### **Notes to the Financial Statements for the Year Ended 31 December 2020**

#### **1 General information**

##### **General**

The Company is a limited liability company established in Amsterdam on 21 December 1994. The Principle activity of the Company is to act as a finance company.

#### **2 Accounting policies**

##### **Summary of principle accounting policies**

###### **(a) General**

The accompanying accounts have been prepared in accordance with the provisions of EU Directives as implemented in Part 9, Book 2 of the Dutch Civil Code.

###### **(b) Consolidation**

Consolidated accounts have not been prepared as the Company makes use of Section 408, Part 9, Book 2 of the Dutch Civil Code in filing with the Trade Register of the Chamber of Commerce in Amsterdam the consolidated Annual Report of its ultimate parent company, SEGRO plc, London, U.K.

###### **(c) Foreign currencies**

All Assets and liabilities expressed in currencies other than Euros have been translated at the rates of exchange prevailing at the balance sheet date. All transactions in foreign currencies have been translated into Euros at rates of exchange approximating to those ruling at the date of the transactions. Resulting exchange differences, if any, have been recognised in the profit and loss account.

###### **(d) Other assets and liabilities**

Unless otherwise indicated assets and liabilities are stated at face value.

##### **Going concern**

The financial statements have been prepared on a going concern basis, as the Directors intend the Company to maintain the same level of activity during the forthcoming year.

##### **Loans**

Loans, other than bank overdrafts, are recognised initially at fair value less attributable transaction costs. Subsequent to initial recognition, loans are stated at amortised cost with any difference between the amount initially recognised and the redemption value being recognised in the profit and loss account over the period of the loans, using the effective interest method.

Gross borrowing costs relating to direct expenditure on properties under development or undergoing major refurbishment are capitalised. The interest capitalised is calculated using the weighted average cost of the loan. Interest is capitalised as from the commencement of the development work until the date of practical completion. The capitalisation of finance costs is suspended if there are prolonged periods when development activity is interrupted.

##### **Trade and other receivables**

Trade and other receivables are booked at fair value and subsequently measured at amortised cost using the effective interest method. An impairment provision is created for receivables where there is objective evidence that the Group will not be able to collect in full. Trade and other payables are initially measured at fair value, net of transaction costs and subsequently measured at amortised costs using the effective interest method.

## **SEGRO Netherlands Holdings B.V.**

### **Notes to the Financial Statements for the Year Ended 31 December 2020 (continued)**

#### **2 Accounting policies (continued)**

##### **Cash and cash equivalents**

Cash and cash equivalents comprise cash on hand and call deposits, and other short-term highly liquid investments with original maturities of three months or less that are readily convertible to a known amount of cash and are subject to an insignificant risk of changes in value.

##### **Share capital**

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

#### **3 Critical accounting judgements and key sources of estimation uncertainty**

In the application of the Company's accounting policies, the Directors are required to make judgements, estimates and assumptions about the carrying amount of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates. The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revisions and future periods if the revision affects both current and future periods.

Management have not identified any specific critical accounting judgements and key sources of estimation uncertainty in the current or prior period.
