- 5.2 All payments to date have been made in accordance with the proposals.
- 5.3 What work has been done in the past year, why was that work necessary and what has been the financial benefit (if any) to creditors?

Under the following headings we have explained the specific work that has been undertaken on this case. Not every piece of work has been described, but we have sought to give a proportionate overview which provides sufficient detail to allow creditors to understand what has been done, why it was necessary and what financial benefit (if any) the work has provided to creditors.

The costs incurred in relation to each heading are set out in the Time Costs Analysis which is attached at Appendix 2.

General case administration and planning

Insolvency Practitioners are required to maintain records to demonstrate how the case has been administered and to document the reasons for any decisions that materially affect the case.

Time which has been charged to "General Case Administration and Planning" includes work of this nature together with periodic reviews of the case and the Supervisors internal diary system. Case planning is necessary in order to ensure the orderly and efficient winding up of the LLP's estate.

Other tasks included in this category of work include sundry tasks such as filing, photocopying and email correspondence, monitoring the monthly contributions, liaising with the LLP

Compliance with the Insolvency Act, Rules and best practice

Insolvency Practitioners are required to comply with the provisions of The Insolvency Act 1986 (as amended) and The Insolvency Rules 1986 (as amended), together with best practice guidelines laid down within the profession (for instance the Statements of Insolvency Practice set out by the R3 body which represents business recovery professionals).

Time charged in this period relating to Compliance with the Insolvency Act, Rules and best practice includes the following tasks:

Insolvency Practitioners will need to deal with the claims of creditors during the course of their time in office, which will include the recording of those claims together with the provision of ad hoc updates to creditors and dealing with general queries from those creditors. When funds allow, the Insolvency Practitioner will make distributions to creditors in accordance with the specified order of priority governing secured claims, preferential claims and unsecured claims.

During the period of this report, a nominal amount of time has been spent in relation to the VAT position of the LLP.

6. PROSPECTS FOR FULL IMPLEMENTATION OF THE ARRANGEMENT

We are pleased to confirm that the LLP appears to be on target to complete the Arrangement in accordance with the terms approved by creditors. As detailed above, we have continued to collect contributions from the LLP at the agreed rate and we have no reason to believe that this will not continue. We have reviewed the LLP's management accounts which confirm that the LLP is performing as expected and so, at this stage, we expect the Arrangement to complete as envisaged by the Proposal.

7. OUTCOME OF PREVIOUSLY PROPOSED VARIATION OF THE ARRANGEMENT

7.1 In our previous progress report dated May 2018 we proposed the following variation to creditors:

In accordance with the modified proposals, it is requested that the limit of £30,000 for supervisors fees is removed and we request the following variation:

Supervisors time costs to be charged at 75% of normal rates.

The proposal was rejected by creditors meaning the Supervisors fee limit remains at £30,000.

8. ESTIMATED OUTCOME FOR CREDITORS

8.1 The total estimated amount owed to creditors at the commencement of the Arrangement was £4,116,872.

- The current agreed creditor claims amount to £1,985,000. As creditors will be aware from our previous progress report the initial claim submitted by the landlord amounted to £1.3 million. Funds have been set aside by the Joint Supervisors in relation to a dividend payable to the landlord, but the claim has not yet been agreed. The Joint Supervisors will continue to liaise with the landlord with a view to finalising their claim.
- On the basis of sums received to date and estimated future receipts we estimate that in line with the terms of the Arrangement, an outcome for creditors in region of 30 in the £. This is subject to the final claim of the landlord. We expect to be in a position to pay a further dividend within 6 months.

BEGBIES TRAYNOR CHARGING POLICY

INTRODUCTION

This note applies where a licensed insolvency practitioner in the firm is acting as an office holder of an insolvent estate and seeks creditor approval to draw remuneration on the basis of the time properly spent in dealing with the case. It also applies where further information is to be provided to creditors regarding the office holder's fees following the passing of a resolution for the office holder to be remunerated on a time cost basis. Best practice guidance¹ requires that such information should be disclosed to those who are responsible for approving remuneration.

In addition, this note applies where creditor approval is sought to make a separate charge by way of expenses or disbursements to recover the cost of facilities provided by the firm. Best practice guidance² requires that such charges should be disclosed to those who are responsible for approving the office holder's remuneration, together with an explanation of how those charges are calculated.

OFFICE HOLDER'S FEES IN RESPECT OF THE ADMINISTRATION OF INSOLVENT ESTATES

The office holder has overall responsibility for the administration of the estate. He/she will delegate tasks to members of staff. Such delegation assists the office holder as it allows him/her to deal with the more complex aspects of the case and ensures that work is being carried out at the appropriate level. There are various levels of staff that are employed by the office holder and these appear below.

The firm operates a time recording system which allows staff working on the case along with the office holder to allocate their time to the case. The time is recorded at the individual's hourly rate in force at that time which is detailed below.

EXPENSES INCURRED BY OFFICE HOLDERS IN RESPECT OF THE ADMINISTRATION OF INSOLVENT ESTATES

Best practice guidance classifies expenses into two broad categories:

- Category 1 disbursements (approval not required) specific expenditure that is directly related to the case usually referable to an independent external supplier's invoice. All such items are charged to the case as they are incurred.
- Category 2 disbursements (approval required) items of incidental expenditure directly incurred on the case which include an element of shared or allocated cost and which are based on a reasonable method of calculation.
 - (A) The following items of expenditure are charged to the case (subject to approval):
 - Internal meeting room usage for the purpose of statutory meetings of creditors is charged at the rate of £100 (London £150) per meeting;
 - Car mileage is charged at the rate of 45 pence per mile;
 - Storage of books and records (when not chargeable as a Category 1 disbursement) is charged on the basis that the number of standard archive boxes held in storage for a particular case bears to the total of all archive boxes for all cases in respect of the period for which the storage charge relates

² Ibid 1

- (B) The following items of expenditure will normally be treated as general office overheads and will not be charged to the case although a charge may be made where the precise cost to the case can be determined because the item satisfies the test of a Category 1 disbursement.
 - Telephone and facsimile
 - Printing and photocopying
 - Stationery
