Report of the statutory auditors to the general meeting of

ANDREW AG, BACHENBÜLACH

As statutory auditors, we have audited the accounting records and the financial statements (balance sheet, statement of income and notes) of Andrew AG for the year ended September 30, 2000. The audit work was completed on October 17, 2000.

These financial statements are the responsibility of the board of directors. Our responsibility is to express an opinion on these financial statements based on our audit. We confirm that we meet the legal requirements concerning professional qualification and independence.

Our audit was conducted in accordance with auditing standards promulgated by the Swiss profession, which require that an audit be planned and performed to obtain reasonable assurance about whether the financial statements are free from material misstatement. We have examined on a test basis evidence supporting the amounts and disclosures in the financial statements. We have also assessed the accounting principles used, significant estimates made and the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the accounting records and financial statements and the proposed appropriation of retained earnings comply with Swiss law and the company's articles of incorporation, with the exception of the following:

The accompanying financial statements include advances to affiliate of CHF 14'825'796 which represent loans granted to a venture company domiciled in Russia and are due for repayment in a future year. The ultimate collection of these loans cannot presently be determined with certainty as it will depend on the further developments of the venture company's operating results and the economy of the country and its currency. No provisions have been made in the accompanying financial statements to account for this uncertainty.

We recommend that, despite of the exception referred to above, the financial statements submitted to you be approved, as a collection of the advances does not appear to be impossible.
