The abbreviated accounts have been prepared in accordance with the special provisions relating to small companies within Part VIII of the Companies (Northern Ireland) Order 1986.

Approved by the directors on ON(ON)

The notes on pages 4 to 6 form an integral part of these financial statements.

Notes to the Abbreviated Financial Statements for the year ended 31 October 2004

1. Accounting Policies

The following accounting policies have been applied consistently in dealing with items which are considered material in relation to the company's financial statements.

1.1. Accounting convention

The accounts are prepared under the historical cost convention, modified to include the revaluation of freehold land and buildings, and comply with financial reporting standards of the Accounting Standards Board, as promulgated by the Institute of Chartered Accountants in Ireland.

The company has taken advantage of the exemption in FRS1 from the requirement to produce a cashflow statement because it is a small company.

1.2. Turnover

Turnover represents the total invoice value, excluding value added tax, of rent, warehousing and trading recharges charged to tenants during the year in Northern Ireland.

1.3. Tangible fixed assets and depreciation

Depreciation is provided at rates calculated to write off the cost or valuation less residual value of each asset over its expected useful life, as follows:

Land and buildings Fixtures, fittings and equipment

- Investment properties under SSAP19 - No depreciation

- 20% Straight Line

All of the properties are held for long term investment. These properties are accounted for in accordance with SSAP19 as follows:

- (i) Investment properties are revalued annually. The surplus or deficit on revaluation is transferred to the revaluation reserve. A deficit below original cost where it is likely to be permanent is recognised in the profit or loss for the year.
- (ii) No depreciation is provided in respect of freehold or leasehold investment properties where the unexpired lease term is 20 years or more.

Although the Companies Order would normally require the systematic annual depreciation of fixed assets, the directors believe that the policy of not providing depreciation is necessary in order for the accounts to give a true and fair view. Depreciation is only one of many factors reflected in the annual valuation, and the amount which might otherwise have been included cannot separately be identified or quantified.

1.4. Leasing and hire purchase commitments

Assets held under hire purchase contracts and finance leases are capitalised in the balance sheet and depreciated over their useful lives with the corresponding lease or hire purchase obligation being capitalised as a liability. The interest element of the finance lease rentals is charged to the profit and loss account so as to produce constant periodic rates of charge on the net obligations outstanding in each period.

1.5. Pensions

The pension costs charged in the financial statements represent the contribution payable by the company during the year.

The regular cost of providing retirement pensions and related benefits is charged to the profit and loss account over the employees' service lives on the basis of a constant percentage of earnings.

1.6. Deferred taxation

Full provision for deferred tax assets and liabilities is provided at current tax rates on differences that arise between the recognition of gains and losses in the financial statements and their recognition in the tax computation, except for differences arising on the revaluation of fixed assets (if no commitment to sell), or gains on any asset sold that will benefit from rollover relief.

3. Creditors: amounts falling due within one year

Included in credtors is a provision for prior years corporation tax amounting to £250,000 as a result of an Inland Revenue enquiry. The Directors are of the opinion that this provision is adequate.
