NOTES TO THE FINANCIAL STATEMENTS
For the Year Ended 31 March 2017

1. ACCOUNTING POLICIES

1.1 Basis of preparation of financial statements

Zadig Asset Management LLP is a limited liability partnership incorporated in the UK. The partnership's registered address is 38 Jermyn Street, London, SW1Y 6DN.

The financial statements have been prepared under the historical cost convention as modified by the recognition of certain financial assets and liabilities measured at fair value and in accordance with Financial Reporting Standard 102, the Financial Reporting Standard applicable in the United Kingdom and the Republic of Ireland, the requirements of the Statement of Recommended Practice "Accounting by Limited Liability Partnerships" published in July 2014 and company law as applied to LLP's.

The preparation of financial statements in compliance with FRS 102 requires the use of certain critical accounting estimates. Management do not consider there are any key accounting estimates or assumptions made that have a significant risk of causing a material adjustment to the carrying amount of assets and liabilities within the next financial year.

Management are also required to exercise judgment in applying the entity's accounting policies. Due to the straight forward nature of the business management consider that no critical judgments have been made in applying the entity's accounting policies.

The following principal accounting policies have been applied:

1.2 Going concern

The LLP has a satisfactory capital position and as a consequence the members believe that the LLP is well placed to manage its business risks successfully despite the current uncertain economic outlook. The members have prepared a forecast for the year ahead and based on this have a reasonable expectation that the LLP has adequate resources to continue in operational existence for the foreseeable future. Accordingly, they continue to adopt the going concern basis in preparing the financial statements.

1.3 Revenue

Turnover comprises revenue recognised by the LLP in respect of investment advisory fees receivable, exclusive of value added tax.

1.4 Financial instruments

Basic financial assets including trade and other receivables and cash and bank balances, are initially recognised at transaction price. Such assets are subsequently carried at amortised cost using the effective interest rate method. At the end of each reporting period financial assets measured at amortised cost are assessed for objective evidence of impairment. If an asset is impaired the impairment loss is the difference between the carrying amount and the present value of the estimated cash flows discounted at the asset's original effective interest rate. The impairment loss is recognised in the profit or loss.

Other financial assets, including investments in equity instruments which are not subsidiaries, associates or joint ventures, are initially measured at fair value, which is normally the transaction price. Such assets are subsequently carried at fair value and the changes in fair value are recognised in profit or loss.

Basic financial liabilities, including trade and other payables, bank loans and loans from fellow Group companies and preference shares that are classified as debt, are initially recognised at transaction price, unless the arrangement constitutes a financing transaction, where the debt instrument is measured at the present value of the future payment discounted at a market rate of interest. Such instruments are subsequently carried at amortised cost, using the effective interest rate method.

Trade payables are recognised initially at transaction price and subsequently measured at amortised cost using the effective interest rate method.

NOTES TO THE FINANCIAL STATEMENTS
For the Year Ended 31 March 2017

1. ACCOUNTING POLICIES (continued)

1.5 Foreign currency translation

Functional and presentation currency

The LLP's functional and presentational currency is the pound sterling.

Transactions and balances

Foreign currency transactions are translated into the functional currency using the spot exchange rates at the dates of the transactions.

At each period end foreign currency monetary items are translated using the closing rate. Non-monetary items measured at historical cost are translated using the exchange rate at the date of the transaction and non-monetary items measured at fair value are measured using the exchange rate when fair value was determined.

1.6 Tax provisions

The taxation payable on profits is the personal liability of the members during the year.

1.7 Members' remuneration and profit allocation

A member's discretionary share in the profit or the loss for the year is accounted for as an allocation of profits. Unallocated profits and losses are included within "other reserves".

2. TURNOVER
