Zebra Realisations LLP

Notes to the Financial Statements for the Year Ended 30 September 2022

1 Accounting policies

Summary of significant accounting policies and key accounting estimates

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

Statement of compliance

These financial statements have been prepared in accordance with Financial Reporting Standard 102 Section 1A - 'The Financial Reporting Standard applicable in the UK and Republic of Ireland' and the Companies Act 2006.

General information and basis of accounting

The limited liability partnership is incorporated in England and Wales under the Limited Liability Partnership Act 2000. The address of the registered office is given on the limited liability partnership information page. The nature of the limited liability partnership's operations and its principal activities are given in the members' report.

Zebra Realisations LLP is exempt from preparing group accounts as it is a small group. These financial statements are in respect of Zebra Realisations LLP only and, as the Firm's business was sold in February 2015 and the LLP is to be wound up in the near future, these financial statements have been prepared using a break up basis, except that as disclosed in the accounting policies certain items are shown at fair value.

Members' remuneration and division of profits

Profit shares, which have not been allocated until after the balance sheet date, are treated in these financial statements as unallocated at the balance sheet date and included within other reserves.

Foreign currency

Foreign currency monetary items are subsequently translated in the functional currency at the exchange rate applicable at the end of the reporting period. Exchange differences on monetary items are recognized in profit or loss.

Taxation

The taxation payable on the partnership's profits is the personal liability of the members. Consequently, neither partnership taxation nor related deferred taxation is accounted for in these financial statements.

1 Accounting policies (continued)

Fixed asset investments

Investments in equity shares which are not publicly traded and where fair value cannot be measured reliably are measured at cost less impairment.

Dividends on equity securities are recognised in income when receivable.

Cash and cash equivalents

Cash and cash equivalents comprise cash on hand and call deposits, and other short-term highly liquid investments that are readily convertible to a known amount of cash and are subject to an insignificant risk of change in value.

Trade creditors

Trade creditors are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. Accounts payable are classified as current liabilities if the limited liability partnership does not have an unconditional right, at the end of the reporting period, to defer settlement of the creditor for at least twelve months after the reporting date. If there is an unconditional right to defer settlement for at least twelve months after the reporting date, they are presented as non-current liabilities.

Trade creditors are recognised initially at the transaction price and subsequently measured at amortised cost using the effective interest method.

Financial instruments

Classification

Financial instruments are classified and accounted for to reflect the substance of the contractual arrangements, as financial assets, financial liabilities or equity instruments. An equity instrument is any contract that evidences a residual interest in the assets of the LLP after deducting all of its liabilities.

Recognition and Measurement

Financial instruments are classified as either "basic" or "other" in accordance with FRS 102 Section 11 "Basic Financial Instruments". At the end of each reporting period, debt instruments classified as basic are measured at amortised cost using the effective interest rate method. All of the LLP's financial instruments are classified as "basic" in accordance with FRS 102 Section 11.

Impairment of financial assets

In the limited liability partnership balance sheet, investments in subsidiaries and associates are measured at cost less impairment.

1 Accounting policies (continued)

Fair value measurement

The best evidence of fair value is a quoted price for an identical asset in an active market. When quoted prices are unavailable, the price of a recent transaction for an identical asset provides evidence of fair value as long as there has not been a significant change in economic circumstances or a significant lapse of time since the transaction took place. If the market is not active and recent transactions of an identical asset on their own are not a good estimate of fair value, the fair value is estimated by using a valuation technique.
