Notes to the Financial Statements

Year ended 31 March 2019

1. General information

The company is a private company limited by shares, registered in Northern Ireland. The address of the registered office is 2nd Floor (Killultagh) The Linenhall, 32-38 Linenhall Street, Belfast, BT2 8BG.

2. Statement of compliance

These financial statements have been prepared in compliance with Section 1A of FRS 102, 'The Financial Reporting Standard applicable in the UK and the Republic of Ireland'.

3. Accounting policies

Basis of preparation

The financial statements have been prepared on the historical cost basis, as modified by the revaluation of certain financial assets and liabilities and investment properties measured at fair value through profit or loss.

The financial statements are prepared in sterling, which is the functional currency of the entity.

Going concern

These financial statements have been prepared on a going concern basis, notwithstanding the fact that the company had net current liabilities and a net shareholders deficiency of £916,723 (2018: £891,173) at the balance sheet date.

The directors have considered future financial projections and future cash flows and are confident that the company will continue to trade for the foreseeable future. The company depends on continued support from the company's lenders, its parent company and fellow subsidiaries. Accordingly, the directors consider that, subject to the continued support from the company's lenders, it is appropriate that the financial statements for the period ended 31 March 2019 are prepared on a going concern basis.

Financial instruments

Financial liabilities and equity instruments are classified according to the substance of the contractual arrangements entered into. An equity instrument is any contract that evidences a residual interest in the assets of the entity after deducting all of its financial liabilities. Where the contractual obligations of financial instruments (including share capital) are equivalent to a similar debt instrument, those financial instruments are classed as financial liabilities. Financial liabilities are presented as such in the balance sheet. Finance costs and gains or losses relating to financial liabilities are included in the profit and loss account. Finance costs are calculated so as to produce a constant rate of return on the outstanding liability. Where the contractual terms of share capital do not have any terms meeting the definition of a financial liability then this is classed as an equity instrument. Dividends and distributions relating to equity instruments are debited direct to equity.

6. Summary audit opinion

The auditor's report for the year dated 12 December 2019 was unqualified , however it included an emphasis of matter in respect of uncertainty in relation to going concern as follows:

We draw attention to note 3 to the financial statements, which indicates that the company had net current liabilities and a net shareholder deficiency of £916,723 (2018: £891,173) at the balance sheet date. The accounts have been prepared on a going concern basis, the validity of which depends on the continued support from the company's lenders, its parent company and fellow subsidiaries. The financial statements do not include any adjustments which would result if this continued support was not secured. As stated in note 3, these events or conditions, along with other matters as set forth in note 3, indicate that a material uncertainty exists that may cast significant doubt on the company's ability to continue as a going concern. Our opinion is not modified in respect of this matter.

The senior statutory auditor was Cathal Maneely , for and on behalf of Maneely Mc Cann .

7. Related party transactions
