for the year ended 31 March 2021

1. STATUTORY INFORMATION

Grange Portfolio Holdings Limited is a private company, limited by shares, registered in England and Wales. The company's registered number and registered office address can be found on the Company Information page.

2. ACCOUNTING POLICIES

Basis of preparing the financial statements

These financial statements have been prepared in accordance with applicable United Kingdom accounting standards, including Financial Reporting Standard 102 Section 1A - "The Financial Reporting Standard applicable in the UK and Republic of Ireland" ("FRS 102 Section 1A") and with the Companies Act 2006. The financial statements have been prepared under the historical cost basis.

The financial statements are presented in Sterling (£) and cover the period to the 31st March each year.

Going Concern

At the time of approving the financial statements, the directors have a reasonable expectation that the company has adequate resources to continue in operational existence for the foreseeable future. Thus the directors continue to adopt the going concern basis of accounting in preparing the financial statements.

Preparation of consolidated financial statements

The financial statements contain information about Grange Portfolio Holdings Limited as an individual company and do not contain consolidated financial information as the parent of a group. The company is exempt under Section 399(2A) of the Companies Act 2006 from the requirements to prepare consolidated financial statements.

Investments in subsidiaries

Investments in subsidiary undertakings are recognised at cost.

Taxation

Taxation for the year comprises current and deferred tax. Tax is recognised in the Statement of Income and Retained Earnings, except to the extent that it relates to items recognised in other comprehensive income or directly in equity.

Current or deferred taxation assets and liabilities are not discounted.

Current tax is recognised at the amount of tax payable using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

Deferred tax

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date.

Timing differences arise from the inclusion of income and expenses in tax assessments in periods different from those in which they are recognised in financial statements. Deferred tax is measured using tax rates and laws that have been enacted or substantively enacted by the year end and that are expected to apply to the reversal of the timing difference.

Unrelieved tax losses and other deferred tax assets are recognised only to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits.

6. FINANCIAL RISK MANAGEMENT

The company as a standalone entity does not face any financial risk, however as parent company the risks it faces are those of its subsidiary entities, in particular:

Credit risk

The company has limited exposure to credit risks due its income stream being from commissions and rental and so a limited amount of income comes with credit terms.

Liquidity risk

The directors have ultimate responsibility for liquidity risk management in maintaining adequate reserves and banking facilities.

Interest rate risk

The company has significant borrowings which are impacted by the interest rate set by the Bank of England, and so the company is sensitive to movements in the base rate. Where possible strategies to mitigate this risk have been implemented.

Market risk

There is a market risk associated with the fluctuation in demand for the mortgage and protection services provided by the company's subsidiaries. Most of this is mitigated by monitoring the markets to ensure that overheads and costs are tailored to the demand for the services offered.

The company holds no derivative financial instruments at the year end.
