NOTES TO THE ABBREVIATED ACCOUNTS

YEAR ENDED 31 DECEMBER 2013

1. Accounting policies

Basis of accounting

The financial statements have been prepared under the historical cost convention, modified to include the revaluation of certain fixed assets, and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

Going Concern

The financial statements have been prepared on a going concern basis. The directors have assessed the Company's ability to continue as a going concern and have reasonable expectation that the Company has adequate resources to continue in operational existence for the foreseeable future. Thus they continue to adopt the going concern basis of accounting in preparing the financial statements].

Turnover

The turnover shown in the profit and loss account represents amounts earned during the year, exclusive of Value Added Tax.

Fixed assets

All fixed assets are initially recorded at cost.

Depreciation

Depreciation is calculated so as to write off the cost of an asset, less its estimated residual value, over the useful economic life of that asset as follows:

Plant & Machinery	-	15% reducing balance
Fixtures & Fittings	-	33% reducing balance
Motor Vehicles	-	25% reducing balance

The directors are of the opinion that the estimated residual value of buildings is in excess of the cost and therefore no depreciation is charged.

Investment properties

No depreciation is provided for in respect of investment properties in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008). Such properties are held for their investment potential and not for consumption within the business. This is a departure from the Companies Act 2006 which requires all properties to be depreciated and the directors consider that to depreciate them would not enable the financial statements to give a true and fair view.

Stocks

Stocks are valued at the lower of cost and net realisable value, after making due allowance for obsolete and slow moving items.

Pension costs

The company operates a defined contribution pension scheme for employees. The assets of the scheme are held separately from those of the company. The annual contributions payable are charged to the profit and loss account.

NOTES TO THE ABBREVIATED ACCOUNTS

YEAR ENDED 31 DECEMBER 2013

1. Accounting policies (*continued*)

Deferred taxation

Deferred taxation is provided on the liability method to take account of timing differences between the treatment of certain items for accounts purposes and their treatment for tax purposes. Tax deferred is accounted for in respect of all material timing differences. Deferred tax is not provided on timing differences arising from the revaluation of fixed assets where there is no commitment to sell the asset. A deferred tax asset is only recognised to the extent that it is regarded as recoverable.
