1. Description of Business

Au Naturel (UK), Inc. (the "Company") is a distributor and marketer of quality branded nutritional supplements sold to health and natural food stores. The Company was established as a branch in England and Wales in April of 2002.

2. Summary of Significant Accounting Policies

Cash – Substantially all of the Company's cash was held by one bank at September 30, 2019. The Company does not believe that, as a result of this concentration, it is subject to any unusual financial risk beyond the normal risk associated with commercial banking relationships.

Inventories – Inventories included freight-in, materials, labor and overhead costs were stated at the lower of cost or market, cost being determined by a moving weighted average.

Property, Plant and Equipment – Property, plant and equipment were stated at cost, less accumulated depreciation and amortization. Depreciation and amortization were provided using the straight-line method over the estimated useful lives of the respective assets. Expenditures for renewals and betterments were capitalized, while maintenance and repairs were charged to operations in the periods incurred. Upon sale or disposal of an asset, the historical cost and related accumulated depreciation or amortization of such asset were removed from their respective accounts and any gain or loss was recorded in the Profit and Loss Statement.

Foreign Currency Translation – Generally, transactions of the Company are initially recorded in British Pounds ("GBP"). Balance sheet transactions occurring in currencies other than GBP are translated into GBP at period-end exchange rates. Income and expense items are translated at average exchange rates prevailing during the period. The resulting translation adjustments are recorded as a component of stockholders' equity.

Turnover - Turnover represents net invoiced sales of goods, excluding VAT. A sale was recognized upon shipment of merchandise to a customer. At the time of sale, a provision was made for estimated customer returns and allowances.

Research and Development - The Company expensed research and development costs as incurred.

Advertising - The Company expenses advertising costs as incurred.
