DIRECTORS' REPORT

YEAR ENDED 31 DECEMBER 2013

The Directors present their annual report and the unaudited financial statements of the company for the year ended 31 December 2013. The company is a Delaware corporation, however as the parent company's shares are quoted on the Alternative Investment Market in London, the financial statements have been prepared using United Kingdom Generally Accepted Accounting Principles.

PRINCIPAL ACTIVITIES AND BUSINESS REVIEW

The principal activity of the parent company and of the Group during the year was to develop a platform for the delivery and management of targeted, contextual and behavioural online advertising campaigns on behalf of its clients. The Review of Business is included in the Directors reports.

PRINCIPAL RISKS AND UNCERTAINTIES

The Directors recognise that within the business there are a number of risks, which may affect the performance of the Group. These risks are subjected to regular review and where appropriate processes are established to minimise the level of exposure.

ISP Risk

The Group's plan to deploy its service using the network of numerous ISPs is wholly dependent on reaching arrangements with such ISPs. There can be no assurance that we will be able to reach satisfactory agreements with said ISPs.

Financial Risks

The Group's financial instruments comprise cash and other items, including trade debtors and trade creditors that arise directly from its operations. The Group seeks to reduce or eliminate financial risk and to invest cash assets safely and profitably. It operates within policies and procedures approved by the Board, which include strict controls on the use of financial instruments in managing the Group's risk. The Group has transactional currency exposure as it deals in multi-currencies however the Directors do seek to limit this risk as much as possible.

People

One of the key assets of the Group is the commitment and skill of its staff. The retention of these people is therefore key to the success of the business. The Group monitors closely the satisfaction of its employees and that their remuneration packages match both contribution and the wider employment market. In addition the Group has a share option scheme which allows employees to participate in the success of the Group as a whole.

Technology and market changes

Phorm UK, Inc. operates at the forefront of the digital advertising technology marketplace. The Directors acknowledge that this is a rapidly evolving environment and the Group monitors closely how changes will impact the Group. During 2006 the Directors made a strategic decision to redirect the focus of the Group towards the ISP marketplace. The Group has needed to expend considerable capital in pursuing its strategy with the global ISP community prior to obtaining any significant revenues from this business.

Competition

The Group continuously monitors new product offerings into the market place and the Directors believe Phorm's technical team have a strong track record in maintaining competitive advantage.

RESEARCH AND DEVELOPMENT

Research and development is undertaken on an ongoing basis in order to further develop and enhance the Group's software products.

DIRECTORS' REPORT

YEAR ENDED 31 DECEMBER 2013

THE DIRECTORS AND THEIR INTERESTS

The Directors at the end of the year were as follows

K Ertugrul

None of the directors who served during the year had any beneficial interests in the share capital of the company

EMPLOYEE CONSULTATION

The policy of informing and consulting with employees is maintained by means of regular team briefs, conference calls and meetings. Employees are encouraged to present their views and suggestions in respect of the Group's performance.

CREDITOR PAYMENT POLICY

The Group's current policy concerning the payment of trade creditors is to

- (i) settle the terms of payment with suppliers when agreeing the terms of each transaction
- (ii) ensure that suppliers are made aware of the terms of payment by inclusion of the relevant terms in contracts
- (iii) pay in accordance with the Group's contractual or other legal obligations

The average trade creditor days for the year were 10 days (2012 14 days)

PHORM UK, INC.

STATEMENT OF DIRECTORS' RESPONSIBILITIES

FOR THE YEAR ENDED 31 DECEMBER 2013

The Directors are responsible for preparing the Annual Report and the financial statements in accordance with applicable law and regulations

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have elected to prepare the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards and applicable law). The financial statements are required by law to give a true and fair view of the state of affairs of the company and of the profit or loss of the company for that period. In preparing these financial statements, the directors are required to

- select suitable accounting policies and then apply them consistently,
- make judgments and estimates that are reasonable and prudent,
- state whether applicable UK Accounting Standards have been followed, subject to any material departures disclosed and explained in the financial statements,
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The Directors are responsible for keeping proper accounting records that disclose with reasonable accuracy at any time the financial position of the company and enable them to ensure that the financial statements comply with the Companies Act 1985. They are also responsible for safeguarding the assets of the company and hence for and detection of fraud and other irregularities.

NOTES TO THE FINANCIAL STATEMENTS

YEAR ENDED 31 DECEMBER 2013

1 ACCOUNTING POLICIES

The financial statements are prepared in accordance with applicable United Kingdom law and accounting standards. The particular accounting policies adopted are described below, and have been applied consistently in the current and preceding year.

Basis of preparation

These financial statements present information about the company as an individual undertaking and not about its group. The accounts have been prepared on an historical cost basis.

The company is exempt from the obligation to prepare and deliver group accounts under Sections 228(2) of the Companies Act 1985 as it is a wholly-owned subsidiary of Phorm Corporation Ltd (see note 19).

Basis of going concern

These financial statements have been prepared on a going concern basis which assumes that the company will continue to be supported by its parent, Phorm Corporation Ltd.

Turnover

Turnover represents amounts receivable for services net of VAT and trade discounts.

Research and development

In accordance with best practice in the software industry, research and development expenditure is expensed to the profit and loss accounts as incurred.

Tangible fixed assets

All tangible fixed assets are initially recorded at cost, and then stated at cost less depreciation.

Depreciation

Depreciation is calculated so as to write off the cost of an asset, less its estimated residual value, over the useful economic life of that asset as follows:

Computer hardware & machinery	- 50% on cost
Fixtures and fittings	- 33% on cost
Software development costs	- 50% on cost

Fixed asset investments

Fixed asset investments are stated at cost less provision for impairment in value.

Leasing and hire purchase commitments

Assets held under finance leases and hire purchase contracts are treated as if they had been purchased outright at the present value of the rentals payable, less finance charges, over the primary period of the agreements. The corresponding obligations under these agreements are included in creditors. The finance element of the rentals payable is charged to the profit and loss account so as to produce a constant rate of charge on the outstanding balance in each period.

Rentals applicable to operating leases where substantially all of the benefits and risks of ownership remain with the lessor are charged against profits on a straight-line basis over the period of the lease.

Contribution to pension funds

The company contributes to individual defined contribution pension plans for the benefit of certain employees and directors. The assets of the scheme are administered by trustees in a fund independent from those of the company.

The pension costs charged against profits represent the amount of the contributions payable to the scheme in respect of the accounting period.

ACCOUNTING POLICIES *(Continued)*

Share based payments

The Group issues equity-settled share-based payments to certain employees and has applied Financial Reporting Standard No 20 'Share-based payments'

The cost of employee share-based compensation awards is recognised as an expense. The total amount to be expensed rateably over the vesting period is determined by reference to the fair value of the options determined at the grant date, excluding the impact of non-market vesting conditions (for example, profitability and sales targets). Non-market vesting conditions are included in the assumptions about the number of options that will eventually vest. This estimate is revised at each reporting date and an adjustment is made to the profit and loss account. Fair value is measured by using the Black-Scholes pricing model, except for options with market based vesting conditions, where a binomial model is used.

Employer's taxes on share options

Employers' national insurance contributions in the UK, are calculated using the market value of the company's shares at the reporting date, and pro-rated over the vesting period of the options.

Deferred taxation

Current tax, including UK corporation tax and foreign tax, is provided at amounts expected to be paid (or recovered) using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

Deferred tax is provided in full on timing differences which result in an obligation at the balance sheet date to pay more tax, or a right to pay less tax, at a future date, at rates expected to apply when they crystallise based on current rates and law. Timing differences arise from the inclusion of items of income and expenditure in taxation computations in periods different from those in which they are included in the accounts. Deferred tax is not provided on timing differences arising from the revaluation of fixed assets where there is no commitment to sell the assets. Deferred tax assets are recognised to the extent that it is regarded as more likely than not that they will be recovered. Deferred tax assets and liabilities are not discounted.

Foreign currencies

Monetary assets and liabilities in foreign currencies are translated into US dollars at the closing rates of exchange ruling at the balance sheet date. Transactions in foreign currencies are translated into US dollar at the rate of exchange ruling at the date of the transaction. All differences are taken to the profit and loss account.

The results of overseas branches are translated into US dollars at the average rates for the year. The net assets/(liabilities) of overseas branches are translated at year-end exchange rates. The exchange differences arising on translation of the opening net assets/(liabilities) and results of overseas operations are taken to reserves.

Functional and presentation currency

Items included in the financial statements of the entity are measured using the currency of the primary economic environment in which the entity operates ("the functional currency"). The Company's only cash flows relate to the provision of inter-company loans in GBP sterling from the parent company. The functional currency of the Company has therefore been determined to be GBP sterling. The financial statements are presented in US dollars, which differs to the functional currency of the Company. A different presentation currency has been used as the company considers this aids comparability with other companies in the sector and reflects the international nature of the Group's operations.

Cash flow statement

The company has taken advantage of the exemption available under Financial Reporting Standard No 1 'Cash flow statements (Revised 1996)' not to prepare a statement of cash flows as it is a wholly-owned subsidiary undertaking. Phorm UK, Inc. cash flows are included in the consolidated accounts of Phorm, Inc, which are publicly available.

Segmental reporting

The company has taken advantage of the exemption available under Statement of Standard Accounting Practice 25 'Segmental reporting', paragraph (41) not to provide additional segmental reporting disclosures as it is a wholly owned subsidiary undertaking. Phorm UK, Inc. segmental reporting disclosures are included in the consolidated accounts of Phorm Inc, which are publicly available.

PHORM UK, INC.

NOTES TO THE FINANCIAL STATEMENTS

YEAR ENDED 31 DECEMBER 2013

2 TURNOVER

During 2006 the Directors made a strategic decision to cease the sale and marketing of the desktop software business (Pagesense Desktop), and focus the company's resources on the online behavioural and contextual advertising market through arrangements with global ISPs. The company therefore did not generate any revenue in the current year (2012: none).

The expected volatility was based upon historical volatility of the Company's share price from IPO to date of grant. The expected life used in the model has been adjusted, based on management's best estimate, for the effects of non-transferability, exercise restrictions, and behavioural considerations.

Market based performance conditions have been incorporated into the determination of the fair value of relevant share options through the use of a Monte Carlo simulation model.

The likelihood of non-market based performance conditions being satisfied has been incorporated into the number of options expected to vest by reference to the Group's business plan approved by the Board.

The Company recognised total expenses of \$10,160,169 in 2013 (2012: \$24,482,255) related to equity-settled share based payment transactions.
