In accordance with Section 444 of the Companies Act 2006, the Statement of Comprehensive Income has not been delivered.

The financial statements were approved by the director on 17 January 2020 and were signed by:

B M O'Neill - Director

1. **STATUTORY INFORMATION**

SOLAR INVEST UK LIMITED is a private company, limited by shares, registered in England and Wales. The company's registered number and registered office address can be found on the Company Information page.

The presentation currency of the financial statements is the Pound Sterling (£).

2. **ACCOUNTING POLICIES**

Basis of preparing the financial statements

These financial statements have been prepared in accordance with Financial Reporting Standard 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" including the provisions of Section 1A "Small Entities" and the Companies Act 2006. The financial statements have been prepared under the historical cost convention.

Related party exemption

The company has taken advantage of exemption, under the terms of Financial Reporting Standard 102 'The Financial Reporting Standard applicable in the UK and Republic of Ireland', not to disclose related party transactions with wholly owned subsidiaries within the group.

Financial instruments

Financial instruments are classified and accounted for according to the substance of the contractual arrangements as either financial assets, financial liabilities or equity instruments, and are held at amortised cost. An equity instrument is any contract that evidences a residual interest in the assets of the company after deducting all its liabilities.

Loans and borrowings are initially recognised at the transaction price including transaction costs. Subsequently, they are measured at amortised cost using the effective interest rate method, less impairment. If an arrangement constitutes a finance transaction it is measured at present value of the future payments discounted at a market rate of interest for a similar debt instrument.

Taxation

Taxation for the year comprises current and deferred tax. Tax is recognised in the Income Statement, except to the extent that it relates to items recognised in other comprehensive income or directly in equity.

Current or deferred taxation assets and liabilities are not discounted.

Current tax is recognised at the amount of tax payable using the tax rates and laws that have been enacted or substantively enacted by the statement of financial position date.

Deferred tax

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the statement of financial position date.

Timing differences arise from the inclusion of income and expenses in tax assessments in periods different from those in which they are recognised in financial statements. Deferred tax is measured using tax rates and laws that have been enacted or substantively enacted by the year end and that are expected to apply to the reversal of the timing difference.

Unrelieved tax losses and other deferred tax assets are recognised only to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits.

Notes to the Financial Statements - continued
for the Year Ended 31 December 2018

2. ACCOUNTING POLICIES - continued

Foreign currencies

Assets and liabilities in foreign currencies are translated into sterling at the rates of exchange ruling at the statement of financial position date. Transactions in foreign currencies are translated into sterling at the rate of exchange ruling at the date of transaction. Exchange differences are taken into account in arriving at the operating result.

Going concern

Despite the fact that the company had net liabilities at the period end, at the time of approving the financial statements, the directors have a reasonable expectation that the company has adequate resources to continue in operational existence for the foreseeable future. The directors have obtained a letter of support from the company's ultimate parent, along with a letter of subordination from its main creditor (loan of £2,715,114) confirming that they would not demand repayment of the loan should doing so result in an insolvency event for the company. On this basis, the director continues to adopt the going concern basis of accounting in preparing the financial statements.
