**Notes to the Financial Statements
For The Year Ended 31 December 2019**

1. STATUTORY INFORMATION

AESSEAL (MCK) Limited is a private company, limited by shares, registered in Northern Ireland. The company's registered number and registered office address can be found on the Company Information page.

2. ACCOUNTING POLICIES

Basis of preparing the financial statements

These financial statements have been prepared in accordance with Financial Reporting Standard 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" including the provisions of Section 1A "Small Entities" and the Companies Act 2006. The financial statements have been prepared under the historical cost convention.

The financial statements are presented in sterling which is the functional currency of the company and rounded to the nearest £.

The significant accounting policies applied in the preparation of these financial statements are set out below. These policies have been applied consistently to all years presented unless otherwise stated.

Turnover

Turnover represents the amount received or receivable for goods and services provided to customers during the year, excluding value added tax.

Tangible fixed assets

Tangible fixed assets are stated at cost less accumulated depreciation

Depreciation is calculated at rates intended to write off the cost of the fixed assets over the expected useful lives of the assets concerned. The principal annual rates are:

Short leasehold property - Equal instalments over the period of the lease

Plant and equipment - 10% straight line

Fixtures and fittings - 15% straight line

Computer equipment - 20% straight line

Stocks

Stock is stated at the lower of cost and net realisable value. Cost is determined using a first in first out basis and includes transport and handling costs.

Taxation

Taxation for the year comprises current and deferred tax. Tax is recognised in the Income Statement, except to the extent that it relates to items recognised in other comprehensive income or directly in equity.

Current or deferred taxation assets and liabilities are not discounted.

Current tax is recognised at the amount of tax payable using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

Deferred tax

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date.

Timing differences arise from the inclusion of income and expenses in tax assessments in periods different from those in which they are recognised in financial statements. Deferred tax is measured using tax rates and laws that have been enacted or substantively enacted by the year end and that are expected to apply to the reversal of the timing difference.

Unrelieved tax losses and other deferred tax assets are recognised only to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits.

2. ACCOUNTING POLICIES - continued

Foreign currencies

Transactions denominated in foreign currencies are translated into sterling using the exchange rate ruling at the date of the transaction. Assets and liabilities denominated in foreign currency have been translated into sterling at the closing rates. All revaluation differences and realised foreign exchange differences are taken to the profit and loss account.

Pension costs and other post-retirement benefits

The company operates defined contribution pension schemes. The charge in the profit and loss account for pension costs is the amount of the company's contributions payable to the pension schemes for the year.

Leasing commitments

Rentals payable under operating leases are charged to the profit and loss account on a straight line basis over the period of the lease.

Investments

Investments in group undertakings are shown in the accounts at cost less any amounts written off for permanent diminution in value.
