### A fee is payable with this form Please see 'How to pay' on the last page.

What this form is for

You may use this form to register a UK establishment.

X What this form is NOT fo You cannot use this form t the details of an existing c officer or establishment.

Part 1	Overseas company details (Name)
A1	Corporate name of overseas company
Corporate name •	ALLIANZ GLOBAL CORPORATE & SPECIALTY SE

Do you propose to carry on business in the UK under the corporate name as incorporated in your home state or country, or under an alternative name?

- → To register using your corporate name, go to Section A3.
- → To register using an alternative name, go to Section A2.

### Filling in this form

Please complete in typescript (10pt or above), or in bold black capitals

All fields are mandatory unless specified or indicated by 1

• This must be the corporate name in the home state or country in which the company is incorporated.

### **A2** Alternative name of overseas company \*

Please show the alternative name that the company will use to do business in the UK.

Alternative name (if applicable) 2

A company may register an alternative name under which it proposes to carry on business in the United Kingdom under Section 1048 of the Companies Act 2006. Once registered it is treated as being its corporate name for the purposes of law in the UK.

# Overseas company name restrictions Output Description Output Descri

Please tick the box only if the proposed company name contains sensitive or restricted words or expressions that require you to seek comments of a government department or other specified body.

I confirm that the proposed company name contains sensitive or restricted words or expressions and that approval, where appropriate, has been sought of a government department or other specified body and I attach a copy of their response.

### Overseas company name restrictions

A list of sensitive or restricted words or expressions that require consent can be found in guidance available on our website:

www.gov.uk/companieshouse

Munich, 19.05.2017

Seal

Dr. TILMAN GÖTTE NOTARY IN MUNICH

Dr. Tilman Gtte, Notary

ne foregoing version is identical ith the original,

Junich, 26 May, 2017

Dr. Tilman Götte Notary

### Statutes of Allianz Global Corporate & Specialty SE

### 1. General Provisions

§ 1

- 1.1 The Company's name is Allianz Global Corporate & Specialty SE with registered office in Munich.
- 1.2 The corporate purpose of the Company is the direct and indirect operation of all classes of private insurance at home and abroad with the exception of life and substitutive health insurance.
- 1.3 The Company is authorized to transact any business and to take any measures, which appear appropriate to serve the Company's purpose. It may form and acquire companies and acquire interests in companies as well as manage companies or it may confine itself to managing its interests.
- 1.4 Public announcements shall be effected in the German Federal Gazette (Bundesanzeiger).
- 1.5 The financial year corresponds to the calendar year.

§ 2

The share capital amounts to EUR 36,740,661. It is subdivided into 36,740,661 registered shares with no-par value. The share capital of the Company is generated through the change of legal form of Allianz Global Corporate & Specialty AG into Allianz Global Corporate & Specialty SE by way of merger of Allianz Global Corporate & Specialty (France), Société Anonyme, Paris, France, into Allianz Global Corporate & Specialty AG.

§ 3

- 3.1 The shares are registered and can only be transferred with the approval of the Company. The Company is not obliged to give any grounds if it denies its consent.
- 3.2 The shareholders shall not have the right to receive share certificates.

Certified to be a true and accurate translation

Name: Markus Humberg, Company Secretary Director, Secretary, Personal Representative

### 2. Corporate Bodies

§ 4

Corporate bodies of the Company are:

- the Board of Management
- the Supervisory Board, as well as
- the General Meeting.

### 3. Board of Management

§ 5

- 5.1 The Board of Management shall consist of at least two persons. Otherwise, the number of the members of the Board of Management shall be determined by the Supervisory Board.
- 5.2 Two members of the Board of Management or one member of the Board of Management jointly with an executive vested with general power of attorney under German Law (*Prokura*) shall be entitled to represent the Company.
- 5.3 The member of the Board of Management shall be appointed by the Supervisory Board for a maximum term of five years. Repeated appointments, in each case for a maximum term of five years, are permitted.
- 5.4 The Supervisory Board may decide generally or on a case-by
- case basis that individual or all members of the Board of Management shall be entitled to represent the Company in legal transactions with him/her/themself(ves) acting as representative(s) of a third party.
- 5.5 The Board of Management constitutes a quorum if all members of the Board of Management are invited and if at least half of its members among them the Chairman or a member of the Board of Management appointed by him participate in the meeting.

Absent members of the Board of Management may cast their vote in writing, over the telephone, by telefax, or by electronic media. The absent members of the Board of Management shall be notified about the resolutions passed without undue delay.

- 5.6 The Board of Management adopts its decisions with a simple majority of the members of the Board of Management participating in adopting the resolution, unless mandatory statutory provisions require otherwise. In case of a tie vote, the vote of the Chairman shall be decisive.
- 5.7 The Chairman of the Board of Management has the right to veto a resolution of the Board of Management (veto right). If the Chairman of the Board of Management exercises his veto right, the resolution is deemed not to be adopted.

### 4. Supervisory Board

§ 6

- 6.1 The Supervisory Board consists of six members, who are appointed by the General Meeting. Of the six members, two members shall be appointed upon proposal of the employees. The General Meeting is bound to the proposals for the appointment of the employee representatives. If the agreement regarding the participation of the employees concluded in accordance with the German SE-Employee Participation Act (SEBG) stipulates a different appointment procedure for the employee representatives on the Supervisory Board, the employee representatives are appointed, in deviation from sentence 1 and sentence 2, in accordance with the agreed procedure.
- 6.2 Appointed as members of the first Supervisory Board until the end of the General Meeting, which will resolve on the ratification of actions for the first financial year of AGCS SE, however, not exceeding a period of three years:

Clement Booth

Dr. Helga Jung

Dr. Hermann Joerissen

Jacques Richier

The first financial year of AGCS SE will be the financial year in which the merger of Allianz Global Corporate & Specialty (France), Société Anonyme, into Allianz Global Corporate & Specialty AG will be registered with the commercial register of Allianz Global Corporate & Specialty AG. The additional two members of the Supervisory

§ 7

- 7.1 The appointment of the members of the Supervisory Board will be effected by the General Meeting, subject to Section 6 and Section 7 paras 2 and 3, for the time until the close of the General Meeting which resolves on the ratification of actions in respect of the fourth financial year following the beginning of the term of office, not counting the financial year in which the term of office begins, but in no case longer than six years. Repeated appointments are permitted.
- 7.2 The members and substitute members of the Supervisory Board may resign from office at any time by submitting a written declaration to the Board of Management of the Company.
- 7.3 In the event of a member leaving the Supervisory Board before his term of office has expired, without a substitute member taking his place, a successor shall be elected only for the remaining term of office of the member who has left.

§ 8

- 8.1 From among its members, the Supervisory Board shall elect a Chairman as well as one ore more Deputy Chairmen for a period corresponding to the term of their office on the Supervisory Board.
- 8.2 The Chairman of the Supervisory Board having been elected, the Supervisory Board constitutes a quorum if all members are invited or requested to adopt a resolution and if at least four members participate in the resolution. Resolutions shall be taken with the majority of the members participating in the vote.
- 8.3 In the case of a tie, the vote of the Chairman, and if he does not participate in the voting, the vote of the Deputy Chairman shall be decisive (casting vote).

§ 9

The Supervisory Board may alter the wording of the Statutes.

§ 10

For their activities the members of the Supervisory Board shall receive, in addition to the reimbursement of their expenses incurred in connection with the exercise of their mandate, a remuneration which shall be determined by the General Meeting.

The following types of transactions may be entered into only upon the Supervisory Board's approval:

- The conclusion of affiliate agreements (*Unternehmensverträge*) pursuant to Sections 291 et seq. German Stock Corporations Act (*Aktiengesetz*);
- Loans of the Company to members of the Board of Management and the Supervisory Board and their family members (Sections 89 and 115 German Stock Corporations Act);
- Consultancy and other service and/or work agreements with members of the Supervisory Board which do not qualify as employment contracts (Section 114 German Stock Corporations Act);
- The acceptance of a mandate as a member of the board of management / general manager of another company (including Allianz Group companies) by a member of the Board of Management (Section 88 German Stock Corporations Act).

The Supervisory Board may take further types of transactions contingent upon its approval.

# 5. General Meeting

# § 12

- 12.1 The regular General Meeting shall be held within the first six months after the end of the financial year.
- 12.2 Notice of participation at each General Meeting must be submitted to the Board of Management no later than the third day before the General Meeting, unless the Board of Management determines a later date for notice of participation.
- 12.3 Shareholders shall be entitled to participate in the General Meeting if their respective shares are registered in the share register; the voting right may be exercised by representatives with written authorization.

# § 13

13.1 The General Meeting shall be presided over by the Chairman of the Supervisory Board or, if unable to attend, by another member of the Supervisory Board to be appointed by the Supervisory Board. In the event that neither the Chairman of the Supervisory Board nor any other member of the Supervisory Board appointed for the direction of the General Meeting should be available, the most senior (in terms of age) present

shareholder or shareholder's representative shall open the General Meeting and shall have the General Meeting elect its president.

- 13.2 The voting procedure shall be determined by the person presiding over the meeting. This person may determine an alternative sequence of discussion of items.
- 13.3 Resolution of the General Meeting shall be passed, unless mandatory legal provisions require otherwise, by a simple majority of the valid votes cast. Unless this conflicts with mandatory legal provisions, changes of the share capital require a majority of two-thirds of the votes cast; but if at least one-half of the share capital is represented, only the simple majority of the votes cast. As far as the law requires a capital majority in addition to a majority of votes for resolutions of the General Meeting, a simple majority of the share capital represented at the time the resolution is passed shall be sufficient, to the extent that this is legally admissible.

# 6. Annual Financial Statements; Appropriation of Profits

# § 14

Within the time prescribed by law, the Board of Management shall prepare the annual financial statements (balance sheet, income statement, notes) and the management report and submit those to the Supervisory Board and to the Auditor.

# § 15

In adopting the Annual Accounts, the Board of Management and the Supervisory Board may transfer more than one half of the annual net profit to the revenue reserves, until one half of the capital stock is attained.

# 7. Final Provisions

# § 16

- 16.1 The formation costs pertaining to the merger of Allianz Global Corporate & Specialty (France), Société Anonyme, and Allianz Global Corporate & Specialty AG amount to EUR 2,000,000.00.
- 16.2 In the course of the change of legal form into Allianz Global Corporate & Specialty SE by way of merger of Allianz Global Corporate & Specialty (France), Société

Anonyme, Paris into Allianz Global Corporate & Specialty AG, the following benefits have been granted:

Appointment as Member of the Board of Management and the Supervisory Board of Allianz Global Corporate & Specialty SE

As a matter of legal precaution it is noted that, notwithstanding the legal competence of the Supervisory Board of Allianz Global Corporate & Specialty SE under German stock corporation law, the members of the Board of Management of Allianz Global Corporate & Specialty AG in office as of January 1, 2013 are expected to be appointed as members of the Board of Management of Allianz Global Corporate & Specialty SE. Members of the Board of Management of Allianz Global Corporate & Specialty AG as of January 1, 2013 are Dr. Axel Theis (Chairman), Andreas Berger, Sinéad Browne, Chris Fischer Hirs, Hartmut Mai, Arthur Moossmann, William Scaldaferri.

Furthermore, members and substitute members of the Supervisory Board within the group of shareholder representatives of AGCS AG shall be appointed members or substitute members of the Supervisory Board of AGCS SE, respectively (see Section 6).

# Satzung der Allianz Global Corporate & Specialty SE

# 1. Allgemeine Bestimmungen

§ 1

- 1.1 Die Gesellschaft trägt die Firma Allianz Global Corporate & Specialty SE und hat ihren Sitz in München.
- 1.2 Gegenstand der Gesellschaft ist der unmittelbare und mittelbare Betrieb aller Zweige des privaten Versicherungswesens im In- und Ausland, mit Ausnahme der Lebensund substitutiven Krankenversicherung.
- 1.3 Die Gesellschaft ist zu allen Geschäften und Maßnahmen berechtigt, die geeignet erscheinen, dem Gegenstand des Unternehmens zu dienen. Sie kann Gesellschaften gründen, erwerben und sich an ihnen beteiligen sowie Gesellschaften leiten oder sich auf die Verwaltung der Beteiligung beschränken.
- 1.4 Bekanntmachungen der Gesellschaft erfolgen im Bundesanzeiger.
- 1.5 Das Geschäftsjahr ist das Kalenderjahr.

§ 2

Das Grundkapital beträgt EUR 36.740.661. Es ist eingeteilt in 36.740.661 auf den Namen lautende Stückaktien. Das Grundkapital der Gesellschaft wird durch Formwechsel der Allianz Global Corporate & Specialty AG in die Allianz Global Corporate & Specialty SE im Wege der Verschmelzung der Allianz Global Corporate & Specialty (France), Société Anonyme, Paris, Frankreich, auf die Allianz Global Corporate & Specialty AG erbracht.

§ 3

- 3.1 Die Aktien lauten auf den Namen und k\u00f6nnen nur mit Zustimmung der Gesellschaft \u00fcbertragen werden. Die Gesellschaft ist nicht verpflichtet, eine Ablehnung der Zustimmung zu begr\u00fcnden.
- 3.2 Ein Anspruch der Aktionäre auf Verbriefung ihrer Anteile ist ausgeschlossen.

# 2. Organe

§ 4

# Organe der Gesellschaft sind:

- der Vorstand.
- der Aufsichtsrat sowie
- die Hauptversammlung.

# 3. Vorstand

§ 5

- 5.1 Der Vorstand besteht aus mindestens zwei Personen. Im Übrigen bestimmt der Aufsichtsrat die Zahl der Mitglieder des Vorstands.
- 5.2 Zwei Vorstandsmitglieder oder ein Vorstandsmitglied gemeinschaftlich mit einem Prokuristen vertreten die Gesellschaft.
- 5.3 Die Mitglieder des Vorstands werden vom Aufsichtsrat für einen Zeitraum von höchstens fünf Jahren bestellt. Wiederbestellungen sind für Amtszeiten von jeweils höchstens fünf Jahren zulässig.
- 5.4 Der Aufsichtsrat kann allgemein oder für den Einzelfall bestimmen, dass einzelne oder alle Vorstandsmitglieder berechtigt sind, die Gesellschaft bei Rechtsgeschäften mit sich als Vertreter eines Dritten zu vertreten.
- 5.5 Der Vorstand ist beschlussfähig, wenn alle Vorstandsmitglieder eingeladen sind und mindestens die Hälfte seiner Mitglieder darunter der Vorsitzende oder ein von ihm benanntes Vorstandsmitglied an der Sitzung teilnimmt.

Abwesende Vorstandsmitglieder können ihre Stimme schriftlich, fernmündlich, per Telefax oder durch elektronische Medien abgeben. Die abwesenden Vorstandsmitglieder sind unverzüglich über die gefassten Beschlüsse zu unterrichten.

- 5.6 Der Vorstand trifft seine Entscheidungen mit einfacher Mehrheit der an der Beschlussfassung beteiligten Vorstandsmitglieder, sofern nicht zwingende gesetzliche Vorschriften etwas anderes vorschreiben. Bei Stimmengleichheit ist die Stimme des Vorsitzenden ausschlaggebend.
- 5.7 Der Vorstandsvorsitzende ist berechtigt, einem Vorstandsbeschluss zu widersprechen (Vetorecht). Übt der Vorstandsvorsitzende sein Vetorecht aus, gilt der Beschluss als nicht gefasst.

#### 4. Aufsichtsrat

§ 6

- Der Aufsichtsrat besteht aus sechs Mitgliedern, die von der Hauptversammlung bestellt werden. Von den sechs Mitgliedern sind zwei auf Vorschlag der Arbeitnehmer zu bestellen. Die Hauptversammlung ist an die Vorschläge zur Bestellung der Arbeitnehmervertreter gebunden. Sieht die nach Maßgabe des SE-Beteiligungsgesetzes (SEBG) geschlossene Vereinbarung über die Beteiligung der Arbeitnehmer in der SE ein abweichendes Bestellungsverfahren für die Arbeitnehmervertreter im Aufsichtsrat vor, werden die Arbeitnehmervertreter abweichend von Satz 1 und Satz 2 gemäß dem vereinbarten Verfahren gewählt.
- 6.2 Zu den Mitgliedern des ersten Aufsichtsrats werden bis zur Beendigung der Hauptversammlung, die über die Entlastung für das erste Geschäftsjahr der AGCS SE beschließt, längstens jedoch für einen Zeitraum von drei Jahren, bestellt:

Clement Booth

Dr. Helga Jung

Dr. Hermann Joerissen

Jacques Richier

Das erste Geschäftsjahr der AGCS SE ist das Geschäftsjahr, in dem die Verschmelzung der Allianz Global Corporate & Specialty (France), Société Anonyme, auf die Allianz Global Corporate & Specialty AG im Handelsregister der Allianz

Global Corporate & Specialty AG eingetragen wird. Die auf Vorschlag der Arbeitnehmer zu bestellenden weiteren zwei Aufsichtsratsmitglieder sind nach Beendigung des Verfahrens über die Beteiligung der Arbeitnehmer zu bestellen.

§ 7

- 7.1 Vorbehaltlich § 6 und § 7 Abs. 2 und Abs. 3 erfolgt die Bestellung der Mitglieder des Aufsichtsrats durch die Hauptversammlung für einen Zeitraum bis zur Beendigung der Hauptversammlung, die über die Entlastung für das vierte Geschäftsjahr nach dem Beginn der Amtszeit beschließt, wobei das Geschäftsjahr, in dem die Amtszeit beginnt, nicht mitgerechnet wird, längstens jedoch für sechs Jahre. Wiederbestellungen sind zulässig.
- 7.2 Die Mitglieder und die Ersatzmitglieder des Aufsichtsrats können ihr Amt jederzeit durch schriftliche Erklärung gegenüber dem Vorstand der Gesellschaft niederlegen.
- 7.3 Scheidet ein Mitglied vor Ablauf seiner Amtszeit aus dem Aufsichtsrat aus, ohne dass ein Ersatzmitglied nachrückt, wird ein Nachfolger nur für die restliche Amtszeit des ausgeschiedenen Mitglieds gewählt.

§ 8

- 8.1 Der Aufsichtsrat wählt aus seiner Mitte einen Vorsitzenden sowie einen oder mehrere Stellvertreter für die Dauer ihrer Amtszeit im Aufsichtsrat.
- 8.2 Ist der Vorsitzende des Aufsichtsrats gewählt, so ist der Aufsichtsrat beschlussfähig, wenn sämtliche Mitglieder eingeladen oder zur Beschlussfassung aufgefordert sind und mindestens vier Mitglieder an der Beschlussfassung teilnehmen. Beschlüsse werden mit der Mehrheit der an der Beschlussfassung teilnehmenden Mitglieder gefasst.
- 8.3 Bei Stimmengleichheit entscheidet die Stimme des Vorsitzenden und bei dessen Nichtteilnahme die Stimme des Stellvertreters (Stichentscheid).

§ 9

Der Aufsichtsrat kann die Fassung der Satzung ändern.

Die Mitglieder des Aufsichtsrats erhalten für ihre Tätigkeit neben der Erstattung ihrer mit Ausübung des Mandats verbundenen Aufwendungen eine Vergütung, die von der Hauptversammlung festgelegt wird.

§ 11

Folgende Arten von Geschäften dürfen nur mit Zustimmung des Aufsichtsrats vorgenommen werden:

• Der Abschluss von Unternehmensverträgen gemäß §§ 291 ff. AktG;

.

- Kredite der Gesellschaft an Mitglieder des Vorstands und des Aufsichtsrats und deren Familienmitglieder (§§ 89 ff. AktG);
- Beratungs- und andere Dienstleistungs- und/oder Werkverträge mit Aufsichtsratsmitgliedern, die keine Arbeitsverträge sind (§ 114 AktG);
- die Annahme eines Mandats als ein Mitglied des Vorstands / Geschäftsführer einer anderen Gesellschaft (einschließlich Gesellschaften der Allianz Gruppe) durch ein Vorstandsmitglied (§ 88 des deutschen Aktiengesetzes).

Der Aufsichtsrat ist befugt, weitere Geschäfte von seiner Zustimmung abhängig zu machen.

# 5. Hauptversammlung

§ 12

- 12.1 Die ordentliche Hauptversammlung findet innerhalb der ersten sechs Monate nach Ablauf des Geschäftsjahres statt.
- 12.2 Die Anmeldung zur Teilnahme an jeder Hauptversammlung muss spätestens am dritten Tag vor der Hauptversammlung beim Vorstand eingereicht werden, sofern dieser nicht einen späteren Anmeldungstermin bestimmt.
- 12.3 Zur Teilnahme an der Hauptversammlung sind die Aktionäre berechtigt, deren jeweilige Aktien im Aktienregister eingetragen sind; das Stimmrecht kann durch Bevollmächtigte mit schriftlicher Vollmacht ausgeübt werden.

- 13.1 Die Hauptversammlung leitet der Vorsitzende des Aufsichtsrats oder im Fall seiner Verhinderung ein anderes vom Aufsichtsrat zu bestimmendes Mitglied des Aufsichtsrats. Für den Fall, dass weder der Aufsichtsratsvorsitzende noch ein anderes Aufsichtsratsmitglied, das vom Aufsichtsrat für die Leitung der Hauptversammlung gewählt wurde, verfügbar ist, eröffnet der Älteste (im Sinne von Lebensjahren) anwesende Aktionär oder Aktionärsvertreter die Hauptversammlung und lässt sie ihren Versammlungsleiter wählen.
- 13.2 Der Versammlungsleiter bestimmt das Abstimmungsverfahren. Er kann eine abweichende Reihenfolge der Verhandlungsgegenstände bestimmen.
- 13.3 Die Beschlüsse der Hauptversammlung werden, soweit nicht zwingende gesetzliche Vorschriften eine andere Mehrheit vorschreiben, mit einfacher Mehrheit der abgegebenen gültigen Stimmen gefasst. Soweit nicht zwingende gesetzliche Vorschriften entgegenstehen, bedürfen Änderungen des Grundkapitals einer Mehrheit von zwei Dritteln der abgegebenen Stimmen; wenn jedoch mindestens die Hälfte des Grundkapitals vertreten ist, genügt die einfache Mehrheit der abgegebenen Stimmen. Sofern das Gesetz für Beschlüsse der Hauptversammlung außer der Stimmenmehrheit eine Kapitalmehrheit vorschreibt, genügt, soweit gesetzlich zulässig, die einfache Mehrheit des bei der Beschlussfassung vertretenen Grundkapitals.

# 6. Jahresabschluss; Gewinnverwendung

## § 14

Innerhalb der gesetzlichen Fristen hat der Vorstand den Jahresabschluss (Bilanz, Gewinn- und Verlustrechnung, Anhang) und den Lagebericht aufzustellen und dem Aufsichtsrat sowie dem Abschlussprüfer vorzulegen.

#### § 15

Stellen Vorstand und Aufsichtsrat den Jahresabschluss fest, können sie einen die Hälfte des Jahresüberschusses übersteigenden Teil in andere Gewinnrücklagen einstellen, bis die Hälfte des Grundkapitals erreicht ist.

# 7. Schlussbestimmungen

# § 16

- 16.1 Der Gründungsaufwand in Bezug auf die Verschmelzung der Allianz Global Corporate & Specialty (France), Société Anonyme, und der Allianz Global Corporate & Specialty AG beträgt EUR 2.000.000,00.
- 16.2 Im Rahmen des Formwechsels der Allianz Global Corporate & Specialty SE im Wege der Verschmelzung der Allianz Global Corporate & Specialty (France), Société Anonyme, auf die Allianz Global Corporate & Specialty AG, sind folgende Sondervorteile gewährt worden:

Bestellung zu Mitgliedern des Vorstands und des Aufsichtsrats der Allianz Global Corporate & Specialty SE

Aus Gründen rechtlicher Vorsorge wird darauf hingewiesen, dass, unbeschadet der gesetzlichen Entscheidungszuständigkeit des Aufsichtsrats der Allianz Global Corporate & Specialty SE nach deutschem Aktienrecht, davon auszugehen ist, dass die zum 1. Januar 2013 amtierenden Vorstandsmitglieder der Allianz Global Corporate & Specialty AG zu Vorständen der Allianz Global Corporate & Specialty SE bestellt werden. Mitglieder des Vorstands der Allianz Global Corporate & Specialty AG ab dem 01. Januar 2013 sind Dr. Axel Theis (Vorsitzender), Andreas Berger, Sinéad Browne, Chris Fischer Hirs, Hartmut Mai, Arthur Moossmann und William Scaldaferri.

Darüber hinaus sollen die Mitglieder und Ersatzmitglieder des Aufsichtsrates aus dem Kreis der Anteilseignervertreter der AGCS AG als Mitglieder bzw. Ersatzmitglieder des Aufsichtsrates der AGCS SE bestellt werden (vgl. § 6).

# TO OUR SHAREHOLDERS

# SUPERVISORY BOARD REPORT

# Ladies and Gentlemen,

We continuously monitored the Board of Management's conduct of business on the basis of regular reports and we informed ourselves about the state of affairs in several meetings. We have examined the annual financial statements and the management report, and concur with the findings of PricewaterhouseCoopers GmbH Wirtschaftsprüfungsgesellschaft, Munich, which issued an unqualified auditor's certificate for the annual financial statements for the 2020 financial year and the management report presented with it. In its meeting on 26 April 2021, the Supervisory Board approved the annual financial statements prepared by the Board of Management, which are hereby confirmed.

# MEMBERS OF THE SUPERVISORY BOARD AND BOARD OF MANAGEMENT

Effective 1 March 2020, the Supervisory Board appointed Mr. Henning Haagen to the Board of Management. Mr. Haagen is responsible for the CRMO Region 1 Department. Effective 1 July 2020, the Supervisory Board appointed Mr. Tony Buckle to the Board of Management. Mr. Buckle is responsible for the CUO Corporate Department. Effective 1 October 2020, the Supervisory Board appointed Dr. Renate Strasser to the Board of Management. Dr. Strasser is responsible for the CUO Specialty Department. Dr. Thomas Sepp, previously responsible for CUO Corporate, is responsible for the re-established Claims Board of Management Department.

Effective 30 June 2020, Ms. Sinéad Browne and Mr. Hartmut Mai both resigned from their positions as members of the Board of Management with the approval of the Supervisory Board.

Munich, 26 April 2021

For the Supervisory Board:

Christopher Townsend Chairman

# SUPERVISORY BOARD AND BOARD OF MANAGEMENT

# **NIRAN PEIRIS**

Member of the Board of Management Alianz SE, Dept. Globa. Insurance Lines & Anglo Markets. Reinsurance, Middle East, Africa Chairman up to 31 December 2020

# MANAGEMENT REPORT OF AGCS SE

# **DEVELOPMENT OVERVIEW**

# Economic environment 2020<sup>1</sup>

2020 was the year of the Covid-19 pandemic, which claimed almost two million lives alobally last year and brought entire economies to a standstill. As a result, the world gross domestic product slumped by around 4 %, by far the worst performance since the Second World War. (By comparison, the Financial Crisis caused adropof only 0.1 % in 2009.) The blow from the pandemic on livelihoods could be cushioned, however -- first and foremost in advanced economies -by unprecedented fiscal policy measures: Governments' outlays totaled more than € 10tn globally. This staggering level of support helped people and companies to endure lockdowns, trade disruptions, and social distancing - at least economically. Corporate insolvencies, for example, even declined by around 10% globally in 2020, defying economic logic in the face of a severe recession. The flip side of generous fiscal support is rapidly escalating public debt It reached around 130% of world gross domestic product in advanced economies in 2020.

The big fall in global economic activity conceals an unusually large dispersion of performance in large economies. Reflecting diverging strategies as well as their differing success in combating the pandemic, the growth gap between China (+2.3 % in 2020) and the Eurozone (-6.8 % in 2020) amounted to nine percentage points the gross domestic product of the United States declined by 3.5 % in 2020.

Capital markets initially reacted with panic to the outbreak of Covid-19; even the U.S. sovereign bond market, the backbone of the global financial system, was not immune to dislocations. But as central banks quickly stepped in, offering provisions of liquidity of unparalleled scale, functionality was restored. As a consequence of the angoing monetary support, markets enjoyed a strong recovery since the March turbulences, even setting new records in some areas such as corporate bond issuance or initial public offers. Most equity markets concluded 2020 in positive territory, with the U.S. market, measured by the market-wide index S&P 500, setting the pace with a plus of 16 %. On the other hand, interest rates and yields dropped to new record lows: The 10-year U.S. Treasury yield declined from 1.9 % to 0.9 %, while the 10-year Bund yield dropped from -0.2 % to -0.6 % at the end of 2020

# Business environment 2020 for the insurance industry

Initially, Covid-19 impacted both sides of the balance sheets of insurance companies. Strong, well-capitalized balance sheets and the rapid market recovery helped them manage the temporary losses on the asset side. On the liabilities side, however, underwriting losses were incurred in particular due to cancellations of travel and events, and in association with credit risk and business

LAt the time of publishing this report not all of the general market data for 2020 used in the cloader "<u>Development</u> overview" had been finalized Wealso wish to port but that the information provided in this chapter's based on estimate made by Group Economic Research of the Allianz Group.

interruption insurance At the same time, the widespread freezing of activities during the lockdowns reduced claims frequencies in some lines of business. Global insurance losses caused by natural disasters rose sharply in 2020, mainly due to severe storms and wildfires in the United States.

The industry also had to cope the operational challenge of maintaining business continuity despite lockdown measures and social distancing: The acceleration of digitalization was the answer to continuing serving customers during the pandemic, maintaining operations and protecting employees at the same time.

The industrial insurance segment within **Property and Casualty Insurance** operated in an ambivalent environment with persistently high pressure on competition and profitability. On the one hand, the impact of Covid-19 related claims and declines in premium income had to be absorbed and the industry continued to suffer from a constant decline in investment income in the low interest rate environment On the other hand, though, market hardening in industrial insurance continued in 2020 According to Marsh's Global Insurance Market Index, industrial insurance prices rose 22% in the fourth quarter of 2020. This is the highest increase since the index was launched in 2012.

# Business development of AGCS SE

The AGCS SE business unit includes the national and international corporate business, as well as the international specialty Marine, Aviation, Energy and Entertainment insurance lines, in both the direct and indirect insurance business.

With our global focus and our extensive product range, AGCS SE is in a position to offer appropriate insurance solutions combined with comprehensive customer service. This also includes an expert worldwide service in the event of a claim, cross-border solutions within the framework of international insurance programs captive and fronting services, risk consulting and structured risk transfer solutions.

The company's underwriting result in financial year 2020 was impacted by the Cavid-19 pandemic. The pandemic led to a high net claims expenses and thus to an increase in the combined ratio

The decrease in the investment result in financial year 2020 was primarily due to higher write-downs, higher losses on the disposal of investments and lower dividends from affiliated enterprises. Although the valuation reserves were down on the previous year, they remained at a high level nonetheless.

AGCS SE ends the year 2020 with a loss absorption by Allianz SE amounting to  $\leqslant$  518.2 mn. Since the company was founded in 2006, a total of nearly  $\leqslant$  3.5 bn has been transferred to Allianz SE.

AGCS SE's results under commercial law were as follows:

#### Condensed income statement

€mr

	2020	2019
Gross premiums written	4,538	4,520
Premiums earned (net)	1,425	1,498
Gross expenditure for insurance claims	4,385	-3,502
Gross expenditure for insurance business	-905	-984
Reinsurance balance	278	-118
Underwriting result before equalization reserve and similar	•	
provisions <sup>1</sup>	-589	-94
Change in equalization reserve and similar provisions?	80	12
Underwriting result for own account	-5 <b>09</b>	-82
Investment result	-74	249
Other non-underwriting result	93	-132
Profit or loss on ordinary activities	-489	36
Taxes	-29	-47
(-) Transfer of profit / (+) Lass absorption	518	12
Net income	0	0
KEY FIGURES	%	%
Loss ratio	113 3	76.1
Expense ratio	25.0	28.9
Combined ratio	138.2	105.0

<sup>1</sup>\_ The total underwriting result before equalization reserves and similar provisions cannot be derived from the above tems of the income statement.

# **UNDERWRITING RESULT**

Gross premiums generated by AGCS SE were on a par overall with the prior-year value. AGCS SE repositioned its portfolio in the 2020 financial year by implementing targeted underwriting measures and a comprehensive transformation program. This was reflected differently in the individual business lines and branch offices.

## Gross premiums written by country

€mn

	2020	2019	Churrye
Germany	1,710	1,788	-78
United Kingdom	1,234	1,190	44
France	538	546	-8
Spain	196	163	33
Belgium	151	153	8
Singapore	155	156	-1
Hong Kang	124	105	19
Italy	116	118	-2
Netherlands	213	115	-2
Other countries	191	187	4
Total	4,538	4,520	17

<sup>1</sup>\_Countries with gross premiums written of less than € 100 million are shown aggregated.

The increase in premiums was mainly due to premium gains in our branch offices in the United Kingdom, Spain and Hong Kong However, it was largely offset by a decline in premiums in our German head office.

Gross premium income in the direct insurance business increased to  $\le 2\,513,1\,(2\,415,8)\,\text{mn}$ , due in particular to an increase in Other Property Insurance in the United Kingdom. On the other hand, the indirect insurance business posted a decline in premium

income to  $\in$  2 024,8 (2 104,7) mn. This was mainly attributable to Transport and Aviation Insurance at our German head office.

In contrast to gross premiums written, net premiums earned showed a downward trend. This was mainly due to the quota share re'nsurance contracts that were introduced in the financial year in General Liability Insurance.

The higher net claims burden was marked by an increase in claims for the financial year to  $\leqslant$  1 422.9 (1 084,2) mn, especially in Other Insurances. This was mainly due to losses totalling  $\leqslant$  2498 mn from the Covid-19 pandemic. AGCS SE's net claims expenses from catastrophe losses remained at a low level, as in the previous year. Together with a higher loss from the settlement of prior-year claims of  $\leqslant$  191.0 (negative result of 55.2) mn, particularly in Liability Insurance, the net loss ratio on the balance sheet rose to 113.3% (76.1%) However, excluding the charges from the Covid-19 pandemic, the loss ratio would have been 95.7%.

In the financial year under review, the net cost ratio improved to 25.0% (28.9%) Net expenditure for the insurance business included acquisition costs of  $\leqslant$  204 2 (275.1) mn and administrative expenses of  $\leqslant$  151.3 (158.4) mn

The company reported a net underwriting loss before equalization reserves of  $\in$  589.3 (negative result of 93.8) mn. Due to the high claims burden in several business lines,  $\in$  80.1 (with drawn) of  $\in$  117) mn was withdrawn from the equalization reserve and similar provisions.

# REINSURANCE BUSINESS CEDED

The reinsurance structure was essentially maintained in the 2020 financial year Depending on risk tolerance or available capacity, the reinsurance strategy provides for the placement of all or part of the individua. risks in the reinsurance market through facultative reinsurance. The business remaining with AGCS SE after these facultative cessions is protected by a global coverage program that consists of various proportional and non-proportional contractual reinsurance covers based on individual risks as well as accumulation cover. Several new quota share reinsurance contacts were concluded in Liahility Insurance, which led to an increase in premiums written which were ceded to the reinsurers.

In the financial year, the company once again ceded parts of its insurance business to certain Group companies and external reinsurers. Since 1 January 2015, the entire direct and assumed business at our German head office is covered by a quota share reinsurance contract with Allianz SE, our largest reinsurer, through which 100% of the business is ceded. This contract was renewed in 2020 with a reduced commission rate.

A protective cover insurance policy for frequency losses concluded in the reporting year was terminated and commuted as of 31 December 2020.

With respect to premiums written, the retention ratio was down on the previous year at 31.9 (33.1)%. Unlike the previous year, the reinsurance balance – influenced by the high claims burden – reported a loss that was borne by the reinsurers

#### DIRECT INSURANCE BUSINESS<sup>2</sup>

# Personal Accident and Health Insurance

	2020	2019	Change
Gross premiums written	16	9	7
Net premiums earned	3	4	0
Net expenditure for insurance claims	1	0	1
Net expenditure for the insurance business	-1	-1	0
Underwriting result before equalization reserve and similar provisions	3	3	0

<sup>1.</sup> A run-off gain that is higher in a reporting year than the expense for daims in the reporting year results in net income for insurance claims.

The bulk of increase in gross premiums in **Personal Accident and Health Insurance** was generated by Health Insurance, which portfolio was written mainly by our Asian branch offices. The performance of net premiums remained largely unaffected by this as this business was to a large extent ceded as fronting business. The underwriting result improved mainly due to lower financial year losses in Casualty Insurance

# Liability insurance

•	2020	2019	Change
Gross premiums written	1,030	951	79
Net premiums earned	400	433	-33
Net expenditure for insurance claims	5,27	415	112
Net expenditure for the insurance business	-45	-82	36
Underwriting result before equalization reserve and similar provisions	-172	-64	-108

Liability Insurance recorded an increase in gross premium valume in the reporting year, especially at our branch offices in the United Kingdom and France. Influenced by reinsurance cessions under quota share reinsurance contracts, net premiums earned decreased year on year. Due to higher claims expenses, mainly as a consequence of a poorer run-off result, the underwriting loss was significantly higher than in the previous year.

# Motor Liability Insurance, Other Motor Insurance f mn

	2020	2019	Change
Gross premiums written	22	22	-1
Net premiums earned	0	1	-1
Net expenditure for insurance claims <sup>1</sup>	2	-1	. 3
Net expenditure for the insurance business	1	2	-1
Underwriting result before equalization reserve and similar provisions	4	2	1
reserve and similar provisions			

<sup>1</sup>\_ A run-off gain that is higher in a reporting year than the expense for daims in the reporting year results in net income for insurance claims.

As in previous years, the portfolio of **Motor Liability Insurance** and **Other Motor Insurance** was written mainly by our Hong Kong branch as fronting business and showed a slight downward trend in the reporting year. As a result of a run-off gain, the insurance lne achieved an underwriting profit as in the previous year.

# Fire Insurance and Other Property Insurance

£ IIIII			
•	2020	2019	Change
Gross premiums written	813	704	109
Net premiums earned	243	189	54
Net expenditure for insurance claims	-253	-145	-108
Net expenditure for the insurance business	-41	-62	21
Underwriting result before equalization reserve and similar provisions	-60	-21	-39

In the insurance line Fire Insurance and Other Property Insurance, slight gross premium losses were incurred in Fire Insurance, while the gross premium volume in Other Property Insurance increased significantly. The main contributors to the increase were the branch office in the United Kingdom and our German head office. Due to the changes in financial year losses, claims expenses increased in both business lines. The underwriting loss of the insurance line was thus higher than in the previous year.

# Transport and Aviation Insurance

Underwriting result before equalization reserve and similar provisions	-14	-48	34
Net expenditure for the insurance business	-66	-66	0
Net expenditure for insurance claims	-117	-187	70
Net premiums earned	169	205	-36
Gross premiums written	496	536	-40
	2020	2019	Change

The decline in premium income in **Transport and Aviation Insurance** mainly affected our branch office in the United Kingdom and was attributable to both business lines. The insurance line improved its underwriting result compared with the previous year, primarily due to a lower claims burden for the financial year in the two business lines, but also because of a positive run-off result in Transport Insurance.

# Other Insurances

€mn

Underwriting result before equalization reserve and similar provisions	-176	15	-191
Net expenditure for the insurance business	7	-9	2
Net expenditure for insurance claims	-190	-24	-166
Net premiums earned	23	49	-26
Gross premiums written	136	192	-56
	2020	2019	Change

Other Insurances posted a decline in premium income, mainly at our branch office in the United Kingdom. Claims expenses were significantly higher compared with the previous year, especially due to an increase in financial year losses as a result of the Covid-19 pandemic. This resulted in an extraordinarily high net loss in this financial year.

The total underwriting result before equalization reserves and similar provisions cannot be derived from the above tens
of the income statement.

# REINSURANCE BUSINESS ASSUMED3

Casualty insurance € mn			
	2020	2019	Change
Gross premiums written	6	7	-1
Net premiums earned	4	5	-1
Net expenditure for insurance claims:	0	3	-3
Net expenditure for the insurance business	-2	-2	1
Underwriting result before equalization reserve and similar provisions	3	6	-3

<sup>1</sup>\_ A run-off gain that is higher in a reporting year than the expense for daims in the reporting year results in net income for insurance daims.

Casualty Insurance recorded a decline in premiums, especially at our branch office in the United Kingdom. The premium trend, together with a lower profit from the settlement of prior year claims, reduced the underwriting result

Liability	Insurance
-----------	-----------

ŧ	mr

Underwriting result before equalization reserve and similar provisions	-76	-41	-35
Net expenditure for the insurance business	-52	-82	30
Net expenditure for insurance claims	-182	-122	-60
Net premiums earned	161	167	-5
Gross premiums written	543	568	-25
	2020	2019	Change

Gross premium income in **Liability Insurance** in the reporting year was lower than in the comparable period last year, especially at our head office in Germany. The ongoing high financial year claims losses together with a nigher run-offloss from previous year's claims further reduced the result.

# Fire Insurance and Other Property Insurance $\mathcal{L}_{max}$

	5020	2019	Change
Gross premiums written	1,000	1,008	-7
Net premiums earned	286	278	8
Net expenditure for insurance claims	-195	-159	-36
Net expenditure for the insurance business	-95	-77	-18
Underwriting result before equalization reserve and similar provisions	-33	32	-65

A cecline in gross premiums written in Fire Insurance was largely offset by higher premiums in Other Property Insurance so that the premiums of the insurance line Fire Insurance and Other Property Insurance remained more or less constant in a year on year comparison. Higher claims incurred from higher financial year losses resulted in Fire Insurance and Other Property Insurance reporting an underwriting loss for the year.

# Transport and Aviation Insurance

€m

	2020	2019	Change
Gross premiums written	270	344	-74
Net premiums earned	84	97	-13
Net expenditure for insurance claims	-53	-49	-4
Net expenditure for the insurance business	-33	-32	-1
Underwriting result before equalization reserve and similar provisions	-3	15	-18

Gross premium income in **Transport and Aviation Insurance** decreased equally in both insurance lines, especially at our German head office. Together with higher prior-year claims expenses in Aviation Insurance, the ded ine in premiums led to a deterioration in the underwriting result.

#### Other Insurances

€mn

	2020	2019	Change
Gross premiums written	206	178	28
Net premiums carned	51	71	-20
Net expenditure for insurance claims	-99	-39	-60
Net expenditure for the insurance business	-14	-21	7
Underwriting result before equalization reserve and similar provisions	-62	11	-73

Our German head office accounted for the largest share of the gross premium growth in **Other Insurance**. Due to the quota share reinsurance contract with Allianz SE, net premiums earned did not benefit from the increase in our German branch office. Claims expenses were influenced in particular by higher financial, year claims expenses and were the reason for the underwriting loss in this financial year.

# FURTHER INFORMATION ON THE MANAGEMENT REPORT

The various insurance lines and types affered are presented in detail on page 48.

## INVESTMENT STRATEGY

AGCS SE continued its investment strategy in 2020, which is based on spreading investments widely over many different investment segments and currencies. AGCS SE pursues a matching-cover investment strategy in foreign currencies. The portfolio's equity holdings were temporarily sold in 2020. This reduced the portfolio risk and substantially increased the liquidity position in the short term to ensure sufficient liquid funds were held to cover potential losses.

To cover the financial obligations arising from the insurance business, an overwhelming portion of the company's portfolio was invested in fixed-interest securities. The duration of the investments fell by 0.5 to 4.4 years compared with the previous year due to the higher cash balances held. The fixed-income investments were focused on corporate bonds, government bonds, bank bonds and deposits. These were broadly diversified internationally in line with the obligations arising from the insurance sector

To secure an attractive return on the investment portfolio in the long term, the company maintained a broad diversification of the portfolio. At the end of the year, corporate bonds accounted for

The total underwriting result before equalization reserves and similar provisions cannot be derived from the above terms
of the income statement.

35.3% (30.6%) of the total portfolio by market value, while 10.8% (12.0%) was invested in emerging market bonds. In addition, 8.7% (9.4%) of the portfolio was invested in government and corporate bonds in Singapore and Hong Kong to cover liabilities of the local branch offices. In the area of direct lending, investment increased by a net € 37.8 mn. New investments of € 16 mn were made in real estate, but investments in real estate fell by net € 2.4 mn overal.

The risk situation with respect to the capital base and the coverage of the financial liabilities with qualified investments is assessed from two perspectives: external and regulatory requirements on the one hand and internal risk capital requirements on the other. Stress test models were used, which are integrated into an early warning system. These model calculations are performed on an ongoing basis and the stress tests were bassed without exception in the reporting year.

#### INVESTMENTS AND THE INVESTMENT RESULT

#### Investments and the investment result

€ 11  1		
	2020	2019
INVESTMENT PORTFOLIO		
Investments in affiliated enterprises and participations	2,48/	2,489

Hidden reserves	942	1,347
of which investments in affiliated enterprises and		-,-
participations	363	501
of which directly held properties	71	66
of which stocks, investment fund units and other variable		
income securities	3/3	638
of which on bearer bonds	117	. 123
of which on mortgage bonds	3	3
of which on other loans	12	12
Unrealized losses	3	4
Total	939	1,343

The investment result for the financial year 2020, with a negative result of € 74 mn, was significantly lower than the previous year's

result and the forecast, even though a significantly lower investment result was expected. The decline was mainly due to higher valuation adjustments on investments. The losses from the disposal of investments, which should be seen in the context of the controlling foreign currency exposure, increased significantly compared with the previous year. Lower dividends generated from affiliated enterprises led to a decrease in current income from investments. At the same time, distributions from special funds resulted in higher income compared with the previous year

The reserve ratio, which reflects the percentage of valuation reserves relative to the book value of total investments, stood at 12.7 (17.8)% as of the end of the year.

#### OTHER NON-UNDERWRITING RESULT

Other non-underwriting business generated a profit of  $\in$  93.4 (negative result of  $\in$  131.6) mn, mainly due to exchange rate trends of the US dollar, Australian dollar and pound sterling vis-a-vis the euro.

The total non-underwriting result thus amounted to  $\in$  19.9 (117.7) mn.

# **OVERALL RESULT**

Tax charges for the financial year (including intra-group charges) amounted to  $\leq$  28.8 (47.5) mn.

On the whole, results of operations in 2020 were less favorable than in the previous year. The overall result after tax was a negative result of  $\,\in$  -518.2 (negative result of -11.9) mn. This loss is compensated for by Allianz SE based on the existing control and profit transfer agreement.

# **CORPORATE AGREEMENTS**

Allianz SE is the sole shareholder of AGCS SE, and a control and profit transfer agreement is in place between the two companies.

# **BRANCH OFFICES**

AGCS SE maintains branch offices in:

- London, United Kingdom
- Paris, France
- Vienna, Austria
- Copenhagen, Denmark
- Milan, Italy
- Antwerp, Belgium
- Madrid, Spain
- Rotterdam, Netherlands
- Stockholm, Sweden
- Singapore
- Hong Kong, China
- Seoul, South Korea and
- Mumbai, India

# Outsourcing of functions

# TRANSFER OF RESPONSIBILITIES

Accounting functions are primarily provided to the company by the CFO – Accounting unit at the Munich location.

The accounting functions of the foreign branch offices are handled by the company in part locally and in part centrally in Munich. In addition, support activities are performed in Bucharest.

The collection functions are primarily carried out for the company at the Munich location, as well as in London, Paris, Antwerp and Trivadrum (India).

For the branch office in Milan, these functions are rendered by Allianz S.p.A.

#### INVESTMENT AND ASSET MANAGEMENT

Investment and asset management functions have been transferred to the following, based on corresponding service level agreements:

- Allianz Deutschland AG, Munich
- Allianz Investment Management SE, Munich

as well as in sub-areas to the following, amongst others.

- PIMCO Deutschland GmbH, Munich
- PIMCO, Newport Beach
- Allianz Global Investors Kapitalanlagegesellschaft mbH, Frankfurt am Main
- Allianz Global Investors Singapore Ltd, Singapore
- Allianz Real Estate GmbH, Munich and
- Allianz Capital Partners GmbH, Munich, Germany.

## INFORMATIONTECHNOLOGY

Data center services as well as printing and IT services are provided to AGCS SE by Allianz Technology SE, Munich.

# **Employees**

Personnel management at AGCSSE is consistently aligned with the strategic objectives of the Allianz Group.

The Covid-19 pandemic has led to significant changes in the working world. Besides the burdens this global crisis undoubtedly entails, it also opens up new opportunities for our employees with regard to new ways of working. AGCS SE will incorporate the positive experiences and impressions of the last months regarding mobile working in the way it works, resulting in a new normal Specifically, this mean that we want to encourage and support our employees to avail themselves of the opportunities for flexible working, even beyond the pandemic. AGCS SE is striving for a hybrid model that combines mobile working and working in our offices. We are taking a global approach and it is important to us as an international company to take cultural differences in account. as well as our employees' individual circumstances. We will also look into other areas in more detail, such as managing locally distributed and virtual teams, or designing our office space to make it more collaborative in an agile approach

To support our employees in successfully meeting these new challenges and to be fit for an ever-changing working world, we offer numerous training opportunities to both employees and managers. Particular emphasis was placed this year on the Groupwide management development program #lead and the

introduction of the online learning platform AllianzU Learning Platform The digitalization of learning content enables us to make training available to every Allianz employee at any time. To encourage the uptake of these programs, our employees and managers are given one hour per week exclusively for their individual development.

Despite the coronavirus pandemic, AGCS SE continued to actively recruit in 2020. In line with the NEW AGCS strategy, new areas such as Global Distribution, Global Process Management and Global Product Management were established, and recruitment for these was very successful. In addition, we are increasingly observing a trend, whereby positions are not necessarily geographically bound, but are being advertised at various locations, including and especially across national borders. This supports in particular the "Global First" orientation of our NEWAGCS strategy

Our recruiting team had proactively transitioned to a digital process early on with video job interviews and virtual onboarding as a precautionary measure for our applicants and employees. Even prior to coronavirus, we provided digital support for recruitment processes outside Germany and were able to continue this without restriction during the pandemic. Candidate orientation is also particularly important to us in the virtual set-up. Our video telephony solutions are also optimal for use in working from home and are free of charge for our applicants. The pandemic has heightened the importance of digital networking, which is why we are active on Xing, LinkedIn, the Allianz career blog and the review platform Kununu, among others.

To provide support to our employees in the area of well-being. especially during these stressful times, we continue to offer an extensive range of resilience training courses, which are used in particular as part of team development measures. Within the framework of our annual employee survey (Allianz Engagement Survey), we regularly review the well-being of our employees and initiate appropriate measures. This year, we had a separate section. which focused on the particular pressures arising from the coronavirus crisis. We use these and other measures to make employees aware of how to make mindful use of their personal resources. In March, at the start of the coronavirus pandemic, employees were also offered special tools to help them cope with the unexpected dual burden of having to combine childcare and working from home. We extended the framework for working hours, offered special leave and fostered understanding on the management side for the special situation in which many employees now suddenly find themselves. For this purpose, managers were offered training modules such as "Leading through a crisis", which dealt with raising awareness of where special attention is now required

We set particular store by a civerse workforce. Under the motto "Diversity of Minds", we promote diversity throughout AGCS SE in a targeted manner and ensure that nobody is discriminated against in the company, particularly not for reasons of origin, religion, gender disability, age or sexual orientation. To this end, in 2020 we established a new Diversity & Inclusion Council, which comprises variousworking groups and is no longer primarily chaired by HR but by representatives from the business in order to ensure the measures can be implemented across the board and in all business areas. The ideas and initiatives identified in the regional councils

are in turn grouped in a global Diversity & Inclusion Council and reviewed to see to what extent individual measures can be taken up and implemented in other regions too.

At the end of 2020, AGCS SE had a total of 2,611 employees.

#### Facts and figures

	2020	2019
Employees <sup>1</sup>	2,611	2,625

# Statement on Corporate Management pursuant to § 289f (4) in conjunction with (2) no. 4 HGB

To implement the German Act on Equal Participation of Women and Men in Executive Positions in the Private and the Public Sector, AGCS SE has set the following objectives for the proportion of women. The dead, ine for achieving all of these objectives has been set uniformly at 31 December 2021

- The objective for the proportion of women on the Supervisory Board is 30% (actual proportion as of 31 December 2020: 67%)
- The objective for the proportion of women on the Board of Management is 30% (proportion as of 31 December 2020: 38%).
- The objective for the proportion of women at the first management level below the Board of Management is 20% (proportion as of 31 December 2020; 32%)
- The objective for the proportion of women at the second management level below the Board of Management is 24% (proportion as of 31 December 2020; 30%).

AGCS SE's primary concern in this respect is not just meeting statutory requirements. The company can be successful over the long term only if it provides equal career opportunities to women and promotes women to leadership positions based on their performance. AGCS SE made a commitment early on to promoting diversity within the company. A corresponding framework in place has already been put in place, HR processes adjusted accordingly and various measures taken. These range from ootions to improve the work-life balance, talent management with sponsorship and mentoring programs to unconscious bias training.

# Statement concerning the non-financial report pursuant to § 289b (2) sentence 3 HGB

Allianz SE and the Allianz Group meet the statutory requirements for filing a non-financial report and a non-financial group report pursuant to §§ 289b (1) and 315b (1) HGB by publishing a combined separate non-financial report for Allianz SE and the Allianz Group pursuant to §§ 289b (3) and 315b (3) HGB. This report can be found in the 2020 Annual Report for the Allianz Group (www.allianz.com/annualreport).

The publication of this report releases AGCS SE from the obligation to publish its own report pursuant to §§ 341a (1a) sentence 3 and 289b(2) sentence 1 HGB

# RISK REPORT

Assuming and managing risk is part of the business model of AGCS SE. Well-developed risk awareness and careful consideration of opportunities and risks are therefore an integral part of controlling the business processes. The key elements of AGCS SE's risk management system are:

- A strong risk management culture, promoted by a solid risk management organization and effective risk management principles (risk governance),
- Comprehensive risk capital calculations with the objective of protecting the capital base and supporting effective capital management,
- The integration of capital requirements and risk considerations into the decision-making and management process.

This comprehensive approach makes sure that risks are adequately identified, analyzed and evaluated. The risk appetite is described in the risk strategy and made operational by the limit system contained therein. In addition, further limits are substantiated and detailed in specific standards and directives. Strict risk controls and the corresponding reports allow for the early detection of any possible deviations from the risk tolerance.

Based on AGCS SE's current risk assessment, there are no risks that threaten the company's existence. AGCS SE sees apportunities that these risks will not materialize

#### **OPPORTUNITIES**

The combination of a global presence, a strong focus on professional excellence in underwriting and claims processing, as well as continuous productivity growth and process optimization makes AGCS SE resilient in the challenging times of the coronavius pandemic, thereby enabling it to realize new opportunities in a rapidly changing business environment.

Thanks to its global network, AGCS SE is one of the very few global insurers to focus exclusively on the needs of global corporate and specialty clients. The network comprising Allianz offices in over 70 countries as well as network partners at other locations allows us to serve clients in more than 200 countries and jurisdictions around the globe.

AGCS SE is one of the highest ranking industrial insurers according to international rating agencies. (S&P: AA, AM Best. A+) A particular strength of the company lies in its portfolio-wide diversification by regions and risk types: it allows AGCS SE to make available capacities for the highest and most complex of risks

When it comes to risk assessment and portfolio management, AGCS SE relies on our sound knowledge of the industry and technical insurance expertise. AGCS SE will continue to invest in the professional excellence of its core underwriting and claims functions. This includes the further development of pricing tools, portfolio management, loss trend analysis, volatility management and actuaria, modelling – always on the basis of innovative technologies for data analysis and predictive modelling. In doing so, we are creating the basis for the sustained profitability of our underwriting result.

The new regional structure – reduction from seven to six regions – and the streamlining of management hierarchies will strengthen the AGCS SE's global model with the objective of reducing costs and complexity. The maxim Global first also applies to products and processes. The new AGCS Global Product Management function will drive product harmonization and simplification on the basis of a core global product portfolio. The new Global Process Management teamwill be responsible for end-to-end process optimization. The improved cost position will form the basis for new growth impetus in the medium term.

AGCS SE will offer its brokers and clients enhanced service and industry-specific expertise through a new global sales unit – and also further develop its own business strategy for selected target client segments.

Digitalization also offers AGCS SE great opportunities to consistently increase its own productivity, but also to offer better services to its clients. It is focused on a globally scalable system architecture and on creating a new client portal that brings together all underwriting, claims and risk consultancy offerings.

Through the New Work Model, which promotes the flexible working of employees (for example, the trend towards working from home (WFH)) even more comprehensively, savings can be made on office expenses, efficiency improved by structuring work to individual needs and new talent recruited.

In a continuously evolving market environment, which is currently also impacted by the particular challenges of the Covid-19 pandemic, our client's requirements are constantly changing. Our powerful organizational and sales structure, our in-depth knowledge of the industry, our innovative insurance solutions and our in-depth expertise in risk transfer and management offer great opportunities to create client-or ented solutions and to continue to establish ourselves as one of the leaving providers in the industrial insurance market

# STRUCTURE OF THE RISK ORGANIZATION

Responsibility for risk management within the Board of Management lies with the Chief Financial Officer (CFO). The Chief Risk Officer (CRO), who reports to the CFO, monitors the risks assumed both intentionally and unintentionally, and regularly informs the Board of Management of AGCS SE about risk-relevant developments, the current risk profile and capital adequacy. In addition, the CROmakessure that appropriate measures are taken, for instance in cases where the reduction or avoidance of a risk position is required, and the CRO is responsible for the continued development of the risk management processes.

As an independent risk control function, the Risk Management department systematically monitors identified risks by means of qualitative and quantitative risk analyses and evaluations and ensures the regular or – if necessary – spontaneous reporting of essential risks to the Board of Management and to Allianz SE.

Headed by the Chief Financial Officer, the AGCS SE Risk Committee examines all relevant risks on a quarterly basis and agrees on measures for risk mitigation and the continued development of the risk management processes. The Chief Executive Officer, the Chief Financial Officer, the Chief Underwriting

Officer Corporate, the Chief Underwriting Officer Specialty, the Chief Operating Officer and the Chief Regions and Market Officer –Region 1 who are members of the Board of Management, are also members of the AGCS SE Risk Committee, which ensures close interconnection between risk control and the Board as a whole. The Chief Risk Officer is a member of all of the company's key committees: Portfolio Board, Local Investment Management Committee, Loss Reserve Committee, Underwriting Committee, R'sk Committee as well as the Reinsurance Committee.

The risk management of AGCS SE is integrated in the risk control system of the Allianz Group. Its binding guidelines are the Group Risk Strategy and the Group Risk Policy set out by Allianz SE as well as additional directives for risk management and the modelling of internal risk capital requirements. The controlling body for the risk management of AGCS SE is the Group Risk unit of Allianz SE Other internal and external control functions are vested in the Supervisory Board, Legal & Compliance as well as Internal Audit.

# RISK STRATEGY AND RISK REPORTING

The AGCS SE Risk Policy defines the risk categories at AGCS SE to be monitored. The risk strategy based on this is described by the company's risk tolerance. The appetite for risk is estimated in the risk strategy via the target capitalization ratios. Detailed separate limits for each risk category are then set in further guidelines to which the risk strategy refers.

The quarterly Risk Report provides information about risk indicators defined within the framework of the limit system and the corresponding threshold values, and is used by management for the systematic control of the current risk profile. With the aid of this information, the AGCS Risk Committee decides on the implementation of risk mitigation measures.

To determine the risk capital requirements under Solvency II, AGCS SE uses the Allianz Group's internal model, which was approved by the Federal Supervisory Authority for Financial Services (BaFin) on 18 November 2015.

In the opinion of the Board of Management, the current regulatory requirements (Solvency II) are met. The current risk situation is within the company's risk-bearing capacity.

### RISK CATEGORIES AND CONTROL MEASURES

The Federal Financial Supervisory Authority (BaFin) determines binding requirements with regard to risk management. For the purpose of grouping risks, AGCS SE uses internal categories that meet the requirements under Solvency II. Risks at AGCS SE are recorded by means of structured identification and assessment processes. This comprehensive approach makes sure that risks are adequately identified, analyzed, evaluated and managed. The top risk assessment process is an important process for assessing risks, where it identifies and evaluates the greatest risks to AGCS in an annual process. These are discussed by the Board of Management and measures for reducing risk are defined. Every quarter, the list of top risks is reviewed and new risks added, if necessary. The measures to be taken are also monitored. The top risks include slumps on the financial markets, accumulation risks and HR risks.

AGCS SE also monitors and controls the following risk categories:

- Underwriting risks, subdivided into prem'um risk, i.e. the risk that
  insurance premiums will not be sufficient to cover future claims
  and reserve risk, i.e. the risk that future claims payments from
  claims that have already occurred will exceed the loss reserves
  booked for them. Premium risk is further subdivided into natural
  catastrophe risk, terrorism risk and other premium risks.
- Market risks, i.e. the risk of losses from fluctuations in market value differentiated by type of investment. The material risks are interest rate risk, currency risk, stock risk and credit spread
- Credit risks (including country risks) such as counterparty risk due to the insolvency or liquidity difficulties of reinsurers, policyholders, insurance brokers and security issuers, as well as rating risks due to losses in value caused by the deterioration of debtors' creditworthiness.
- Operational risks, in other words risks that arise due to inadequacies or errors in processes and systems, or because of control failure. They may be caused by technology, employees, the organization or by external influences as well as legal and compliance risks.

Non-quantifiable risks are monitored by means of a structured identification and assessment process. These are:

- Liquidity risk, which describes the risk that payment obligations cannot be met at all times.
- Strategic risks, i.e. risks arising from strategic business decisions.
   This also includes the risk that business decisions are not adapted to a changed economic environment.
- Reputational risks, i.e. risks arising from possible damage to the company's reputation as a result of negative public perception.

Premium risks are controlled by means of underwriting guidelines, among other things. These underwriting guidelines limit the amount of insurance or liability amount per contract. To take into account the volatility of the different insurance lines, the underwriting guidelines vary depending on the insurance line concerned.

Reinsurance also plays an important role in the controlling premium risk. In line with existing underwriting ceilings, limits and retention management principles, which reflect the risk tolerance of AGCS SE and are regularly reviewed, peak risks are ceded by way of facultative reinsurance and treaty reinsurance. In addition, the premiums are based on specially developed rates that make use of current empirical values and actuarial methods.

All three partial models of premium risk take into account underwriting ceilings and the existing reinsurance protection.

Event losses caused by natural catastrophes, which concern several risks, pose a particular challenge to risk management. To control such risks and estimate their potential impact, we use special modelling methods that are based on probability. These involve correlating portfolio data – for example the geographic risk distribution as well as the value and nature of the insured objects—with simulated natural disaster scenarios. This approach makes it possible to determine potential damaging impacts and frequencies. The underlying models, which are mainly supplied by external providers, are regularly upgraded, while AGSC SE internally extends the coverage of modelled scenarios as far as

possible and continually improves the level of detail and the quality of the data used. Where such models do not yet exist or are not licensed, assumptions are made in the risk model on the basis of the insured exposure or existing loss experience. Exposure to natural catastrophes is managed by means of a global limit system, the visualization of accumulations and the control of potential damaging impacts. The insights thus gained are used to optimize the portfolio and, if necessary, to limit underwritten risks or to calculate a capital efficiency of a risk transfer toward the reinsurance market.

Other man-made catastrophes as well as terrorism risk are modelled with the help of scenarios based on the existing exposure, while the model for other losses is based on expected business volumes in combination with the company's own loss models

Reserve risks relate to the settlement of existing claims. This includes both the settlement of claims already known, the claims already known and late claims not yet known. Actuarial models based on observed run-off history, which are also used to determine expected claims payments, are used to determine the degree of uncertainty in the reserves estimates.

Market risks: The investments of AGCS SE are managed centrally by the specialists of Allianz Investment Management SE. The investment strategy is based on the needs of the asset-liability management of AGCS SE. The investment strategy is implemented by Allianz Investment Management SE within the framework of a risk and limit system for investments specified by AGCS SE. The risk and limit system is reconciled annually and approved by the AGCS SE Risk Committee.

Derivatives and structured products are also used to a limited extent for the efficient implementation of the investment strategy and for risk control

AGCS SE's investments are broadly diversified by investment type (participations, fixed-income securities, real estate and alternative investments), creditworthiness and countries. AGCS SE sold its entire portfolio of listed stocks in March of this year and is therefore no longer exposed to the risk of fluctuating stock markets. A continuous risk analysis is performed by investment management AGCS SE has a diversified investment portfolio within defined risk limits. By means of various stress scenarios, it regularly monitors the sensitivity of the portfolio to market changes.

Market risks from derivatives are assessed and controlled by means of up-to-date value-at-risk calculations, stress tests and the setting of limits

Due to the international focus of AGCS SE's business, large parts of the reserves are constituted in foreign currency. Overall, the share of foreign currencies in the underwriting reserves, including unearned premiums, amounted to approximately 55.8% (51.2%). The primary exposures were in USD 29.9% (28.3%) and GBP 19.4% (17.3%). AGCS SE actively managed the currency risks resulting from this. This process takes into account all balance sheet items subject to currency conversion, including provisions as well as all receivables and liabilities and investments in foreign currencies. In addition to using foreign investments to hedge currency exposure, the company also uses FX derivatives within precisely defined limits

to obtain an effective and timely minimization of currency risks. Currency risks are managed on the basis of monthly data.

In order to counter any liquidity risks, AGCS SE invests a large part of its investments in liquid government and corporate bonds, and ensures investments are largely maturity-matched. Continuous monitoring is ensured through rolling wave planning of short, medium and long-term liquidities and by continuous liquidity and cash-flow analyses

Credit risks: The issuers of the fixed-income investments of AGCS SE are predominantly governments, as well as international companies and banks. It has set limits with respect to rating classes and in view of concentration risks. Investments in government bonas account for 37.1% (41.6%) of interest-bearing investments, and corporate bonds for 41.0% (42.5%) 90.2 (91.3)% of interest-bearing investments are made in investment grade territory. Investment in different currency areas is determined by the structure of the liabilities.

Credit limits are centrally managed by Allianz SE, and the compliance in this respect is monitored by AGCS SE. AGCS SE grants credit limits on the basis of economic equity, taking into account risk-bearing capacity.

The aggregate information on ceded exposures is used to estimate the credit risk resulting from reinsurance. To minimize the credit risk vis-à-vis-reinsurers, only those business partners that offer excellent collateral are considered. As of 31 December 2020, approximately 51% of the reserves of AGCS SE were ceded to reinsurers within the Allianz Group, and the rest to external reinsurers. The creditworthiness of the reinsurers is monitored on a continuous basis. The reinsurance exposure is reviewed twice a year (based on the exposures as of the end of June and end of December), most recently in September 2020 based on the exposure data as of 30 June 2020. Accordingly, 92% of the exposure ceded to reinsurers was assigned at least an "A" rating by Standard & Poor's Ascaptives and pools have no ratings of their own, cessions are made only after a special investigation has determined whether all the participating reinsurers meet the Allianz-internal minimum requirements for reinsurance partners and explicit approval by a team of experts has been obtained. An internal rating (internal security rating) is also determined for captives. To further mitigate the credit risk, guarantees, deposits or other collateral may be requested if necessary.

All in all, total third-party receivables with due dates exceeding 90 days amounted to  $\in$  216.1 mn as of 31 December 2020 (these did not include explicit write-offs for impairment). The average default rate for the past three years was 0.4%:

Operational risks: The Allianz Group, including AGCS SE, defines operational risks as unexpected losses resulting from inadequate or failed internal operating processes or systems, human errors and external events. This definition covers legal risks compliance risks and financial reporting risks. However, it does not include strategic risks, reputational risks and risks stemming from inadequate project decisions.

Operational risks are inherent in all types of products, activities processes and systems, and cannot be fully avoided. Contrary to most other types of risk, they materialize suddenly and

<sup>1.</sup> The default rate is calculated on the basic of the indedual value adjustments of econobles from direct restrate business relative to grass premiums winter less adjustion contribution period of three years.

unexpectedly and can have significant impact on the balance sheet, profits, business objectives, business activities or the reputation of AGCS SE.

The risk management system for operational risks is based on the Three Lines of Defense concept of the Allianz Group. The employees of AGCS SE are fundamentally aware of potential operational risks, and they support the controlling and management of these risks by taking them into account in their daily business. In view of the positive risk and controls culture, AGCS SE assumes that specifically the decision makers will make transparent all identified weaknesses and risks so that the necessary countermeasures can be taken in good time

The AGCS SE risk management system for operational risks is designed in such a way that past risk events can be monitored and reported, and to identify lessons learned and actions to prevent the occurrence of operational risks outside of the risk tolerance of AGCS SE in the future.

In a first step, we need to gain an understanding of what could possibly go wrong. This is done in two respects.

- In retrospect, operational risk events are continually analyzed and their causes determined. This also takes into account external operational loss data provided by Allianz SE.
- Looking ahead, concrete scenarios with potential negative effects are analyzed and evaluated on an annual basis in expert working groups

Operational risks are reduced through a series of appropriate and effective permanent countermeasures, i.e. via controls on the respective risks. These are defined as key controls if the risk were significantly higher without the key control.

Due to their importance, the quality of the key controls is assessed in a structured manner, i.e. they are regularly tested to ensure they are (1) properly designed to mitigate the intended risks and (2) effectively implemented. This is done within the framework of the AGCS SE internal control system.

AGCS SE's internal risk capital model determines risk capital for operational risks. It functions as a buffer for the company in the event of extreme financial losses due to unexpected operational risk events such as the failure of controls. Indicators and limits have also been defined for key operational risks in order to determine the risk tolerance of AGCS SE.

Major IT projects are analyzed and managed with regard to their risks with the help of a structured assessment process in line with Allianz SE requirements. In conjunction with this, both the implementation phase and possible post-implementation consequences are considered.

Important activities complement and support AGCS SE's risk management system for operational risk. These are managed by functions outside of the risk management function and include:

- compliance initiatives on anti-fraud, anti-corruption, antitrust, economic sanctions, (unauthorizea) cross-border business, capital markets compliance, money laundering and terrorist financing, sales compliance and data protection
- emergency management

- AGCS SE procurement activities including outsourcing
- information security initiatives

Reputational risks are managed by AGCS SE, in particular with a focus on ESG risks, by involving potentially affected areas such as the Underwriting, Communications and the Legal Department. To avoid risks arising from possible damage to the company's reputation as a result of negative public perception, critical individual cases in underwriting are subject to a rigorous coordination process in which the Communications Department is actively involved and if required, Risk Management. AGCS SE investments also follow strict ESG guidelines.

In addition to the risk categories described, AGCS SE also monitors potential new risks (emerging risks) in a joint process together with the Allianz Group. This ensures that AGCS SE is prepared in advance for these risks takes action where necessary.

However, future macroeconomic developments remain subject to significant uncertainties against the background of the further course of the coronavirus pandemic Further restrictions imposed on economic activity may slow down economic recovery, which in turn may have potential negative consequences for the situation on financial markets with corresponding impact on the AGCS SE investment portfolio. In addition, the insurance business may still face further claims burdens, for example due to the deferral at cancellation of events.

The economic losses suffered by many policyholders as a result of the pandemic, including the numerous official orders issued in connection with it, have in many cases raised new questions about the interpretation of agreed insurance conditions – in particular of extensions of cover for financial losses, where damage to insured property had not occurred previously. We continuously monitor landmark decisions, such as those handed down by courts in the United Kingdom, South Africa and Australia, and take them into account in the balance sheet by creating appropriate reserves where necessary.

# **OWN RISK AND SOLVENCY ASSESSMENT**

An essential component of AGCS SE's risk management system is the company's own risk and solvency assessment.

The company's risk and solvency situation is summarized in a separate report at least once per year, which, in addition to the results of the regular risk reporting, includes in particular the company's assessment of the:

- alignment of the risk strategy with the business strategy,
- permanent assurance of solvency,
- sensitivity of the solvency ratio to external shocks,
- suitability of the internal model for determining solvency capital requirements,
- efficiency of the internal control system,
- capitalization of subsidiaries subject to separate reporting requirements.

The risk and solvency situation is not only assessed at the end of the year, but also covers the entire three-year planning period. AGCS SE expects capitalization to be in line with the defined risk appetite at all times over the entire planning horizon.

# B \_ Management Report of AGCS SE

In addition, an extraordinary risk report must be established should individual events materially alter the risk situation. However, there was no reason to prepare such a separate report in 2020.

As resolved by the Board of Management, the regular report on the risk and solvency situation was submitted on time to the BaFin supervisory authority on time and made available to the Allianz Group Risk Unit.

# **OUTLOOK**

# Economic outlook<sup>3</sup>

2021 will be the year of the vaccine. The progress being made in the global vaccination campaign will be the decisive factor in paving the way for the economy to recovery from the effects of the pandemic After a dismal start to 2021 due to renewed Covid-19-related restrictions in Europe and elsewhere, successful vaccination of at-risk groups in the population (20-40% of the total population) should set the stage for a modest economic upturn in the second half of 2021. Crucial to the recovery will be the restoration of confidence, which will help to revive the services sector, release forced as well as precautionary savings and resume investment in businesses. Overall, we expect gross domestic product growth of 4.6% in 2021. China is expected to take the lead (+8.4%), while the United States and the Eurozone are expected to achieve more moderate growth rates of 3.6% and 4.3% respectively.

Meanwhile, the downside risks are considerable. At the forefront are the vaccination hurdles – both on the demand side (vaccination skepticism) and on the supply side (production and distribution bottlenecks) – that could easily bring the hoped-for economic recovery to a standstill. Against this background, the very slow start of vaccination campaigns so far in Europe is not exactly promising. There are other risks too, such as a sudden spike in inflation, early termination of fiscal and monetary support measures, a surge in bankruptcies, and social unrest due to greater inequality and poverty as a result of the pandemic.

Irrespective of this, our baseline scenario assumes that political policymakers will drive supportive measures to avoid economic "scars" and foster the recovery process. The fiscal safety net in Europe could be reinforced even further, similarly, economic stimulus spending in the United States is likely to rise in 2021. At the same time, the central banks' bond purchasing programs will ensure that refinancing conditions remain favorable for the public and private sectors. For now, the US Federa: Reserve Bank and the European Central Bank are also likely to keep interest rates at a record low.

On stock markets, much of the confidence had already been priced in at the start of 2021. The high valuations hardly provide much of a cushion in the event of unexpected bad news. On the other hand investors in the markets for safe haven assets such as government bonds, have taken a somewhat more cautious stance. Our baseline scenario expects slightly higher yields on the back of reflationary expectations as the economic recovery continues.

# Insurance industry outlook

The anticipated economic recovery and heightened risk awareness following the pandemic should provide some tailwind for the insurance market in 2021 and lead to higher premiums in some business lines. One of the consequences of the pandemic that will no

doubt still be felt into 2021 (and in the coming years) is the acceleration of digitalization. We expect digital processes and sales channels to continue to grow in importance. Further entrenchment of low or even negative interest rates is another, less welcome outcome, so that declining investment returns will impact industry profitability in 2021 and beyond

In the **Property-Casualty sector** premium growth is likely to return to pre-crisislevels, however, emerging markets, and China in particular, are likely to leave the industrialized nations well behind in this respect. Besides the general recovery, corporate customer business will benefit from further price increases (hard market). On the other hand, investment returns will remain under pressure and Covid-19-related claims are unlikely to abate for now in some business lines. Social inflation and the impact of natural catastrophes are other factors that could lead to soaring claims and thus require careful claims management to maintain underwriting profitability.

# Business outlook

In July 2020, AGCS SE launched a comprehensive global transformation program The "New AGCS" program aims to regan profitability in corporate and specialty insurance. Supported by new management appointments, AGCS SE will strengthen its professional expertise in underwriting and claims, streamline its organization and processes, expand its sales function and invest in digitalization to further develop its core business and customer offering.

Allianz has set clear targets for customer loyalty and employee engagement along with the said focus on customer benefits and to ensure the sustainability of its actions. Customer loyalty is measured with the aid of the Net Promoter Score (NPS), while employee commitment is reflected in the Inclusive Meritocracy Index (IMIX). Allianz has also set itself a number of sustainability targets, such as the reduction of its CO2 footprint and greenhouse gas emissions, as well as a milestone plan to achieve a net zero-compliant capital allocation by 2050 at the latest.

AGCS SE's gross premium income of € 4.5 bn in 2020 significantly exceeded the previous year's forecast of € 3.9 bn. This was primarily due to the extraordinarily positive movement in rates and attendant higher-than-expected growth in Financial Lines and Property. Premium growth was supported by an increase in the fronting business, particularly in the Allianz Risk Transfer line.

With a net combined ratio of 138.2% in 2020, profitability was considerably lower than the prior year outlook of below 100%. The main reason for this development was claims in conjunction with the unexpected outbreak of the Covid-19 pandemic and some large claims in the current year in the Liability and Energy & Construction lines. Claims with regard to natural catastrophes were within expectations for AGCS SE Run-off losses from previous years also had a negative impact on profitability.

AGCS SE is expected to generate gross premium income of  $\leqslant$  41 bn in 2021, down significantly on 2020 ( $\leqslant$  4.5 bn). This was mainly due to the planned and initiated portfolio measures to increase profitability in connection with the New AGCS strategy, lowerforecasts

<sup>3.</sup> The information presented in the sections "Economic authoris" and "Insurance industry authoris" is based on estimates of the Alliana Group Economic Research.

for fronting revenues as well as the general assessment of macroeconomic developments. A net combined ratio of 100% is expected for 2021, significantly lower than the figure of 138.2% in 2020

The profitability of industrial insurers has generally been under heavy pressure in recent years. AGCS expects the noticeably positive rate trend recently realized in the market to remain intact in 2021.

The proportional reinsurance contract with Allianz SE, which has been in place since 2015, for the business of the German head office was renewed for 2021. For 2021, the global reinsurance structure, which was introduced in 2016 and includes all AGCS branch offices worldwide, was also renewed unchanged (in mid-2020, the annual retention of  $\in$  25 mn for modelled natural hazards in the USA and the Caribbean was reduced to 0; this annual retention does not exist for 2021 either). The retention per claim and/or event is now a standard  $\in$  75 mn. As in the previous year, the majority of non-proportional reinsurance contracts were placed with Allianz Re Duplin dac.

AGCS SE will continue to pursue its safety-oriented investment strategy, where it will continue to rely on the Allianz Group's wealth of experience with investments in Germany and other countries. In order to reduce our dependence on capital market developments and to further diversify the investment portfolio of AGCS SE, we are planning to further expand our investments in infrastructure and real estate, in both equity and of debt financing.

AGCS SE's investment planning is based on the assumption that the capital markets will remain stable. All in all, a positive investment result is expected again for 2021, but is predicted to be below the 2019 result at just over  $\in$  100 mn. With the portfolio's average reinvestment interest rate likely to be below the book interest rate, expected interest income will continue to decline next year. This decline will be offset by higher expected income from affiliated enterprises.

Based on current estimates, potential additional losses due to the ongoing Covid-19 pandemic will be taken into account in general business activities, for example by structuring risk premiums and implementing measures to reduce portfolio risks (especially in the Entertainment line). AGCS SE therefore sees no need to adjust the planning for 2021 at this point in time.

After the end of the transition period on 31 December 2020, AGCS SE will still be able to continue to offer the existing services to its customers without interruption, despite Brexit. It has qualified for the Temporary Permission Regime that allows the continuation of business operations in the UK until the application is approved, through its application for a third country branch in the UK. This applies both to the granting of insurance cover and to claims processing. AGCS SE, with all its European branch offices as well as its London branch office, has the necessary authorizations to continue underwriting UK-related insurance business in all Brexit scenarios. This applies, for example, to German companies with subsidiaries in the UK that have cover with AGCS SE under an international insurance program. However, we can also continue to provide adequate insurance cover for UK businesses in general.

The legal risks explained in the Risk Report remain largely uncertain. Even though current court rulings did not directly concern insurance contracts involving AGCS involvement, we include them in the regulation for claims reported to us and strive for amicable solutions with our policyholders.

The statements are subject to the proviso that a renewed deterioration of the Covid-19 pandemic, natural catastrophes, adverse

developments in capital markets or other factors may have a greater or lesser impact on the forecasts.

## **NOTES**

## BUSINESS ACTIVITY AND BASIS OF PRESENTATION

#### **BUSINESS ACTIVITY**

AGCS SE is headquartered at Königinstrasse 28, 80802 Munich and is listed in the Commercial Register of the Munich District Court under the number HRB 208312.

The annual financial statements of AGCS SE are published in the electronic Federal Gazette.

### **BASIS OF PRESENTATION**

The company prepares the annual financial statements and the management report in accordance with the regulations contained in the German Commercial Code (HGB), taking into account the Stock Corporation Law (AktG), the Law on the Supervision of Insurance Enterprises (VAG), and the Government Order on the External Accounting Requirements of Insurance Enterprises (RechVersV).

Unless otherwise stated, the figures in the annual financial statements are in thousands of euro (& thou)

## ACCOUNTING, VALUATION AND CALCULATION METHODS

#### **INTANGIBLE ASSETS**

Intangible assets are stated at cost less amortization. Self-created intangible assets are capitalized and amortized on a straight-line basis over a period of 10 years.

Acquired intangible assets are amortized on a straight-line basis over their expected useful lives. The useful life is fixed in each case at five or ten years.

The individual software solutions used at AGCS SE are parameterized and adjusted in order to allow for incorporation into the specific operational environment.

The expenses for the parameterization and adjustments are divided up into capitalized expenses in order to establish operations and expenses for other measures which are to be activated only if they constitute measures for the expansion, or substantial improvement of already activated individual software.

In the event of permanent impairment, write-downs are made.

## REAL ESTATE, REAL ESTATE RIGHTS, AND BUILDINGS, INCLUDING BUILDINGS ON LAND NOT OWNED BY AGCS SE

They are carried at cost and depreciated on a straight-line basis over their estimated useful lives. Write-downs are made for expected permanent impairments if the amortized cost exceeds the long-term fair value as of the balance sheet date.

## INVESTMENTS IN AFFILIATED ENTERPRISES AND PARTICIPATIONS

### SHARES IN AFFILIATED ENTERPRISES

These are valued according to the moderate lower of cost or market principle and carried at amortized cost or a lower long-term fair value.

Write-downs are made if the amortized cost exceeds the market value and the long-term fair value as of the balance sheet date.

#### LOANS TO AFFILIATED ENTERPRISES

This item includes bearer bonds, land charge claims, loans and profit participation certificates.

These are valued according to the moderate lower of cost or market principle and carried at amortized cost. Write-downs are made if the amortized cost exceeds the market value and the long-term fair value as of the balance sheet date.

#### **PARTICIPATIONS**

These are valued according to the moderate lower of cost or market principle and carried at amortized cost or a lower-long-term fair value

Write-downs are made if the amortized cost exceeds the market value and the long-term fair value as of the balance sheet date

## LOANS TO AFFILIATED ENTERPRISES IN WHICH A PARTICIPATING INTEREST IS HELD

This item includes loans.

These are valued according to the moderate lower of cost or market principle and carried at amortized cost. Write-downs are made if the amortized cost exceeds the market value and the long-term fair value as of the balance sheet date.

### **OTHER INVESTMENTS**

## STOCKS, INVESTMENT FUND UNITS, BEARER BONDS, OTHER FIXED-INCOME SECURITIES AND OTHER VARIABLE INCOME SECURITIES

Securities managed in accordance with the principles of current assets are valued strictly at the lower-value or market and carried at the lower of average acquisition cost or market value.

The investments shown in the balance sheet in accordance with the regulations governing fixed assets are intended to serve business operations on a permanent basis. An allocation of the purpose is made when the investment is received. The allocation is reviewed every time the investment strategy is changed or when sales are planned.

These securities are valued according to the moderate lower-of-cost-or-market principle and carried at the lower of average acquisition cost or long-term fair value. In the case of permanent impairment, write-downs are charged to the income statement.

A write-down option is available for expected temporary impairments. As in the previous year, the option will be exercised in the financial year to the effect that the expected temporary impairments will not be made for economic reasons.

## MORTGAGES, LAND CHARGES AND ANNUITY LAND CHARGES

These are valued according to the moderate lower of cost or market principle and carried at amortized cost.

The difference between the acquisition cost and the repayment amount is distributed on a straight-line basis over the term, for the annuity loans in proportion to the remaining debt.

Write-downs are made if the amortized cost exceeds the market value and the long-term fair value as of the balance sheet date

## REGISTERED BONDS, NOTES RECEIVABLE AND LOANS

These are valued according to the moderate lower of cost or market principle and carried at amortized cost.

The difference between the acquisition cost and the repayment amount is recognized and amortized over the remaining term using the effective interest method.

Write-downs are made if the amortized cost exceeds the market value and the long-term fair value as of the balance sheet date.

#### BANK DEPOSITS

These items are carried at face value.

### **DERIVATIVES AND STRUCTURED PRODUCTS**

AGCS SE reduces the volatility of its annual results with the aid of currency derivatives. These are individually valued. The upper valuation limits form the costs of acquisition. In the case of negative market values, premium deficiency reserves are formed.

The portfolio contains structured products in the form of registered bonds, loans, participatory notes and bearer bonds, which are posted uniformly in the balance sheet. They are valued and recognized according to the balance sheet item under which they are recorded.

## FUNDS HELD BY OTHERS UNDER REINSURANCE BUSINESS ASSUMED

Pursuant to § 341c HGB these items are carried at face value.

#### RECEIVABLES AND OTHER ASSETS

In detail:

- Accounts receivable on direct insurance business
- Accounts receivable on reinsurance business
- Other receivables
- Cash with banks, checks and cash on hand

These are valued at face value less repayments and less any necessary individual value adjustments. For accounts receivable from direct insurance business, general loss allowances are made to account for the credit risk.

The accounts receivable from reinsurance business are netted separately for incoming and outgoing reinsurance for each contractual partner.

Tangible fixed assets, inventories and miscellaneous assets

These items are carried at acquisition cost scheduled depreciation on straight-line basis over their expected useful lives Low-value assets worth up to  $\in$  250 (net) are written off immediately. A compound item for tax purposes was created in accordance with § 6 (2a) of the German Income Tax Act (EStG) for assets from  $\in$  250 to  $\in$  1,000 (net), which is depreciated by one fifth each year.

#### DEFERRED CHARGES AND PREPAID EXPENSES

Deferred interest and rents are stated at their nominal amounts and other prepaid expenses at their nominal values.

### **DEFERRED TAX ASSETS**

Pursuant to § 274 HGB, the company does not exercise the option to recognize deferred tax assets on temporary differences between the carrying amounts of assets, liabilities and prepaid expenses in the financial statements and their tax bases, provided these differences will result in tax relief in the following years

## EXCESS OF PLAN ASSETS OVER PENSION OBLIGATIONS

Pursuant to § 253 (1) HGB, assets are recognized at fair value and offset against liabilities in conjunction with § 246 (2) HGB.

If the liabilities exceed the fair value, the excess amount is reported under provisions If the fair value exceeds the amount of the liabilities, the excess amount is reported under the asset difference item in the balance sneet.

The accounting and valuation method of the excess of plan assets corresponds to that described in Section 16. Other provisions (Equity and liabilities C ).

## **INSURANCE RESERVES**

#### **UNEARNED PREMIUMS**

In the direct insurance business, unearned premiums are predominantly determined according to the daily calculation method. In the case of engineering insurance, the daily accrued premium payments generally reflect the risk experience. This does not apply to insurance contracts with an underwriting year prior to 2015, where a separate accrual is made depending on the risk experience. Commissions to agents and other acquisition expenses are deducted as non-transferable portions according to the tax guidelines. For reinsurance business assumed, unearned premiums are determined on the basis of the information provided by the ceding insurers. The reinsurers' share deducted from the gross unearned premiums is predominantly determined according to the daily calculation method, with deduction of non-transferable portions.

In the case of quota share cessions with original cost sharing, the pro-rata unearned premiums are recognized in accordance with the quota share of the reinsurer.

## RESERVE FOR LOSS AND LOSS ADJUSTMENT EXPENSES

The gross reserve for direct insurance business is made up of the following partial reserves:

Reserves for known insured losses (excluding annuities) is measured individually for each claim according to the expected benefit, and in participating business according to the responsibilities of the leading insurers. The provision for claims settlement expenses that can be allocated to known insurance claims is formed in the course of individual case provisions in accordance with the expected payments. The partial loss reserve for non-allocable claims settlement expenses is derived using a lump-sum approach from historical settlement expenses measured by claims payments and reserve changes. For losses already incurred or caused but not yet reported late claims provisions are set up on the basis of the experience from previous years. Based on the principle of prudence and building on the negative run-off results in the past, the method for the formation of additional safety margins was adjusted in the financial year compared with the previous year. This applies in particular to more volatile, longdated lines of business. If the procedure had already been applied in the previous year, it would have resulted in a  $\in$  1500 mn (gross) or  $\in$ 53.0 mn (net) higher reserve for loss and loss adjustment expenses as of 31 December 2019, expenses for claims in the 2020 financial year would have been reduced accordingly. For individual claims which are not yet known, late claims provisions for claims settlement expenses are calculated using the same actuarial method as for claims provisions for claims expenses Receivables from subrogation, claim recoveries and distribution agreements are deducted to the extent of their ascertainable or determinable realizability.

For the gross provision for **assumed reinsurance business** the provisions are created for known cases according to the duties of the cedents. The corresponding late claims provisions are calculated on the basis of actuarial analyses.

For the reinsurance business ceded, the reinsurers' share of the provisions for known cases is determined in accordance with the contractual agreements. The corresponding late claims provisions are calculated on the basis of actuarial analyses.

#### **EQUALIZATION RESERVE AND SIMILAR PROVISIONS**

The claims equalization reserve and the reserves for nuclear, pharmaceutical and terrorist risks are calculated for the net retention portion pursuant to § 341h HGB in conjunction with §§ 29 and 30 of the Government Order on the External Accounting Requirements of Insurance Enterprises (RechVersV).

### OTHER UNDERWRITING RESERVES

#### Reserve for cancellations

The reserve for cancellations is determined on the basis of experience from previous years for direct insurance business.

### Reserve for anticipated losses

The starting point for the assessment is the expected premium income as well as loss and cost developments for the respective line of

business. The reserve is calculated taking into account proportional interest income expected for the retention only. The reserve is calculated as a total for the direct insurance business and the reinsurance business assumed No reserve had to be set up in the financial year.

#### Provision for profit-independent premium refunds

The provision for profit-independent premium refunds is calculated on the basis of the premium, claims and cost development of one or more insurance contracts for the current business year, insofar as a premium refund is the subject of contractual agreements. If these relate to an observation period of several years, the provision is created as a precaution for amounts before the end of this period. In the financial year, the provision includes amounts from reinsurance business assumed.

#### **OTHER PROVISIONS**

Other accrued liabilities are stated in the amount required to settle the obligation. In the case of a remaining term of more than one year, interest is discounted at an interest rate of the Deutsche Bundesbank appropriate to the term.

The reserves for pensions are calculated according to actuarial principles. The conversion expense resulting from the first-time application of the German Accounting Law Modernization Act (Bilanzrechtsmodernisierungsgesetz – Bilmog) in 2010 was already recognized in full as an extraordinary expense in the past.

Provisions for employee anniversaries, phased-in early retirement and early retirement benefits are also calculated on the basis of actuarial principles and recognized in full as liabilities.

Pursuant to § 253 HGB, provisions for pension obligations must be discounted at the average market interest rate from the past ten financial years and for other personnel obligations from the past seven financial years §253 (6) sentence 2 HGB states that a positive difference resulting from the valuation of pension obligations at the seven-year average interest rate compared with the valuation at the ten-year average interest rate is subject to a distribution ban. This distribution ban does not block the transfer of profits if there is a transfer-of-profit agreement.

In determining the discount rate, the company makes use of the simplification rule pursuant to § 253 (2) sentence 2 HGB (remaining term of 15 years), whereby, as in the previous year, an interest rate predicted as of the balance sheet date was used as a basis.

The resulting effect from a change in the discount rate is reported under Other Non-Technical Result.

Further explanations on the accounting treatment of pensions and similar obligations can be found in the notes to the financial statements under "Supplementary information on equity and liabilities" and under "Contingent liabilities".

### LIABILITIES

In detai.:

- Funds held with reinsurance business ceded
- Accounts payable on direct insurance business
- Accounts payable on reinsurance business
- Other liabilities

These liabilities are stated at the amounts payable on maturity

The settlement liabilities from the reinsurance business are netted separately for incoming and outgoing reinsurance for each contractual partner.

#### APPROXIMATION AND SIMPLIFICATION METHODS

To the extent that calculations from are no longer received in time for the financial year, the underwriting entries are estimated on the basis of past experience, taking into account current developments.

#### **CURRENCY CONVERSION**

All business transactions are recorded in the original currency and converted into euro at the applicable daily rate (mean spot exchange rate).

On the balance sheet date, receivables and liabilities denominated in foreign currences are translated at the mean spot exchange rate and valued in accordance with the rules of commercial law for currency translation. For remaining terms of one year or less, gains and losses from the translation are recognized in the income statement pursuant to § 256a HGB.

Provisions denominated in foreign currencies are calculated on the balance sheet date. They are then revalued and translated at the mean spot exchange rate.

The costs of the real estate assets and the costs of the loans and land charge receivables are determined using the average spot exchange rate at the time of acquisition. Fluctuations in value due to changes in exchange rates are recognized in the income statement as of the balance sheet date (strict lower of cost or market principle, taking into account the historical cost and realization principle).

For the valuation of investments denominated in foreign currencies, the fair value in the original currency is converted into euro at the mean spot exchange rate on the balance sheet date.

In the case of affiliated enterprises and participations, the moderate lower of cost or market principle is applied when comparing the acquisition cost in euro with the fair value in euro, taking into account the acquisition cost and realization principle.

For the other investments, the strict lower-of-cost-or-market principle is applied, taking into account the historical cost and realization principle, with the exception of investments with remaining terms of one year or less.

The following applies to all investments: Currency gains and losses are determined separately, but not recognized separately in the foreign currency translation result.

The net effect of exchange rate changes and fluctuations in value in the original currency is recognized in write-ups and write-downs, and in realized gains and losses on these asset classes and reported in the net investment result.

For investments carried at amortized cost, changes in exchange rates are recognized in the write-ups and write-downs and realized gains and losses of these investment categories and reported in the net investment result, unless there is a credit rating-related write-down.

## REQUIREMENT TO REINSTATE ORIGINAL VALUES, WRITE-UPS

Assets that were written down to a lower market value in previous years must be written up if a higher value is attributed to these assets again as of the balance sheet date.

The write-ups are made up to the amount of the amortized cost to a lower long-term fair value or to a lower market value.

## SUPPLEMENTARY INFORMATION ON ASSETS

## 1 Change of assets A., B.I. through B.III. for financial year 2020

	<u> Bolonogisheet</u> value	31,122019
	€ thou	%
A. Intangible assets		
1. Self-created industrial property rights and similar rights and assets	132,212	
2. Licenses acquired against payment, industrial property rights and similar rights and assets as well a slicenses for such rights and assets	115,620	
Total A.	247,332	
B.I. Real estate, real estate rights, and buildings, including buildings on land not owned by AGCS SE	75,707	1.0
B.II. Investments in affiliated enterprises and participations		
1. Shares in affiliated enterprises	2,281,186	30.6

Total B.i. to B.III.	7,451,160	100.0
Total	7,698,996	

<sup>1.</sup> Reclassification of shares in officiated enterprises and participations into shares in investment funds based on the definition of investment fund pursuant to §1 of the German Capital Investment Act (KAGB) in conjunction with the Act implementing the AIFM Directive.

## 2 \_ Intangible assets (Assets A.)

This balance sheet position essentially comprises the capitalized expenses in connection with the system configuration of self-created and purchased software. The long-term distribution agreement, which was material in previous years, was written down at our Hong Kong branch ( $\[ \le 25,775 \]$  thou) and sold in full at our Singapore branch ( $\[ \le 18,088 \]$  thou).

The total amount of the research and development costs for self-created intangible assets in financial year 2020 amounted to  $\le$  27,391 thou, of which  $\le$  21,840 thou was capitalized.

The production costs of self-produced intangible assets cover optional components pursuant to § 255 (2) sentence 3 HGB.

The development costs are included in the production costs as soon as the feasibility check has been successfully concluded.

## 3 \_ Real estate, real estate rights, and buildings, including buildings on land not owned by AGCS SE (Assets B.I)

The balance sheet value of directly held properties  $\in$  74,633 thou. Of this portfolio, no land or buildings were used for our own purposes in the course of our business activities.

Total investments	8,352,359	8,870,014

### **VALUATION METHODS TO DETERMINE FAIR VALUES**

The fair value of the land and buildings was determined as of 31 December 2020 using the discounted cash flow method.

The fair values of shares in affiliated enterprises and participations are determined in different ways, depending on the purpose and size of the enterprise. Insurance companies and similar enterprises are valued by means of the capitalized earnings value method or using proportional equity. In the case of asset holdings, the look-through principle is used to determine the fair value. Different valuation methods are used here for the assets used to determine net assets, such as the net asset value method, stock market values and the discounted cash flow method. Individual shares in affiliated enterprises were recognized at cost in the first year of the investment. Immaterial companies are carried at book value. The net asset value is considered in individual cases.

To determine the fair value of stocks, units or shares in investment funds and other non-fixed-income securities, the year-end stock exchange price was used, if available. For special funds, the value communicated by the investment company was used

The fair values of exchange-listed fixed-term securities, such as bearer bonds and other fixed-income securities, were determined using the year-end stock exchange prices

In the case of unlisted fixed-term investments (other loans), the fair value was determined on the basis of valuations by independent data providers or according to the discounted cash flow method A yield curve of comparable debt instruments was used for this.

For asset-backed securities (ABS), the market values are supplied by independent commercial banks. These were calculated (except in individual cases to a very small extent) using valuation models that are themselves based on readily observable market data.

## 8 Unrealized losses

The fixed asset investments carried at acquisition cost less cumulated depreciation include unrealized losses in the amount of  $\in$  2,968 thou

The following table shows the composition of the unrealized losses in financial year 2020:

#### Distribution of hidden losses

€ tho

^ ^	Book value	Fair value	Unrealized losses
Shares in affiliated enterprises	33,734	32,927	807
Loans to affiliated enterprises	31,879	31,320	559
Participations	3,513	2,911	602
Registered bonds	8,344	7,344	1 000
Total	77,470	74,502	2,968

No write-down to fair value was made as an analysis based on standardized methods showed that the long-term market value of the investments concerned exceeded their fair value.

## 9 \_ Miscellaneous assets (Assets D.III.)

This item mainly comprises 150,717 options on Allianz SE shares, which are used to hedge company risks within the framework of Allianz Equity Incentives The acquisition cost of these options amounted to  $\in$  22,758 thou.

## 10 Deferred tax assets

In line with the option under §274(1) sentence 2 HGB, the deferred tax assets that exceed the offsetting amount is not recognized.

The most extensive deviations between the commercial and tax valuations arise from the balance sheet items investments and reserves for pensions, which each result in deferred tax assets.

Deferred taxes are valued at a tax rate of 31% in Germany and at the applicable local tax rate in other countries

## 11 \_ Excess of plan assets over pension liabilities/pension provisions (Assets F.)

A portion of the pension obligations is covered through reinsurance policies or offsettable plan assets. Since the assets are based on a different interest rate than that used to calculate the settlement amount of the pension obligations, a part of the pension plans shows an excess of plan assets over pension liabilities/pension provisions. The pension plan resulted in an excess of plan assets of 0 (3,088) thou

In addition, an excess of plan assets over pension liabilities/pension provisions also resulted from the offsetting of the remuneration obligations against the offsettable plan assets with regard to the phased-in early retirement obligations.

This resulted in the recognition of an excess of plan assets over pension l'abilities/pension provisions of  $\in$  211 (0) thou.

## 12 \_ Distribution ban

The amount banned from deduction pursuant to § 268 (8) HGB in conjunction with § 301 AktG amounted to € 136,937 (133,985) thou and related in the amount of € 135,015 (132,213) thou to the recognition of self-created intangible assets and in the amount of € 1,922 (1,772) thou to the measurement of assets at fair value pursuant to § 253 (1) HGB. The amount banned from deduction was covered in full by freely available equity components.

## 13 Valuation units

To hedge the stock-based compensation plans (Allianz Equity incentive plans), forward transactions (hedge RSUs) are concluded with Allianz SE. These forward transactions are combined with the corresponding underlying transactions as a valuation unit if a direct hedging relationship exists. The underlying transactions are reported under Other provisions and the hedging transactions under Miscellaneous assets.

For the valuation units formed, a micro-hedge is used in order to completely exclude price change risks deriving from market price fluctuations.

The prospective and retrospective effectiveness of the valuation units over the stock-based payment plans expiring in 2024 at the latest is demonstrated by matching the conditions, parameters and risks (critical term match method).

As of the balance sheet date, the included underlying transactions, consisting of benefits presumed to be settled in the future, amounted to  $\in$  22 758 (22 375) thou. Valuation units are accounted for under the freezing method. The valuation units were used to hedge risks in the form of changes in value amounting to  $\in$  5 846 (12 041) thou.

## SUPPLEMENTARY INFORMATION ON EQUITY AND LIABILITIES

## 14 \_ Issued capital (Equity and liabilities A.I.)

The issued capital of  $\le$ 36,741 thou as of 31 December 2020 comprised 36,740,661 fully paid-up registered no-par value shares with a computed value of  $\le$ 1 each.

The shares may only be transferred with the company's consent. Allianz SE is the sole shareholder of AGCS SE.

## 15 Gross insurance reserves (included in Equity and liabilities B.)

<sup>1.</sup> Health Insurance achieved gross premiums of over € 3,000 thou for the first time this year and is thus reported together with Casualty hourance in the Personal Acadent and Health Insurance line.

## 16 \_ Other provisions (Equity and liabilities C.)

## PROVISIONS FOR PENSIONS AND SIMILAR OBLIGATIONS

AGCS SE has made pension commitments for which reserves for pensions have been created. Part of these pension commitments is secured within the framework of a "Contractual Trust Arrangement" (Methusalem Trust e.V.). These trust assets constitute offsettable plan assets, whereby the fair value is based on the asset value/market value.

The settlement amount is calculated on the basis of the projected unit credit method (this refers to a projected unit credit method based on the portion accrued) or reported as the present value of the entitlement acquired. For security-linked commitments, the fair value of the offset assets is used.

#### Calculation parameters

%

	2020	2019
Discount rate (10-year average):	2,30	2, <b>7</b> 1
Discount rate (7-year average):	1 60	1.97
Pension trend	1.30	1.50
Assumed salary increase (incl. average career trend)	3.25	3.25

In derogation of the above the guaranteed pension dynamic of 1% per year is used as a basis for some of the pension commitments.

The Heubeck mortality tables RT2005G, which have been adjusted with regard to mortality, invalidity and fluctuations to reflect the company-specific circumstances, are used as the biometric calculation basis. The company-specific adjustments were introduced in 2010 and reviewed and redefined in 2018.

The retirement age applied is the retirement age provided for in the contract or age limit resulting from the 2007 Pension Insurance Retirement Age Adjustment Act (RV-Altersgrenzenanpassungsgesetz)

<sup>2.</sup> In addition to the individual insurance lines, insurance branches and types of insurance listed above, the total also includes insignificant amounts for the overall business of AGCS SE for the indemnty insurance, legal expenses insurance and credit and suretyship insurance branches, each with a gross premium of less than € 3,000 thou.

#### Supplementary information

	2020	2019
Acquisition costs of the offset assets	125,385	111,985
Fair value of the offset assets	127,365	113,948
Settlement amount of the offset liabilities	133,836	115,762

In the financial year, provisions for pensions and similar obligations amounted to  ${\in}\,6,584\,(4,967)$  thou

Under Article 67(2) of the Introductory Act to the German Commercial Code (EGHGB), there is no unrecognized provision amount

The settlement amount of the offset liabilities calculated using the 7-year average interest rate as of 31 December 2020 amounted to  $\in$  142,953 thou. An amount of  $\in$  9,117 thou is barred from distribution pursuant to  $\S$  253 (6) sentence 2 HGB.

#### **TAX RESERVES**

In the financial year, tax reserves of €49886(31,126) thou were mainly created mainly at the branch offices in France, Belgium, Singapore and India. In the previous year, accruals for risks from tax audits amounting to €13,732 thousand were reported under other liabilities.

#### **OTHER PROVISIONS**

## JUBILEE AND PHASED-IN EARLY RETIREMENT COMMITMENTS AND ALLIANZ LONG-TERM CREDIT ACCOUNT

AGCS SE has obligations arising from jubilee payments, a long-term credit account and phased-in early retirement and early retirement agreements, which are reported under Other provisions.

The assets held as a reserve to secure the phased-in early retirement and the long-term credit account obligations in Methusalem Trust e.V. comprise offsettable plan assets, whereby the fair value is based on the asset value/market value

These obligations are essentially measured in the same way as pension commitments and on the basis of the same accounting assumptions (with the exception of the actuarial interest rate).

#### Supplementary information

€ thou

## 25 \_ Value adjustments on investments

Write-downs pursuant to § 253 (3) sentence 5 HGB were made in the amount of € 101,705 (551) thou for shares in and loans to affiliated enterprises. Write-downs pursuant to § 253 (4) HGB were made in the amount of € 45,302 (3,596) thou for bearer bonds as well as stocks, investment fund units and other variable income securities.

## 26 \_ Write-downs on intangible assets

Write-downs on intangible assets pursuant to § 253 (3) HGB of  $\in$  32,478 (36,007) thou were made during the financial year in relation to intangible fixed assets under consideration of the respective useful life

In addition, the long-term distribution agreement at our Hong Kong branch office was written down by €25,775 thousand.

## 27 \_ Other income and other expenses (Income statement II.3/4)

The following are included in Other income and other expenses:

### € thou

	Pensions and similar obligations	Other abligations
Income / expenses from the fair value of the offset assets	-4,437	135
Calculated interest on the settlement amount of the offset liabilities	3,508	228
Effect from the change in the discount rate for the settlement amount	4,598	27
Net amount of the offset income and expenses	3,670	120

Also included are currency translation gains of  $\in$  196,118 thou (negative result of  $\in$  102,021 thou) and interest expenses of  $\in$  43,749 thou (27,318 thou) for funds held with respect to reinsurance partners. In the 2020 financial year, extraorainary restructuring expenses of  $\in$  28,800 thou were incurred.

## 28 \_ Income taxes (Income statement II.7.)

For AGCS SE, the lawer taxable income in the foreign branch offices compared with the previous year, as well as the negative results posted at the German head office and at the branch office in France and the United Kingdom mainly resulted in lower income taxes of  $\in$  25,838 (46.260) that.

## 29 \_ Appropriation of earnings

Before the transfer of profit, the negative result for financial year 2020 amounted to  $\in$  518,155 (11,870) thou, which was compensated for by Allianz SE under the terms of the existing transfer-of-profit agreement

## OTHER INFORMATION

#### **CONTINGENT LIABILITIES**

Contingent liabilities exist in connection with the company pension plan. As a rule, the company pension plan for employees of the German Allianz companies who joined on or before 31 December 2014 is based on membership of Allianz Versorgungskasse VVaG (AVK), which, as a legally independent and regulated pension fund is subject to supervision by BaFin. The benefits provided by AVK are funded under the single-premium system by means of contributions from the sponsoring companies to the fund through deferred compensation.

In addition to Allianz SE, Allianz Deutschland AG, Allianz Versicherungs-AG and Allianz Lebensversicherungs-AG, the sponsoring companies also include AGCS SE.

AGCS SE is legally obliged to cover the administrative costs of AVK on a pro-rata basis and to make employer contributions, if required.

In addition, the sponsoring companies make contributions to Allianz Pensionsverein e.V (APV) for employees who joined the company on or before 31 December 2014.

Due to the substantially lower discount rate and because the adjustment obligations pursuant to §16 of the German Company Pension Act (BetrAVG) are not covered at the old rate of the APV, the plan assets of the APV were lower than the pension obligations as of 31 December 2020. The shortfall as of 31 December 2020 amounted to € 19 549 (19 625) thou

The company makes use of the option under Article 28 (1) sentence 2 EGHGB not to create a provision for uncertain liabilities in this respect as the legally required adjustment of pensions to the consumer price index is funded by means of additional contributions to APV.

Both the AVK and the APV were closed to new entrants as of 1 January 2015.

For new entrants from 1 January 2015, the company pension plan was uniformly reorganized. For new entrants since 1 January 2015, the company pays a monthly contribution to a direct insurance plan with Allianz Lebensversicherungs-AG, which is funded by the employee in the framework of deferred compensation.

In addition, an employer contribution is granted monthly in the form of a direct commitment.

Allianz SE has assumed joint and several liability for part of the pension commitments of AGCS SE. The latter reimburses the costs; Allianz SE has undertaken to fulfil these commitments. The pension commitments are therefore reported by Allianz SE and not by the company.

With effect from 1 January 2017, the companies may reimburse only the work service costs to its employees. No reimbursements are made any longer for risks relating to interest, inflation and biometrics.

#### Supplementary information

€ thou

	2020	2019
Settlement amount of the offset liabilities	73,616	71,796
Joint liability and/or rights of rights of relief against Alianz SE	73,616	71,796

As a result of changes in the funding of the Pensions-Sicherungs-Verein VVaG pension fund in 2006, there was a joint and several liability of  $\in$  13 (25) thou, which is not shown in the company's balance sheet as this liability is matched by rights of relief for the same amount against Allianz SE

Liabilities can also arise from co-insurance and management clauses, and from related hedging agreements.

AGCS SE has issued a directly enforceable guarantee for the unpaid share of AGCS Holding International B.V., Amsterdam, in the equity of Allianz Risk Transfer AG, Schaan, amounting to € 78.9 mn.

AGCS SE enters into contingent liabilities only after careful consideration of the risks involved. On the basis of a continuous evaluation of the risk situation of the contingent liabilities entered into and taking into account the knowledge gained up to the preparation date, it can be concluded that the obligations underlying the contingent liabilities can be met by the respective principal debtors.

AGCS SE therefore does not consider probable the risk of a claim for all the liability relationships listed.

### STATUTORY OBLIGATIONS

Statutory obligations to assume any losses result from control and profit transfer agreements with the following companies:

- AGCS-Argos 76 Vermögensverwaltungsgesellschaft mbH, Munich.
- AGCS-Argos 86 Vermögensverwaltungsgesellschaft mbH, Munich
- AGCS Infrastrukturfonds GmbH, Munich

## Other financial obligations

As of the balance sheet date, there were no liens on capital investments in connection with Group-internal cessions, and there were no such liens with affiliated enterprises.  $\in$  430,465 (376,833) thou were deposited in trust accounts, of which  $\in$  408,433 (354,635) thou were in favor of affiliated enterprises. A claim will only be made on these contingent liabilities if AGCS SE is unable to fulfil its obligations from the reinsurance business. In view of the solid capitalization and the adequate reserves of AGCS SE, the risk of such a claim is considered to be very low. Other financial obligations from purchasing contracts amounted to  $\in$  162,819 (56,154) thou and in particular from real estate purchasing contracts in the amount of  $\in$  47 070 (14,972) thou.

Payment obligations under long-term leases amounted to  $\in$  54,210 (54,296) thou, of which  $\in$  21,446 (47,629) thousand was due to affiliated enterprises

There were residual payment obligations of  $\in$  52.6 mn to Allianz Risk Transfer AG, Schaan, for shares not fully paid up.

## Information on the members of the executive bodies

The information required by § 285 no 10 HGB on the members of the Supervisory Board and Executive Board can be found on page 3 in the notes to the financial statements. Also listed on page 3 are all current members of the Supervisory Board and those who retired in the financial year, as well as current members of the Board of Management and those who retired in the financial year.

## Remuneration of the Management Board and the Supervisory Board

The total remuneration of the Board of Management (including share-based payments granted in the financial year) amounted to  $\in$  10,958 (9,488) thou in the reporting year A total of 7 928 (9,058) restricted stock units were issued to the members of the Board of Management under the share-based remuneration system. The fair value as of the time of granting these units amounted to  $\in$  1,820 (1,403) thou.

The remuneration of former members of the Board of Management and their surviving dependents amounted to  $\in$  555 (641) thou in the reporting year.

The pension obligations vis-à-vis former members of the Board of Management/managing directors or their surviving dependents are as follows:

## Pension obligations vis-à-vis former members of the Board of Management/managing directors

€ thou

	2020	2019
Fair value of the offset assets	20,380	11, 590
Settlement amount of the offset liabilities	22,504	13,197
Reserves for pensions / excess of plan assets over pension liability	2,124	1,608

The total remuneration of the Supervisory Board of AGCS SE amounted to  ${\it \leqslant}\,61\,(60)\,{\it thou}$ 

## Average number of employees

Excluding Board of Management members, trainees, interns, employees in the passive phase of phased-in early retirement and in phased-in early retirement, on parental leave or in voluntary military service/federal voluntary service.

#### Average number of employees

Total	2,449	2,446
Part-time employees	294	279
Full-time employees	2,165	2,167
	2020	2019

## Services provided by the auditor of the annual financial statements

PricewaterhouseCoopers GmbH WPG performed the audit of the annual financial statement and the Solvency Overview of AGCS SE In respect of the overall Group audit and the Group Solvency Overview, limited reviews of quarterly and half-year statements as well as the audit of Group packages were conducted. In addition, a project-related audit is being carried out for the introduction of a new underwriting data warehouse

## Total remuneration of the auditor pursuant to § 285 no. 17 HGB

The total remuneration of the auditor is reported in the consolidated financial statements of Allianz SE, Munich.

## Group affiliation

AGCS SE is a member of the Allianz Group headed by Allianz SE, Munich. The Allianz SE consolidated financial statements and the management report are published in that company's annual report in March and published in the German Electronic Federal Gazette subsequent to the its Annual General Meeting in May. They can be viewed there or can be requested from our company. They will also be made available on the Allianz SE website.

AGCS SE is incorporated in the consolidated financial statements and management report of Allianz SE, which prepares consolidated financial statements for the largest and smallest group of companies. The consolidated financial statements and the management report legally release our company from any other reporting obligations so that AGCS SE does not prepare consolidated financial statements and a management report of its own.

## INDEPENDENT AUDITOR'S REPORT

To Allianz Global Corporate & Specialty SE, Munich

# REPORT ON THE AUDIT OF THE ANNUAL FINANCIAL STATEMENTS AND OF THE MANAGEMENT REPORT

#### **AUDIT OPINIONS**

We have audited the annual financial statements of Allianz Global Corporate & Specialty SE, Munich, which comprise the balance sheet as at 31 December 2020, and the income statement for the financial year from 1 January to 31 December 2020, and notes to the financial statements, including the presentation of the recognition and measurement policies. In addition, we have audited the management report of Allianz Global Corporate & Specialty SE for the financial year from 1 January to 31 December 2020. Inaccordance with the German legal requirements, we have not audited the content of the statement on corporate governance pursuant to § [Article] 289f Abs. [paragraph] 4 HGB [Handelsgesetzbuch: German Commercial Code] (disclosures on the quota for women on executive boards).

In our opinion, on the basis of the knowledge obtained in the audit

- the accompanying annual financial statements comply, in all material respects, with the requirements of German commercial law and give a true and fair view of the assets, liabilities and financial position of the Company as at 31 December 2020 and of its financial performance for the financial year from 1 January to 31 December 2020 in compliance with German Legally Required Accounting Principles, and
- the accompanying management report as a whole provides an appropriate view of the Company's position. In all material respects, this management report is consistent with the annual financial statements, complies with German legal requirements and appropriately presents the opportunities and risks of future development. Our audit opinion on the management report does not cover the content of the statement on corporate governance referred to above.

Pursuant to § 322 Abs. 3 Satz [sentence] 1 HGB, we declare that our audit has not led to any reservations relating to the legal compliance of the annual financial statements and of the management report.

### BASIS FOR THE AUDIT OPINIONS

We conducted our audit of the annual financial statements and of the management report in accordance with § 317 HGB and the EU Audit Regulation (No 537/2014, referred to subsequently as "EU Audit Regulation") in compliance with German Generally Accepted Standards for Financial Statement Audits promulgated by the Institut der Wirtschaftsprüfer [Institute of Public Auditors in Germany] (IDW). Our responsibilities under those requirements and principles are further described in the "Auditor's Responsibilities for the Audit of the Annual Financial Statements and of the Management Report" section of our auditor's report. We are independent of the Company in

accordance with the requirements of European law and German commercial and professional law, and we have fulfilled our other German professional responsibilities in accordance with these requirements. In addition, in accordance with Article 10 (2) point (f) of the EU Audit Regulation, we declare that we have not provided non-audit services prohibited under Article 5 (1) of the EU Audit Regulation. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions on the annual financial statements and on the management report.

## KEY AUDIT MATTERS IN THE AUDIT OF THE ANNUAL FINANCIAL STATEMENTS

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the annual financial statements for the financial year from 1 January to 31 December 2020. These matters were addressed in the context of our audit of the annual financial statements as a whole, and in forming our audit opinion thereon; we do not provide a separate audit opinion on these matters

In our view, the matters of most significance in our audit were as follows:

- 1. Measurement of shares in affiliated enterprises and participations
- 2. Measurement of reserve for loss and loss adjustment expenses

Our presentation of these key audit matters has been structured in each case as follows:

- 1. Matter and issue
- 2. Audit approach and findings
- 3. Reference to further information

Hereinafter we present the key audit matters:

1. Measurement of shares in affiliated enterprises and participations 1. In the Company's annual financial statements, shares in affiliated enterprises and participations amounting to € 2,295 million (21 4 % of total assets) are reported under the "Investments in affiliated enterprises and participations" balance sheet item. Shares in affiliated enterprises and participations are measured at the lower of cost or fair value in accordance with German commercial law. For shares in affiliated enterprises and participations which are neither measured based on quoted nor other market prices the earnings model is used for all material entities with operating activities. For entities whose business purpose is essentially limited to the management of investments (asset holding companies) the determination of the fair value is based on the fair values of the respective underlying investment properties, which are determined using different valuation methods (e.g. net asset value, discounted cash flow method). In this context, the executive directors must make judgments, estimates and assumptions in particular regarding future business development and changes in macroeconomic factors as well as the expected impact of the ongoing Corona crisis on the business activities of affiliated enterprises and participations. Minor changes to those assumptions or

to the methods used may have a material impact on the measurement of shares in affiliated enterprises and participations. On the basis of the values determined and further documentation, write-downs were required for the financial year at an amount of  $\leqslant$  97 million. Due to the material significance of the amounts of shares in affiliated enterprises and participations for the assets, liabilities and financial performance of the Company as well as the considerable scope for judgment on the part of the executive directors and the related uncertainties in the estimations made, the measurement of shares in affiliated enterprises and participations was of particular significance in the context of our audit.

- 2. Given the significance of shares in affiliated enterprises and participations, as part of our audit we assessed the measurement methods used by the Company and the assumptions made by the executive directors. The assessment was based, among other things, on our industry knowledge, our investment valuation expertise and our industry experience. We also assessed the entity's measurement process including the design and effectiveness of the established controls. On this basis, we conducted tests of detail on the measurement of selected shares in affiliatea enterprises and participations. We selected these on a risk-oriented basis with respect to their size and significance for the Company's annual financial statements, as well as in instances where there were specific indications that impairment was permanent Our tests of detail included, among other assessing the selected measurement methodology, their consistent use and the mathematical correctness of the procedure applied. We also examined the appropriateness of the assumptions underlying the calculation (budget, derivation of the discount rate and assumptions regarding perpetuities). In doing so, we asso evaluated the executive directors' assessment of the effects of the Corona crisis on the business activities of the affiliated enterprises and participations and their consideration in the determination of the expected earnings. Based on our audit procedures, we were able to satisfy ourselves that the estimates and assumptions made by the executive directors for the purpose of measuring the shares in affiliated enterprises and participations are substantiated and sufficiently documented.
- 3. The Company's disclosures on the measurement of shares in affiliated enterprises and participations are included in sections "Accounting, valuation and calculation methods" and "7\_Fair value of investments" of the notes to the financial statements.
- 2. Measurement of reserve for loss and loss adjustment expenses In the annual financial statements, the Company reports € 10,888 million gross and € 4,035 million net (37.1% of total assets) under the "Reserve for loss and loss adjustment expenses" balance sheet item(so called claims provisions). Insurance companies are required to recognize claims provisions to the extent necessary in accordance with reasonable business judgment to ensure that they can meet their obligations from insurance contracts on a continuous basis. Defining assumptions for the purpose of measuring the claims provisions reauires the Company's executive directors, in addition to complying with the requirements of commercial and regulatory law, to make estimates of future events and to apply appropriate measurement methods. This also includes the expected impact of the ongoing Corona crisis on the recognition of claims provisions in the affected

lines of business. The methods used to determine the amount of the claims provisions and the calculation parameters are based on judgments and assumptions made by the executive directors. In particular the lines of business with long claims settlement periods law loss frequency or high individual losses are usually subject to increased estimation uncertainties and consequently require a high degree of judgment by the Company's executive directors. Minor changes to those assumptions or to the methods used may have a material impact on the measurement of the claims provisions. Due to the material significance of the amounts of these provisions for the assets, liabilities and financial performance of the Company as well as the scope for judgment on the part of the executive directors and the associated uncertainties in the estimations made, the measurement of the claims provisions was of particular significance in the context of our audit.

- 2. Given the significance of the claims provisions for the Company's overall business, as part of our audit we worked with our internal valuation specialists to assess the assumptions made by the executive directors and used by the Company. In doing so, we based our assessment on our industry expertise and experience, among other things, and considered recognized methods. We also evaluated the design and effectiveness of the controls established by the Company for the purpose of calculating and recording claims provisions. On that basis, we carried out further analytical procedures and tests of detail relating to the measurement of the claims provisions. Among other things, we also reconciled the data on which the calculation of the settlement amount was based with the underlying documents. In this context, we assessed the results of the Company's calculations of the amount of the provisions with reference to the applicable legal requirements and evaluated the consistent application of the measurement methods and the accrual basis of accounting. In this context, we also evaluated the assessment of the executive directors regarding the effects of the Corona crisis on the affected lines of business. Based on our audit procedures, we were able to satisfy ourselves that the estimates and assumptions made by the executive directors for the purpose of measuring the claims provisions are substantiated and sufficiently documented.
- 3. The Company's disclosures on the measurement of the reserve for loss and loss adjustment expenses can be found under "Reserve for loss and loss adjustment expenses" in section "Accounting, valuation and calculation methods" of the notes to the financial statements.

#### **OTHER INFORMATION**

The executive directors are responsible for the other information. The other information comprises the statement on corporate governance pursuant to § 289f Abs. 4 HGB (disclosures on the quota for women on executive boards).

The other information comprises further the remaining parts of the annual report - excluding cross-references to external information — with the exception of the audited annual financial statements, the audited management report and our auditor's report.

Our audit opinions on the annual financial statements and on the management report do not cover the other information, and consequently we do not express an audit opinion or any other form of assurance conclusion thereon

In connection with our audit, our responsibility is to read the other information and, in so doing, to consider whether the other information

- is materially inconsistent with the annual financial statements, with the management report or our knowledge obtained in the audit, or
- otherwise appears to be materially misstated.

# RESPONSIBILITIES OF THE EXECUTIVE DIRECTORS AND THE SUPERVISORY BOARD FOR THE ANNUAL FINANCIAL STATEMENTS AND THE MANAGEMENT REPORT

The executive directors are responsible for the preparation of the annual financial statements that comply, in all material respects, with the requirements of German commercial law, and that the annual financial statements give a true and fair view of the assets, liabilities, financial position and financial performance of the Company in compl'ance with German Legally Required Accounting Principles. In addition, the executive directors are responsible for such internal control as they, in accordance with German Legally Required Accounting Principles, have determined necessary to enable the preparation of annual financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the annual financial statements, the executive directors are responsible for assessing the Company's ability to continue as a going concern. They also have the responsibility for disclosing, as applicable, matters related to going concern. In addition, they are responsible for financial reporting based on the going concern basis of accounting, provided no actual or legal circumstances conflict therewith.

Furthermore, the executive directors are responsible for the preparation of the management report that as a whole provides an appropriate view of the Company's position and is, in all material respects, consistent with the annual financial statements, complies with German legal requirements, and appropriately presents the apportunities and risks of future development. In addition, the executive directors are responsible for such arrangements and measures (systems) as they have considered necessary to enable the preparation of a management report that is in accordance with the applicable German legal requirements, and to be able to provide sufficient appropriate evidence for the assertions in the management report.

The supervisory board is responsible for overseeing the Company's financial reporting process for the preparation of the annual financial statements and of the management report.

## AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE ANNUAL FINANCIAL STATEMENTS AND OF THE MANAGEMENT REPORT

Our objectives are to obtain reasonable assurance about whether the annual financial statements as a whole are free from material misstatement, whether due to fraud or error, and whether the management report as a whole provides an appropriate view of the Company's position and, in all materia: respects, is consistent with the annual financial statements and the knowledge obtained in the audit complies with the German legal requirements and appropriately presents the opportunities and risks of future development, as well as

to issue an auditor's report that includes our audit opinions on the annual financial statements and on the management report.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with § 317 HGB and the EU Audit Regulation and in compliance with German Generally Accepted Standards for Financial Statement Audits promulgated by the Institut der Wirtschaftsprüfer (IDW) will always detect a material misstatement. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these annual financial statements and this management report.

We exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the annual financial statements and of the management report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our audit opinions. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal controls.
- Obtain on understanding of internal control relevant to the audit
  of the annual financia: statements and of arrangements and
  measures (systems) relevant to the audit of the management
  report in order to design audit procedures that are appropriate in
  the circumstances, but not for the purpose of expressing an audit
  opinion on the effectiveness of these systems of the Company.
- Evaluate the appropriateness of accounting policies used by the executive directors and the reasonableness of estimates made by the executive directors and related disciosures.
- Conclude on the appropriateness of the executive directors' see of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern, if we conclude that a material uncertainty exists, we are required to draw attention in the auditor's report to the related disclosures in the annual financial statements and in the management report or, if such disclosures are inadequate, to mod'fy our respective audit opinions. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to be able to continue as a going concern.
- Evaluate the overall presentation, structure and content of the annual financial statements, including the disclosures, and whether the annual financial statements present the underlying transactions and events in a manner that the annual financial statements give a true and fair view of the assets, l'abilities, financial position and financial performance of the Company in compliance with German Legally Required Accounting Principles.
- Evaluate the consistency of the management report with the annual financial statements, its conformity with German law, and the view of the Company's position it provides.

Perform audit procedures on the prospective information presented by the executive directors in the management report On the basis of sufficient appropriate audit evidence we evaluate, in particular, the significant assumptions used by the executive directors as a basis for the prospective information, and evaluate the proper derivation of the prospective information from these assumptions. We do not express a separate audit opinion on the prospective information and on the assumptions used as a basis. There is a substantial unavoiaable risk that future events will differ materially from the prospective information.

We communicate with those charged with governance regarding among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with the relevant independence requirements, and communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, the related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the oudit of the annual financial statements of the current period and are therefore the key audit motters. We describe these matters in our auditor's report unless law or regulation preclucies public disclosure about the matter.

## Other legal and regulatory requirements

## FURTHER INFORMATION PURSUANT TO ARTICLE 10 EU-AUDIT REGULATION

We were elected as auditor by the supervisory board on 27 April 2020. We were engaged by the supervisory board on 23 October 2020. We have been the auditor of Allianz Global Corporate & Specialty SE, Munich, without interruption since the financial year 2018.

We declare that the audit opinions expressed in this auditor's report are consistent with the additional report to the audit committee pursuant to Article 11 of the EU Audit Regulation (long-form audit report).
