## NOTES TO THE ABBREVIATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 OCTOBER 2006

#### 1 Accounting policies

The following accounting policies have been applied consistently in dealing with items which are considered material in relation to the company's abbreviated financial statements.

#### 1.1 Basis of preparation

The abbreviated financial statements have been prepared under the historical cost convention, and comply with the financial reporting standards of the Accounting Standards Board, as promulgated by the Institute of Chartered Accountants in Ireland.

#### 1.2 Cash flow

The abbreviated financial statements do not include a cash flow statement because the company, as a small reporting entity, is exempt from the requirement to prepare such a statement under Financial Reporting Standard 1: "Cash flow statements".

#### 1.3 Turnover

Turnover is stated net of trade discounts, VAT and similar taxes and derives from the provision of goods falling within the company's ordinary activities.

#### 1.4 Goodwill

Acquired goodwill is being amortised through the profit and loss account in equal annual installments over its estimated useful economic life of 10 years on a straight-line basis.

#### 1.5 Tangible fixed assets and depreciation

All tangible fixed assets are initially recorded at historical cost. Depreciation is provided on all tangible fixed assets, other than freehold land and investment properties, at rates calculated to write off the cost or valuation, less estimated residual value, of each asset systematically over its expected useful life, as follows:

Fixtures, fittings & equipment

20% Straight line basis

Most of the fixed asset additions are from Ivor Armstrong Associates, which ceased to trade on 13 October 2003. The fixed assets were purchased at the soletrader net book value at 30 November 2003. These fixed assets are depreciated at the above rates on the original cost to the soletrader business.

#### 1.6 Stock and work in progress

Stocks are stated at the lower of cost and net realisable value. In the case of finished goods and work in progress, cost is defined as the aggregate cost of raw material, direct labour and the attributable proportion of direct production overheads based on a normal level of activity. Net realisable value is based on normal selling price, less further costs expected to be incurred to completion and disposal.

#### 1.7 Deferred taxation

Full provision for deferred tax assets and liabilities is provided at current tax rates on differences that arise between the rocognition of gains and losses in the financial statements and their recognition in the tax computation, except for differences arising on the revaluation of fixed assets (if no commitment to sell), or gains on any asset sold that will benefit from rollover relief.
