## **TELEDYNE GAS MEASUREMENT INSTRUMENTS LIMITED**

---

### **STRATEGIC REPORT FOR THE PERIOD ENDED 2 JANUARY 2022**

---

#### **Introduction**

Teledyne Gas Measurement Instruments Limited ("GMI") is one of the world's leading manufacturers of gas detection equipment, with particular strengths in the gas distribution, industrial safety and marine industries. Since its formation in 1947, the business has been built on a reputation for technological development and the evolution of a rugged and reliable product range. The company has developed particular expertise in working within the gas distribution industry and many of the world's largest gas utilities use portable gas detection equipment manufactured in Scotland by GMI. Our success has been based on working with customers to fully understand their requirements and developing products that meet their specific needs.

#### **Business review**

During 2021, the company saw an increase in sales revenue, recording turnover of £20.1 million compared with £17.0 million in 2020 – an increase of 18%. This increase was due to the return to more favourable trading conditions as the impact of the COVID-19 pandemic diminished. Trading had already begun to recover in the second half of 2020 as end user customers and channel partners, who had delayed placing orders during 2020, resumed planned fleet upgrades and replacements. This trend continued into 2021, with many enquiries resulting in invoiced sales. The global business environment remained unsettled, with new supply chain challenges emerging, primarily as a result of the increasingly volatile electronic components market and changes resulting from the United Kingdom's exit from the European Union. Control of business infrastructure costs remained a strong focus, with increased costs being mitigated through business efficiencies. Selected selling price increases were implemented to minimise the impact of material cost inflation. Operating profit increased as a percentage of turnover from 30% in 2020 to 31% in 2021, which was considered acceptable given the external trading environment.

The profit in 2021 generated sufficient cash flow to continue the programme of research and new product development. The company continues to monitor world-wide technological advancements to identify opportunities to further develop and enhance our product range. Investment in the business infrastructure also continued.

The company's strategy remains to grow turnover and the operating profit percentage through controlled entry into new geographical territories, extending our distribution network and identifying new product applications. We will continue to work with end user customers to understand new gas detection challenges facing them and will work to develop new products and associated calibration and instrument management solutions.

At the end of 2021, the company was well placed to build market share and consolidate an already solid position in its principal markets through its strong relationships with key customers and distributors and the desire to extend its technical capabilities. Sufficient funds were generated through the period to support the company's ongoing business activities, with a significant surplus being made available for Teledyne group purposes.

#### **Key performance indicators**

Turnover, together with operating profit %, were the company's key financial performance indicators and are discussed in the business review above.

Other key performance indicators are used across the business to measure various aspects of business performance, including manufacturing efficiency, incremental revenue from the release of new products, service turnaround times and managed working capital. Key metrics relating to health and safety and the company's environmental impact are also maintained and reported. Key performance indicators for 2021 were in line with expectations.

## TELEDYNE GAS MEASUREMENT INSTRUMENTS LIMITED

---

### STRATEGIC REPORT (CONTINUED) FOR THE PERIOD ENDED 2 JANUARY 2022

---

#### Principal risks and uncertainties

Risk management is taken into consideration when setting the company's long-term goals. The competitive environment is likely to remain challenging, with price influencing procurement decisions in certain market sectors. In spite of general economic pressures, our key markets have proved resilient and we have seen continued investment in gas detection equipment.

#### Availability of materials and supplies

Many of the company's products contain electronic components, the availability of which has been impacted by a mixture of COVID-19, the United Kingdom exit from the European Union and the general downturn in the global economy. Any interruption to supplies, or increases in costs could adversely impact the financial position and trading performance of the company in the future.

To mitigate this risk, the company is standardising components in production development and retaining appropriate inventory levels of components, together with determining and validating other suppliers for any key components. The directors will continue to monitor this for the foreseeable future.

#### Financial risk

The company's operations expose it to a variety of financial risks including the effects of changes in interest rates, foreign currency exchange rates, credit risk and liquidity risk.

The company's principal financial instruments comprise cash and bank deposits and Teledyne group debt, together with trade debtors and trade creditors that arise directly from its operations.

The main risks arising from the company's financial instruments can be analysed as follows:

##### *Foreign currency risk*

The company's foreign trading exposes it to foreign exchange risk, predominately translation risk. Translation risk is associated with changes in the value of the company's foreign currency monetary assets and liabilities due to movements in the underlying currency exchange rates. The Sterling value of these assets and liabilities is therefore affected by movements in exchange rates.

##### *Interest rate risk*

The company undertakes loan arrangements with both intergroup and external sources, which expose it to interest rate risk. Interest charges are incurred on a market rate arms-length basis. Interest rates, whilst currently low, can increase based on market forces which are outside of the company's control.

##### *Price risk*

The company is exposed to price risk because of volatility in the price of commodities used in the manufacturing process.

##### *Credit risk*

The company recognised credit risk whereby one party to a transaction will cause a financial loss to the other party by failing to discharge an obligation. The company's policies are aimed at minimising such losses and require that deferred terms are only granted to customers who demonstrate an appropriate payment history and satisfy credit checking procedures.

The company's credit risk is primarily attributable to its trade debtors. Credit risk is managed by monitoring the aggregate amount and duration of exposure to any one customer depending upon their credit rating. The amounts presented in the Balance Sheet are net of allowances for doubtful debts, estimated by the company's management based on prior experience and their assessment of the current economic environment. The company has no significant concentration of credit risk with exposure spread over a large number of customers.

---

**TELEDYNE GAS MEASUREMENT INSTRUMENTS LIMITED**

---

**STRATEGIC REPORT (CONTINUED)  
FOR THE PERIOD ENDED 2 JANUARY 2022**

---

*Liquidity risk*

The company's policy has been to arrange funding for operations using Teledyne group credit facilities to aid short term flexibility.

This report was approved by the board on **Aug 31, 2022** and signed on its behalf.

*Nick Wargent*

## TELEDYNE GAS MEASUREMENT INSTRUMENTS LIMITED

---

### DIRECTORS' REPORT FOR THE PERIOD ENDED 2 JANUARY 2022

---

The directors present their report and the financial statements for the period ended 2 January 2022.

#### Directors' responsibilities statement

*The directors are responsible for preparing the Strategic Report, the Directors' Report and the financial statements in accordance with applicable law and regulations.*

Company law requires the directors to prepare financial statements for each financial period. Under that law the directors have elected to prepare the financial statements in accordance with applicable law and United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice), including Financial Reporting Standard 102 'The Financial Reporting Standard applicable in the UK and Republic of Ireland'. Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the company and of the profit or loss of the company for that period.

In preparing these financial statements, the directors are required to:

- select suitable accounting policies for the company's financial statements and then apply them consistently;
- make judgements and accounting estimates that are reasonable and prudent; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the company's transactions and disclose with reasonable accuracy at any time the financial position of the company and to enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

#### Principal activity

The principal activity of the company is the manufacture and provision of gas detection equipment to the gas distribution, industrial safety and marine industries.

#### Results and dividends

The profit for the period, after taxation, amounted to £5,105,121 (3 January 2021 - £4,030,629).

During the period, dividends of £10,300,000 (3 January 2021 - £nil) were paid by the company.

#### Directors

The directors who served during the period and to the date of this report, unless otherwise stated, were as follows:

C Y Belak  
T G Fourlegnie (appointed 19 November 2021)  
N J Wargent  
D S Hunter (resigned 30 June 2022)  
S Devita (resigned 12 November 2021)

---

## TELEDYNE GAS MEASUREMENT INSTRUMENTS LIMITED

---

### DIRECTORS' REPORT (CONTINUED) FOR THE PERIOD ENDED 2 JANUARY 2022

---

#### Future developments

Further information in relation to the company's performance and business review has been disclosed in the Strategic Report as permitted by the Companies Act 2006, s414(c)(11) along with principal risks and uncertainties and key performance indicators relevant to the company.

#### Research and development activities

The company aims to retain and enhance its market position through the design and sale of specialist gas and detection equipment and associated maintenance and management systems. The company's research and development department continued to investigate new materials, sensors and electronic components. Where appropriate, these have been incorporated within existing products and have been used in the design and development of new products.

#### Disclosure of information to auditor

Each of the persons who are directors at the time when this Directors' Report is approved has confirmed that:

- so far as the director is aware, there is no relevant audit information of which the company's auditor is unaware and;
- the director has taken all the steps that ought to have been taken as a director in order to be aware of any relevant audit information and to establish that the company's auditor is aware of that information.

#### Post balance sheet events

On 24 February 2022 Russian Forces entered Ukraine, resulting in Western Nation reactions including announcements of sanctions against Russia and Russian interests worldwide and an economic ripple effect on the global economy. The directors have carried out an assessment of the potential impact of Russian Forces entering Ukraine on the business, including the impact of mitigation measures and uncertainties, and have concluded that this is a non-adjusting post balance sheet event with the greatest impact on the business expected to be from the economic ripple effect on the global economy. The directors have taken account of these potential impacts in their going concern assessment.

This report was approved by the board on **Aug 31, 2022** and signed on its behalf.

## **TELEDYNE GAS MEASUREMENT INSTRUMENTS LIMITED**

---

### **INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF TELEDYNE GAS MEASUREMENT INSTRUMENTS LIMITED**

---

#### **Opinion**

We have audited the financial statements of Teledyne Gas Measurement Instruments Limited (the 'company') for the period ended 02 January 2022 which comprise the Statement of Comprehensive Income, the Balance Sheet, the Statement of Changes in Equity and notes to the financial statements, including a summary of significant accounting policies.

The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards, including FRS 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" (United Kingdom Generally Accepted Accounting Practice).

In our opinion, the financial statements:

- give a true and fair view of the state of the company's affairs as at 02 January 2022 and of its profit for the period then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

#### **Basis for opinion**

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the financial statements section of our report. We are independent of the company in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the FRC's Ethical Standard and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### **Conclusions relating to going concern**

In auditing the financial statements, we have concluded that the directors' use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the company's ability to continue as a going concern for a period of at least twelve months from when the financial statements are authorised for issue.

Our responsibilities and the responsibilities of the directors with respect to going concern are described in the relevant sections of this report.

---

**TELEDYNE GAS MEASUREMENT INSTRUMENTS LIMITED**

---

**INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF TELEDYNE GAS MEASUREMENT INSTRUMENTS LIMITED**

---

**Other information**

The other information comprises the information included in the annual report, other than the financial statements and our auditor's report thereon. The directors are responsible for the other information contained within the annual report. Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon.

Our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the course of the audit, or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether this gives rise to a material misstatement in the financial statements themselves. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

**Opinions on other matters prescribed by the Companies Act 2006**

In our opinion, based on the work undertaken in the course of the audit:

- the information given in the Strategic Report and the Directors' Report for the financial year for which the financial statements are prepared is consistent with the financial statements; and
- the Strategic Report and the Directors' Report have been prepared in accordance with applicable legal requirements.

**Matters on which we are required to report by exception**

In light of the knowledge and understanding of the company and its environment obtained in the course of the audit, we have not identified material misstatements in the Strategic Report or the Directors' Report.

We have nothing to report in respect of the following matters in relation to which the Companies Act 2006 requires us to report to you if, in our opinion:

- adequate accounting records have not been kept, or returns adequate for our audit have not been received from branches not visited by us; or
- the financial statements are not in agreement with the accounting records and returns; or
- certain disclosures of directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit.

---

## TELEDYNE GAS MEASUREMENT INSTRUMENTS LIMITED

---

### INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF TELEDYNE GAS MEASUREMENT INSTRUMENTS LIMITED

---

#### Responsibilities of Directors

As explained more fully in the Directors' Responsibilities Statement set out on page 4, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors intend either to liquidate the company or to cease operations, or have no realistic alternative but to do so.

#### Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

The extent to which our procedures are capable of detecting irregularities, including fraud is detailed below.

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect material misstatements in respect of irregularities, including fraud.

Based on our understanding of the company and its industry, we considered that non-compliance with the following laws and regulations might have a material effect on the financial statements: employment regulation, health and safety regulation, anti-money laundering regulation.

To help us identify instances of non-compliance with these laws and regulations, and in identifying and assessing the risks of material misstatement in respect to non-compliance, our procedures included, but were not limited to:

- Inquiring of management and, where appropriate, those charged with governance, as to whether the company is in compliance with laws and regulations, and discussing their policies and procedures regarding compliance with laws and regulations;
- Inspecting correspondence, if any, with relevant licensing or regulatory authorities;
- Communicating identified laws and regulations to the engagement team and remaining alert to any indications of non-compliance throughout our audit; and
- Considering the risk of acts by the company which were contrary to applicable laws and regulations, including fraud.

We also considered those laws and regulations that have a direct effect on the preparation of the financial statements, such as tax legislation, pension legislation and the Companies Act 2006.

---

## TELEDYNE GAS MEASUREMENT INSTRUMENTS LIMITED

---

### INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF TELEDYNE GAS MEASUREMENT INSTRUMENTS LIMITED

---

In addition, we evaluated the directors' and management's incentives and opportunities for fraudulent manipulation of the financial statements, including the risk of override of controls, and determined that the principal risks were related to posting manual journal entries to manipulate financial performance, management bias through judgements and assumptions in significant accounting estimates, in particular in relation to the carrying value of the warranty provision, revenue recognition (which we pinpointed to the cut-off assertion), and significant one-off or unusual transactions.

Our audit procedures in relation to fraud included but were not limited to:

- Making enquiries of the directors and management on whether they had knowledge of any actual, suspected or alleged fraud;
- Gaining an understanding of the internal controls established to mitigate risks related to fraud;
- Discussing amongst the engagement team the risks of fraud; and
- Addressing the risks of fraud through management override of controls by performing journal entry testing.

There are inherent limitations in the audit procedures described above and the primary responsibility for the prevention and detection of irregularities including fraud rests with management. As with any audit, there remained a risk of non-detection of irregularities, as these may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal controls.

A further description of our responsibilities for the audit of the financial statements is located on the Financial Reporting Council's website at [www.frc.org.uk/auditorsresponsibilities](http://www.frc.org.uk/auditorsresponsibilities). This description forms part of our auditor's report.

#### Use of the audit report

This report is made solely to the company's members as a body in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's members as a body for our audit work, for this report, or for the opinions we have formed.

## TELEDYNE GAS MEASUREMENT INSTRUMENTS LIMITED

---

### NOTES TO THE FINANCIAL STATEMENTS FOR THE PERIOD ENDED 2 JANUARY 2022

---

#### 1. General information

Teledyne Gas Measurement Instruments Limited is a private company limited by shares registered in Scotland. The registered office and principal place of business is Inchinnan Business Park, PA4 9RG. The company's registered number is SC025020.

The company's principal activities are disclosed in the Directors' Report.

#### 2. Accounting policies

##### 2.1 Basis of preparation of financial statements

The financial statements have been prepared under the historical cost convention unless otherwise specified within these accounting policies and in accordance with Financial Reporting Standard 102, the Financial Reporting Standard applicable in the UK and the Republic of Ireland and the Companies Act 2006.

The preparation of financial statements in compliance with FRS 102 requires the use of certain critical accounting estimates. It also requires management to exercise judgement in applying the company's accounting policies (see note 3).

Monetary amounts in these financial statements are rounded to the nearest £.

The company is a parent undertaking that is also a subsidiary included in the consolidated financial statements of its ultimate parent undertaking established under the law of a non-EEA state and is therefore exempt from the requirement to prepare consolidated financial statements under section 401 of the Companies Act 2006.

The following principal accounting policies have been applied:

##### 2.2 Financial Reporting Standard 102 - reduced disclosure exemptions

The company has taken advantage of the following disclosure exemptions in preparing these financial statements, as permitted by the FRS 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland":

- the requirements of Section 7 Statement of Cash Flows;
- the requirements of Section 3 Financial Statement Presentation paragraph 3.17(d);
- the requirements of Section 11 Financial Instruments paragraphs 11.42, 11.44 to 11.45, 11.47, 11.48(a)(iii), 11.48(a)(iv), 11.48(b) and 11.48(c);
- the requirements of Section 12 Other Financial Instruments paragraphs 12.26 to 12.27, 12.29(a), 12.29(b) and 12.29A;
- the requirements of Section 33 Related Party Disclosures paragraph 33.7.

This information is included in the consolidated financial statements of Teledyne Technologies Incorporated as at 2 January 2022 and these financial statements may be obtained from 1049 Camino Dos Rios, Thousand Oaks, CA 91360.

---

## TELEDYNE GAS MEASUREMENT INSTRUMENTS LIMITED

---

### NOTES TO THE FINANCIAL STATEMENTS FOR THE PERIOD ENDED 2 JANUARY 2022

---

#### 2. Accounting policies (continued)

##### 2.3 Going concern

The financial statements have been prepared on a going concern basis. The company meets its day to day working capital requirements through its own cash generation and through intercompany advances from the Teledyne group. In making their assessment, the directors have reviewed the cash resources available to the company against expected future expenditure and confirm that the company will have sufficient funds to allow it to continue to trade and meet its liabilities as they fall due for a period of at least twelve months from the date the directors sign the financial statements of the company.

##### 2.4 Foreign currency translation

###### Functional and presentation currency

The company's functional and presentational currency is GBP.

###### Transactions and balances

Foreign currency transactions are translated into the functional currency using the spot exchange rates at the dates of the transactions.

At each period end foreign currency monetary items are translated using the closing rate. Non-monetary items measured at historical cost are translated using the exchange rate at the date of the transaction and non-monetary items measured at fair value are measured using the exchange rate when fair value was determined.

Foreign exchange gains and losses resulting from the settlement of transactions and from the translation at period-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in profit or loss except when deferred in other comprehensive income as qualifying cash flow hedges.

Foreign exchange gains and losses that relate to borrowings and cash and cash equivalents are presented in the Statement of Comprehensive Income within 'finance income or costs'. All other foreign exchange gains and losses are presented in profit or loss within 'other operating income'.

---

## TELEDYNE GAS MEASUREMENT INSTRUMENTS LIMITED

---

### NOTES TO THE FINANCIAL STATEMENTS FOR THE PERIOD ENDED 2 JANUARY 2022

---

#### 2. Accounting policies (continued)

##### 2.5 Revenue

The company generates its turnover from the manufacture and provision of gas detection equipment to the gas distribution, industrial safety and marine industries.

Turnover is recognised to the extent that it is probable that the economic benefits will flow to the company and the turnover can be reliably measured. Turnover is measured as the fair value of the consideration received or receivable, excluding discounts, rebates, value added tax and other sales taxes. The following criteria must also be met before turnover is recognised:

##### Sale of goods

Turnover from the sale of goods is recognised when all of the following conditions are satisfied:

- the company has transferred the significant risks and rewards of ownership to the buyer;
- the company retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold;
- the amount of turnover can be measured reliably;
- it is probable that the company will receive the consideration due under the transaction; and
- the costs incurred or to be incurred in respect of the transaction can be measured reliably.

##### Rendering of services

Turnover from a contract to provide services is recognised in the period in which the services are provided in accordance with the stage of completion of the contract when all of the following conditions are satisfied:

- the amount of turnover can be measured reliably;
- it is probable that the company will receive the consideration due under the contract;
- the stage of completion of the contract at the end of the reporting period can be measured reliably; and
- the costs incurred and the costs to complete the contract can be measured reliably.

##### 2.6 Research and development

Research and development expenditure is written off to the Statement of Comprehensive Income as it is incurred.

##### 2.7 Operating leases: the company as lessee

Rentals paid under operating leases are charged to profit or loss on a straight-line basis over the lease term.

---

## TELEDYNE GAS MEASUREMENT INSTRUMENTS LIMITED

---

### NOTES TO THE FINANCIAL STATEMENTS FOR THE PERIOD ENDED 2 JANUARY 2022

---

#### 2. Accounting policies (continued)

##### 2.8 Tangible fixed assets

Tangible fixed assets under the cost model are stated at historical cost less accumulated depreciation and any accumulated impairment losses. Historical cost includes expenditure that is directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management.

At each reporting date the company assesses whether there is any indication of impairment. If such indication exists, the recoverable amount of the asset is determined which is the higher of its fair value less costs to sell and its value in use. An impairment loss is recognised where the carrying amount exceeds the recoverable amount.

Depreciation is charged so as to allocate the cost of assets less their residual value over their estimated useful lives, using the straight-line method.

Depreciation is provided on the following basis:

Buildings	-	4% straight line
Leasehold improvements	-	10% straight line
Motor vehicles	-	25% straight line
Fixtures, fittings and equipment	-	10% - 33% straight line

The assets' residual values, useful lives and depreciation methods are reviewed, and adjusted prospectively if appropriate, or if there is an indication of a significant change since the last reporting date.

Gains and losses on disposals are determined by comparing the proceeds with the carrying amount and are recognised in profit or loss.

##### 2.9 Valuation of investments

Investments in subsidiaries are measured at cost less accumulated impairment.

##### 2.10 Stocks

Stocks are stated at the lower of cost and net realisable value, being the estimated selling price less costs to complete and sell. Cost is based on the cost of purchase on a first in, first out basis. Work in progress and finished goods include labour and attributable overheads.

At each reporting date, stocks are assessed for impairment. If stock is impaired, the carrying amount is reduced to its selling price less costs to complete and sell. The impairment loss is recognised immediately in the Statement of Comprehensive Income.

##### 2.11 Cash and cash equivalents

Cash is represented by cash in hand and deposits with financial institutions repayable without penalty on notice of not more than 24 hours. Cash equivalents are highly liquid investments that mature in no more than three months from the date of acquisition and that are readily convertible to known amounts of cash with insignificant risk of change in value.

---

## TELEDYNE GAS MEASUREMENT INSTRUMENTS LIMITED

---

### NOTES TO THE FINANCIAL STATEMENTS FOR THE PERIOD ENDED 2 JANUARY 2022

---

#### 2. Accounting policies (continued)

##### 2.12 Financial instruments

The company only enters into basic financial instrument transactions that result in the recognition of financial assets and liabilities like trade and other debtors and creditors, loans from banks and other third parties, loans to related parties and investments in ordinary shares.

Debt instruments (other than those wholly repayable or receivable within one year), including loans and other accounts receivable and payable, are initially measured at present value of the future cash flows and subsequently at amortised cost using the effective interest method. Debt instruments that are payable or receivable within one year, typically trade debtors and creditors, are measured, initially and subsequently, at the undiscounted amount of the cash or other consideration expected to be paid or received. However, if the arrangements of a short-term instrument constitute a financing transaction, like the payment of a trade debt deferred beyond normal business terms or in case of an out-right short-term loan that is not at market rate, the financial asset or liability is measured, initially at the present value of future cash flows discounted at a market rate of interest for a similar debt instrument and subsequently at amortised cost, unless it qualifies as a loan from a director in the case of a small company, or a public benefit entity concessionary loan.

Financial assets that are measured at cost and amortised cost are assessed at the end of each reporting period for objective evidence of impairment. If objective evidence of impairment is found, an impairment loss is recognised in the Statement of Comprehensive Income.

For financial assets measured at amortised cost, the impairment loss is measured as the difference between an asset's carrying amount and the present value of estimated cash flows discounted at the asset's original effective interest rate. If a financial asset has a variable interest rate, the discount rate for measuring any impairment loss is the current effective interest rate determined under the contract.

For financial assets measured at cost less impairment, the impairment loss is measured as the difference between an asset's carrying amount and best estimate of the recoverable amount, which is an approximation of the amount that the company would receive for the asset if it were to be sold at the balance sheet date.

Financial assets and liabilities are offset and the net amount reported in the Balance Sheet when there is an enforceable right to set off the recognised amounts and there is an intention to settle on a net basis or to realise the asset and settle the liability simultaneously.

##### 2.13 Debtors

Short-term debtors are measured at transaction price, less any impairment. Loans receivable are measured initially at fair value, net of transaction costs, and are measured subsequently at amortised cost using the effective interest method, less any impairment.

##### 2.14 Creditors

Short-term creditors are measured at the transaction price. Other financial liabilities, including bank loans, are measured initially at fair value, net of transaction costs, and are measured subsequently at amortised cost using the effective interest method.

**NOTES TO THE FINANCIAL STATEMENTS  
FOR THE PERIOD ENDED 2 JANUARY 2022**

---

**2. Accounting policies (continued)**

**2.15 Current and deferred taxation**

The tax expense for the period comprises current and deferred tax. Tax is recognised in the Statement of Comprehensive Income except that a charge attributable to an item of income and expense recognised as other comprehensive income or to an item recognised directly in equity is also recognised in other comprehensive income or directly in equity respectively.

The current income tax charge is calculated on the basis of tax rates and laws that have been enacted or substantively enacted by the balance sheet date in the countries where the company operates and generates income.

Deferred tax balances are recognised in respect of all timing differences that have originated but not reversed by the balance sheet date, except that:

- The recognition of deferred tax assets is limited to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits; and
- Any deferred tax balances are reversed if and when all conditions for retaining associated tax allowances have been met.

Deferred tax balances are not recognised in respect of permanent differences except in respect of business combinations, when deferred tax is recognised on the differences between the fair values of assets acquired and the future tax deductions available for them and the differences between the fair values of liabilities acquired and the amount that will be assessed for tax. Deferred tax is determined using tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

**2.16 Provisions for liabilities**

Provisions are made where an event has taken place that gives the company a legal or constructive obligation that probably requires settlement by a transfer of economic benefit, and a reliable estimate can be made of the amount of the obligation.

Provisions are charged as an expense to the Statement of Comprehensive Income in the period that the company becomes aware of the obligation, and are measured at the best estimate at the Balance Sheet date of the expenditure required to settle the obligation, taking into account relevant risks and uncertainties.

When payments are eventually made, they are charged to the provision carried in the Balance Sheet.

**2.17 Pensions**

**Defined contribution pension scheme**

The company operates a defined contribution scheme for its employees. A defined contribution scheme is a pension scheme under which the company pays fixed contributions into a separate plan. Once the contributions have been paid the company has no further payment obligations.

The contributions are recognised as an expense in the Statement of Comprehensive Income when they fall due. Amounts not paid are shown in accruals as a liability in the Balance Sheet. The assets of the plan are held separately from the company in independently administered funds.

**TELEDYNE GAS MEASUREMENT INSTRUMENTS LIMITED**

---

---

**NOTES TO THE FINANCIAL STATEMENTS  
FOR THE PERIOD ENDED 2 JANUARY 2022**

---

**2. Accounting policies (continued)****2.18 Government grants**

Grants are accounted under the accruals model as permitted by FRS 102. Grants relating to expenditure on tangible fixed assets are credited to profit or loss at the same rate as the depreciation on the assets to which the grant relates. The deferred element of grants is included in creditors as deferred income.

Grants of a revenue nature are recognised in the Statement of Comprehensive Income in the same period as the related expenditure.

**2.19 Interest income**

Interest income is recognised in the Statement of Comprehensive Income using the effective interest method.

**2.20 Finance costs**

Finance costs are charged to the Statement of Comprehensive Income over the term of the debt using the effective interest method so that the amount charged is at a constant rate on the carrying amount. Issue costs are initially recognised as a reduction in the proceeds of the associated capital instrument.

**2.21 Holiday pay accrual**

A liability is recognised to the extent of any unused holiday pay entitlement which is accrued at the balance sheet date and carried forward to future periods. This is measured at the undiscounted salary cost of the future holiday entitlement accrued at the balance sheet date.

**2.22 Dividends**

Equity dividends are recognised when they become legally payable. Interim equity dividends are recognised when paid. Final equity dividends are recognised when approved by the shareholders at an annual general meeting.

#### 3. Judgements in applying accounting policies and key sources of estimation uncertainty

In the application of the company's accounting policies, the directors are required to make judgements, estimations and assumptions about the carrying amount of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised where the revision affects only that period, or in the period of the revision and future periods where the revision affects both current and future periods.

The following are the company's key sources of estimation uncertainty:

##### Warranty provision

Management have estimated a provision for future warranty claims and returns. This includes a general provision which is a percentage of turnover based on past experience of retrospective issues for which the company may be liable. Additionally all known issues are added as a specific provision. The future warranty provision for the period is £721,313 (3 January 2021 - £474,089).

#### 4. Turnover

An analysis of turnover by class of business is as follows:

	2 January 2022 £	3 January 2021 £
Sale of goods	18,476,768	15,610,435
Sale of services	1,659,460	1,432,288
	<u>20,136,228</u>	<u>17,042,723</u>

Analysis of turnover by geographical market:

	2 January 2022 £	3 January 2021 £
United Kingdom	8,301,762	5,511,061
Europe	3,189,970	3,166,659
Rest of the world	8,644,496	8,365,003
	<u>20,136,228</u>	<u>17,042,723</u>

**TELEDYNE GAS MEASUREMENT INSTRUMENTS LIMITED**

---

**NOTES TO THE FINANCIAL STATEMENTS  
FOR THE PERIOD ENDED 2 JANUARY 2022**

---

**12. Taxation (continued)****Factors affecting tax charge for the period**

The tax assessed for the period is lower than (3 January 2021 - higher than) the standard rate of corporation tax in the UK of 19% (3 January 2021 - 19%). The differences are explained below:

	<b>2 January 2022 £</b>	<b>3 January 2021 £</b>
Profit on ordinary activities before tax	<u>6,297,031</u>	<u>5,141,673</u>
Profit on ordinary activities multiplied by standard rate of corporation tax in the UK of 19% (3 January 2021 - 19%)	1,196,436	976,918
<b>Effects of:</b>		
Expenses not deductible for tax purposes	-	4,050
Other tax adjustments	132,167	136,973
Adjustments to tax charge in respect of prior periods	(136,693)	(7,948)
Adjustment to tax charge in respect of change in rates	-	1,051
<b>Total tax charge for the period</b>	<u><u>1,191,910</u></u>	<u><u>1,111,044</u></u>

**Factors that may affect future tax charges**

The UK Government announced in the 2021 budget that from 1 April 2023, the rate of corporation tax in the United Kingdom will increase from 19% to 25% for entities of the size of the company.

**13. Dividends**

	<b>2 January 2022 £</b>	<b>3 January 2021 £</b>
Dividends paid	<u>10,300,000</u>	<u>-</u>

Dividends were paid in the year of £375.36 per share (3 January 2021 - £Nil).

**20. Deferred taxation**

	<b>2 January 2022 £</b>
At beginning of period	(32,925)
Charged to Statement of Comprehensive Income	52,939
<b>At end of period</b>	<b>20,014</b>

The deferred taxation balance is made up as follows:

	<b>2 January 2022 £</b>	<b>3 January 2021 £</b>
Fixed asset timing differences	18,114	(32,925)
Provisions	1,900	-
	<b>20,014</b>	<b>(32,925)</b>

The UK Budget 2021 announced that the corporation tax rate was to be increased to 25% with effect from 1 April 2023. This provision was substantially enacted on 10 June 2021. UK deferred tax balances as at 2 January 2022 have been calculated on the corporation tax rate of 19%, being the relevant rate that is expected to apply to the period when the asset is realised. At 3 January 2021, the deferred tax balances had been calculated on the corporation tax rate of 19% the rate which was substantially enacted at that date.

**21. Provisions**

	<b>Warranty provision £</b>
At 3 January 2021	474,089
Charged to profit or loss	247,224
<b>At 2 January 2022</b>	<b>721,313</b>

Management have estimated a provision for future warranty claims and returns. This includes an amount calculated as a percentage of turnover based on past experience of retrospective issues that the company are liable for. An additional amount is added for known issues.

---

**TELEDYNE GAS MEASUREMENT INSTRUMENTS LIMITED**

---

---

**NOTES TO THE FINANCIAL STATEMENTS  
FOR THE PERIOD ENDED 2 JANUARY 2022**

---

**26. Related party transactions**

The company has taken advantage of the exemption within FRS 102 not to disclose transactions entered into by two or more members of a group, provided that any subsidiary which is a party to the transaction is wholly owned by such a member.

**27. Post balance sheet events**

On 24 February 2022 Russian Forces entered Ukraine, resulting in Western Nation reactions including announcements of sanctions against Russia and Russian interests worldwide and an economic ripple effect on the global economy. The directors have carried out an assessment of the potential impact of Russian Forces entering Ukraine on the business, including the impact of mitigation measures and uncertainties, and have concluded that this is a non-adjusting post balance sheet event with the greatest impact on the business expected to be from the economic ripple effect on the global economy. The directors have taken account of these potential impacts in their going concern assessment.

**28. Parent undertakings and controlling party**

The immediate parent undertaking of the company is Rhombi Holdings Limited, a company registered in England and Wales with a registered office address of 106 Waterhouse Lane, Chelmsford, Essex, CM1 2QU.

The company's ultimate parent undertaking is Teledyne Technologies Incorporated, a company incorporated in the United States of America. It has included the company in its group financial statements, which is the smallest and largest group for which group financial statements are available. Copies of the consolidated financial statements are available from its registered office: 1049 Camino Dos Rios, Thousand Oaks, CA 91360.

In the directors' opinion, the company has no ultimate controlling party due to the listed status of the company's ultimate parent undertaking.
