NOTES TO FINANCIAL STATEMENTS
for the year ended 31 March 2018

1. Accounting policies

Basis of preparation

The financial statements have been prepared under the historical cost convention and in accordance with applicable accounting standards and title 9 of the Civil Code Book 2.

Basis of consolidation

The Company's ultimate parent company and controlling party is ERM Worldwide Group Limited. ERM Worldwide Group Limited has included the company in its consolidated financial statements for the year ended 31 March 2018, copies of which are available from UK Companies House. The company has therefore taken advantage of the exemption for sub-consolidation as mentioned in article 408, paragraph 1b of the Civil Code Book 2.

Investments

Investments held as fixed assets are stated at cost, less provision for permanent diminution in value. Those held as current assets are stated at the lower of cost and net realisable value.

The carrying values of fixed asset investments are reviewed for impairments if events or changes in circumstances indicate that the carrying value may not be recoverable.

Deferred taxation

Deferred taxation is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date where transactions or events have occurred at that date that will result in an obligation to pay more tax, or a right to pay less or to receive more tax, with the following exceptions:

- Provision is made for deferred taxation that would arise on remittance of the retained earnings of subsidiaries, associates and joint ventures only to the extent that, at the balance sheet date, dividends have been accrued as receivable; and
- Deferred tax assets are recognised only to the extent that the directors consider that it is more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted.

Deferred tax is measured on an undiscounted basis at the tax rates that are expected to apply in the periods in which timing differences reverse, based on tax rates and laws enacted or substantively enacted at the balance sheet date.

Foreign Currencies

Transactions in foreign currencies are recorded at the rate ruling at the date of the transaction.

Monetary assets and liabilities denominated in foreign currencies are translated at the rate of exchange ruling at the balance sheet date. All differences are taken to the profit and loss account.
