions are charged to the profit and loss account as they become payable in accordance with the rules of the scheme.

### **1.8. Fixed asset investments**

Interests in subsidiaries are initially measured at cost and subsequently measured at cost less any accumulated impairment losses. The investments are assessed for impairment at each reporting date and any impairment losses or reversals of impairment losses are recognised immediately in profit or loss.

A subsidiary is an entity controlled by the company. Control is the power to govern the financial and operating policies of the entity so as to obtain benefits from its activities.

## **2. Average Number of Employees**

Average number of employees during the year was as follows: 10 (2018: 10).

**Nobel Oil E&P Management (UK) Limited**  
**Notes to the Unaudited Abridged Financial Statements (continued)**  
**For The Year Ended 31 December 2019**

**3. Tangible Assets**

**Total  
\$'000s**
