1. STATUTORY INFORMATION

Thefullworks Limited is a private company, limited by shares, registered in England and Wales. The company's registered number and registered office address can be found on the Company Information page.

2. ACCOUNTING POLICIES

Basis of preparing the financial statements

These financial statements have been prepared in accordance with Financial Reporting Standard 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" including the provisions of Section 1A "Small Entities" and the Companies Act 2006. The financial statements have been prepared under the historical cost convention.

Going Concern

Accounting standards require the director to consider the appropriateness of the going concern basis when preparing the financial statements. The director confirms that he considers that the going concern basis remains appropriate. The director believes that the company has sufficient resources to continue in operational existence for the foreseeable future. Thus he continues to adopt the going concern basis of accounting in preparing the annual financial statements.

Due to the COVID19 crisis the company saw the closure of some warehousing and events being halted. The director therefore took the decision to refocus into the retail industry to continue to serve clients. To reduce the initial impact of the pandemic, the company took advantage of the Government's Job Retention Scheme and furloughed some staff however as business has started to pick up again these members of staff have been reintroduced into flexible furlough.

Having regard to the above, the director believes it is appropriate to adopt the going concern basis of accounting in preparing the financial statements.

Turnover

Turnover is measured at the fair value of the consideration received or receivable, excluding discounts, rebates, value added tax and other sales taxes.

- the amount of turnover can be measured reliably;
- it is probable that the Company will receive the consideration due under the contract;
- the stage of completion of the contract at the end of the reporting period can be measured reliably; and
- the costs incurred and the costs to complete the contract can be measured reliably.

Taxation
