NOTES TO THE FINANCIAL STATEMENTS
For the Year Ended 31 March 2019

1. Accounting policies

1.1 Basis of preparation of financial statements

Passion Capital II (GP) LLP is a limited liability partnership incorporated in the UK and registered in England and Wales.

The entity's registered address is White Bear Yard, 144a Clerkenwell Road, London, EC1R 5DF.

The principal activities are documented in the Members' Report.

The financial statements have been prepared under the historical cost convention unless otherwise specified within these accounting policies and in accordance with Section 1A of Financial Reporting Standard 102, the Financial Reporting Standard applicable in the UK and the Republic of Ireland and the Companies Act 2006 and the requirements of the Statement of Recommended Practice "Accounting by Limited Liability Partnerships".

The preparation of financial statements in compliance with FRS 102 requires the use of certain critical accounting estimates. Management do not consider there are any key accounting estimates or assumptions made that have a significant risk of causing a material adjustment to the carrying amount of assets and liabilities within the next financial year.

Management are also required to exercise judgment in applying the entity's accounting policies. Due to the straight forward nature of the business management consider that no critical judgements have been made in applying the entity's accounting policies.

The following principal accounting policies have been applied:

1.2 Turnover

The turnover shown in the profit and loss account represents the partnership's General Partner's profit share as a first charge on net income and capital gains of Passion Capital II LP.

1.3 Financial instruments

The LLP does not trade in financial instruments and all such instruments arise directly from operations. All trade and other debtors are initially recognised at transaction value, as none contain in substance a financing transaction. Thereafter trade and other debtors are reviewed for impairment where there is objective evidence based on observable data that the balance may be impaired. The LLP does not hold collateral against its trade and other receivables so its exposure to credit risk is the net balance of trade and other debtors after allowance for impairment. All cash is held with banks with strong external credit ratings. Trade and other creditors and accruals are initially recognised at transaction value as none represent a financing transaction. They are only derecognised when they are extinguished. As the LLP only has short term receivables and payables, its net current asset position is a reasonable measure of its liquidity at any given time.
