BALANCE SHEET (CONTINUED) AS AT 31 MARCH 2020

The financial statements have been prepared in accordance with the provisions applicable to entities subject to the small LLPs regime.

The entity was entitled to exemption from audit under section 477 of the Companies Act 2006, as applied by The Limited Liability Partnerships (Accounts and Audit) (Application of Companies Act 2006) Regulations 2008.

The members acknowledge their responsibilities for complying with the requirements of the Companies Act 2006, as applied by The Limited Liability Partnerships (Accounts and Audit) (Application of Companies Act 2006) Regulations 2008, with respect to accounting records and the preparation of financial statements.

The financial statements have been delivered in accordance with the provisions applicable to LLPs subject to the small LLPs regime.

The entity has opted not to file the profit and loss account nor the Members' Report in accordance with the provisions applicable to entities subject to the small LLPs regime.

The financial statements were approved and authorised for Issue by the members and were signed on their behalf on 27 July 2020.

A G Fisher

Designated member

The notes on pages 3 to 10 form part of these financial statements.

Fisher Jones Greenwood LLP has no equity and, in accordance with the provisions contained within the Statement of Recommended Practice "Accounting by Limited Liability Partnerships", has not presented a Statement of Changes in Equity.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2020

1. General information

Fisher Jones Greenwood LLP is a Limited Liability Partnership, incorporated in England and Wales, registration number OC305854. The address of the registered office is 1a Charter Court, Newcomen Way, Severalls Industrial Park, Colchester, England, CO4 9YA.

2. Accounting policies

Basis of preparation of financial statements

The financial statements have been prepared under the historical cost convention unless otherwise specified within these accounting policies and in accordance with Section 1A of Financial Reporting Standard 102, the Financial Reporting Standard applicable in the UK and the Republic of Ireland and the Companies Act 2006 and the requirements of the Statement of Recommended Practice "Accounting by Limited Liability Partnerships".

In accordance with government directives issued on 23 March 2020 the business continues to be affected by restrictions imposed on business activities and social distancing relating to the spread of coronavirus. The impact of the coronavirus will have a very significant effect on the economy and the business during 2020. The Members continue to monitor the effect of coronavirus and forecasting indicates that liabilities will continue to be met as they fall due. However, because not all future events or conditions can be predicted, it is not possible to guarantee the LLP's ability to continue as a going concern. The future of the world economy is unclear at this present time due to the ongoing coronavirus outbreak and it is therefore difficult to evaluate all of the potential implications on the LLP's services, clients, suppliers and the wider economy.

The following principal accounting policies have been applied:

Turnover

Turnover is recognised to the extent that it is probable that the economic benefits will flow to the LLP and the turnover can be reliably measured. Turnover is measured as the fair value of the consideration received or receivable, excluding discounts, rebates, value added tax and other sales taxes. Costs billed but not paid at the year end date are included within trade debtors on the balance sheet. Work carried out at the year end which has earned a right to consideration but has yet to be billed has been accounted for as amounts recoverable on contracts within turnover and debtors. The following criteria must also be met before turnover is recognised:

Rendering of services

Turnover from a contract to provide services is recognised in the period in which the services are provided in accordance with the stage of completion of the contract when all of the following conditions are satisfied:

- the amount of turnover can be measured reliably;
- it is probable that the LLP will receive the consideration due under the contract;
- the stage of completion of the contract at the end of the reporting period can be measured reliably; and
- the costs incurred and the costs to complete the contract can be measured reliably.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2020

2. Accounting policies (continued)

Consolidation

Consolidated financial statements are not produced as the group headed by Fisher Jones Greenwood LLP qualifies as small and advantage is taken of the exemptions available

Tangible fixed assets

Tangible fixed assets under the cost model are stated at historical cost less accumulated depreciation and any accumulated impairment losses. Historical cost includes expenditure that is directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management.

Depreciation is provided on the following basis:

Improvements to property

- 5 to 10 years straight line/over the lease term

Law library

- 20% reducing balance

Furniture and equipment Computer equipment

15% straight line3 years straight line

Fixed asset investments

Investments in group undertakings are stated at cost less provision for diminution in value.

Cash and cash equivalents

Cash is represented by cash in hand and deposits with financial institutions repayable without penalty on notice of not more than 24 hours. Cash equivalents are highly liquid investments that mature in no more than three months from the date of acquisition and that are readily convertible to known amounts of cash with insignificant risk of change in value.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2020

2. Accounting policies (continued)

Financial instruments

The LLP only enters into basic financial instruments transactions that result in the recognition of financial assets and liabilities like trade and other debtors and creditors, and loans from banks and other third parties.

Short term debtors are measured at transaction price, less any impairment or provision for irrecoverable amounts.

Short term creditors are measured at the transaction price. Other financial liabilities, including bank loans, are measured initially at fair value, net of transaction costs, and are measured subsequently at amortised cost using the effective interest method.

Operating leases

Rentals paid under operating leases are charged to the Profit and Loss Account on a straight line basis over the lease term.

Employee benefits

The LLP operates a defined contribution plan for its employees. A defined contribution plan is a pension plan under which the LLP pays fixed contributions into a separate entity. Once the contributions have been paid the LLP has no further payment obligations.

The contributions are recognised as an expense in the Profit and Loss Account when they fall due. Amounts not paid are shown in accruals as a liability in the Balance Sheet. The assets of the plan are held separately from the LLP in independently administered funds.

Provisions for liabilities

Provisions are made where an event has taken place that gives the LLP a legal or constructive obligation that probably requires settlement by a transfer of economic benefit, and a reliable estimate can be made of the amount of the obligation.

Provisions are charged as an expense to the Profit and Loss Account in the year that the LLP becomes aware of the obligation, and are measured at the best estimate at the Balance Sheet date of the expenditure required to settle the obligation, taking into account relevant risks and uncertainties.

When payments are eventually made, they are charged to the provision carried in the Balance Sheet.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2020

2. Accounting policies (continued)

Taxation

These accounts will form part of the basis of assessment for 2019/2020. The profits adjusted for tax purposes will be allocated according to the agreed profit sharing ratios for the accounting period.

The members' current accounts reflect their individual shares of income tax and class 4 NIC liability arising on partnership income to 2018/2019 and the first payment on account for 2019/2020, based upon information available at present. All known prior year adjustments are charged/(credited) to the partners' current accounts when applicable.

Members' participation rights

Members' participation rights are the rights of a member against the LLP that arise under the members' agreement (for example, in respect of amounts subscribed or otherwise contributed, remuneration and profits).

Members' participation rights in the earnings or assets of the LLP are analysed between those that are, from the LLP's perspective, either a financial liability or equity. A member's participation right results in a liability unless the right to any payment is discretionary on the part of the LLP.

Amounts subscribed or otherwise contributed by members, for example members' capital, are classed as equity if the LLP has an unconditional right to refuse payment to members. If the LLP does not have such an unconditional right, such amounts are classified as liabilities.

Where profits are automatically divided as they arise, so the LLP does not have an unconditional right to refuse payment, the amounts arising that are due to members are in the nature of liabilities. They are therefore treated as an expense in the Profit and Loss Account in the relevant year. To the extent that they remain unpaid at the year end, they are shown as liabilities in the Balance Sheet.

Conversely, where profits are divided only after a decision by the LLP or its representative, so that the LLP has an unconditional right to refuse payment, such profits are classed as an appropriation of equity rather than as an expense. They are therefore shown as a residual amount available for discretionary division among members in the Profit and Loss Account and are equity appropriations in the Balance Sheet.

Other amounts applied to members, for example remuneration paid under the partnership agreement and interest on capital balances, are treated in the same way as all other divisions of profits, as described above, according to whether the LLP has, in each case, an unconditional right to refuse payment.

All amounts due to members that are classified as liabilities are presented in the Balance Sheet within 'Loans and other debts due to members' and are charged to the Profit and Loss Account within 'Members' remuneration charged as an expense'. Amounts due to members that are classified as equity are shown in the Balance Sheet within 'Members' other interests'. No restrictions or limitations exist on the ability of members to reduce the amount of members' other interests.

In the event of winding up the amounts owed to members in respect of profits rank parri passu with other unsecured creditors whereas amounts in respect of the capital balances would then be repaid on any surplus on the remaining assets over the liabilities of the LLP.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2020

3. Employees

The average monthly number of employees, including members, during the year was 141 (2019 - 138).

4. Tangible fixed assets

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2020

10. Loans and other debts due to members

| | 2020 £ | 2019 £ |
|--|-----------|-----------|
| Members' capital treated as debt | 700,000 | 700,000 |
| Other amounts due to members | 203,328 | 211,316 |
| | 903,328 | 911,316 |
| Loans and other debts due to members may be further analysed as follows: | | |
| | 2020 £ | 2019 £ |
| Falling due within one year | 203,328 | 211,316 |
| Falling due after more than one year | 700,000 | 700,000 |
| | 903,328 | 911,316 |
| | | |

Loans and other debts due to members rank equally with debts due to ordinary creditors in the event of a winding up.

11. Commitments under operating leases

The total of operating lease commitments not included in the balance sheet amounts to £461,668 (2019 - £594,278).

12. Post balance sheet events

Since the year end, the UK, and the whole world, has continued to be affected by the Covid-19 pandemic. Whilst the full outcome of this is difficult to assess with any certainty, the continued effect of the pandemic will have a significant effect on the results for 2020.
