Bassett Road LLP

Members' Report

Year ended 31 March 2019

The members present their report and the unaudited financial statements of the LLP for the year ended 31 March 2019.

Principal activities

The principal activity of the company during the year was property development.

Designated members

The designated members who served the LLP during the year were as follows:

Freshlead Limited
RNS Assets Limited

Policy regarding members' drawings and the subscription and repayment of amounts subscribed or otherwise contributed by members

Members are permitted to make drawings in anticipation of profits which will be allocated to them. The amount of such drawings is set at the beginning of each financial year, taking into account the anticipated cash needs of the LLP.

New members are required to subscribe a minimum level of capital and in subsequent years members are invited to subscribe for further capital, the amounts of which is determined by the performance and seniority of those members. On retirement, capital is repaid to members.

This report was approved by the members on 22/10/19 and signed on behalf of the members by:

Freshlead Limited
Designated Member

Bassett Road LLP

Notes to the Financial Statements

Year ended 31 March 2019

1. General information

The LLP is registered in England and Wales.

The address of the registered office is 3rd Floor, Roxburghe House,, 273-287 Regent Street,, London, W1B 2HA.

2. Statement of compliance

These financial statements have been prepared in compliance with Section 1A of FRS 102, 'The Financial Reporting Standard applicable in the UK and the Republic of Ireland', and the requirements of the Statement of Recommended Practice 'Accounting by Limited Liability Partnerships' issued in January 2017 (SORP 2017).

3. Accounting policies

Basis of preparation

The financial statements have been prepared on the historical cost basis, as modified by the revaluation of certain financial assets and liabilities and investment properties measured at fair value through profit or loss.

The financial statements are prepared in sterling, which is the functional currency of the entity.

Members' participation rights

Members' participation rights are the rights of a member against the LLP that arise under the members' agreement (for example, in respect of amounts subscribed or otherwise contributed, remuneration and profits).

Members' participation rights in the earnings or assets of the LLP are analysed between those that are, from the LLP's perspective, either a financial liability or equity, in accordance with Section 22 of FRS 102, 'The Financial Reporting Standard applicable in the UK and the Republic of Ireland', and the requirements of the Statement of Recommended Practice 'Accounting by Limited Liability Partnerships'. A member's participation right results in a liability unless the right to any payment is discretionary on the part of the LLP.

Amounts subscribed or otherwise contributed by members, for example members' capital, are classed as equity if the LLP has an unconditional right to refuse payment to members. If the LLP does not have such an unconditional right, such amounts are classified as liabilities.

Where profits are automatically divided as they arise, so the LLP does not have an unconditional right to refuse payment, the amounts arising that are due to members are in the nature of liabilities. They are therefore treated as an expense in the statement of income and retained earnings in the relevant year. To the extent that they remain unpaid at the year end, they are shown as liabilities in the statement of financial position.

Conversely, where profits are divided only after a decision by the LLP or its representative, so that the LLP has an unconditional right to refuse payment, such profits are classed as an appropriation of equity rather than as an expense. They are therefore shown as a residual amount available for discretionary division among members in the statement of income and retained earnings and are equity appropriations in the statement of financial position.

Other amounts applied to members, for example remuneration paid under an employment contract and interest on capital balances, are treated in the same way as all other divisions of profits, as described above, according to whether the LLP has, in each case, an unconditional right to refuse payment.

Bassett Road LLP

Notes to the Financial Statements *(continued)*

Year ended 31 March 2019

3. Accounting policies *(continued)*

Members' participation rights *(continued)*

All amounts due to members that are classified as liabilities are presented in the statement of financial position within 'Loans and other debts due to members' and are charged to the statement of income and retained earnings within 'Members' remuneration charged as an expense'. Amounts due to members that are classified as equity are shown in the statement of financial position within 'Members' other interests'.

Stocks

Stocks are measured at the lower of cost and estimated selling price less costs to complete and sell. Cost includes all costs of purchase, costs of conversion and other costs incurred in bringing the stock to its present location and condition.

Financial instruments

A financial asset or a financial liability is recognised only when the LLP becomes a party to the contractual provisions of the instrument.

Basic financial instruments are initially recognised at the transaction price, unless the arrangement constitutes a financing transaction, where it is recognised at the present value of the future payments discounted at a market rate of interest for a similar debt instrument.

Debt instruments are subsequently measured at amortised cost.

Where investments in non-convertible preference shares and non-puttable ordinary shares or preference shares are publicly traded or their fair value can otherwise be measured reliably, the investment is subsequently measured at fair value with changes in fair value recognised in profit or loss. All other such investments are subsequently measured at cost less impairment.

Other financial instruments, including derivatives, are initially recognised at fair value, unless payment for an asset is deferred beyond normal business terms or financed at a rate of interest that is not a market rate, in which case the asset is measured at the present value of the future payments discounted at a market rate of interest for a similar debt instrument.

Other financial instruments are subsequently measured at fair value, with any changes recognised in profit or loss, with the exception of hedging instruments in a designated hedging relationship.

Financial assets that are measured at cost or amortised cost are reviewed for objective evidence of impairment at the end of each reporting date. If there is objective evidence of impairment, an impairment loss is recognised in profit or loss immediately.

For all equity instruments regardless of significance, and other financial assets that are individually significant, these are assessed individually for impairment. Other financial assets are either assessed individually or grouped on the basis of similar credit risk characteristics.

Any reversals of impairment are recognised in profit or loss immediately, to the extent that the reversal does not result in a carrying amount of the financial asset that exceeds what the carrying amount would have been had the impairment not previously been recognised.
