Notes to the Abbreviated Accounts

For the year ending 31 August 2010

Accounting policies

Accounting convention

The financial statements have been prepared under the historical cost convention, as modified by the revaluation of certain assets and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

Turnovei

Turnover represents net invoiced sales of goods, excluding value added tax.

Stocks

Stocks and work in progress are valued at the lower of cost and net realisable value, after making due allowance for obsolete and slow moving items. Cost includes all direct expenditure and an appropriate proportion of fixed and variable overheads.

Deferred tax

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date where transactions or events have occurred at that date that will result in an obligation to pay more, or a right to pay less or to receive more tax. Deferred tax is measured on an undiscounted basis at the tax rates that are expected to apply in the periods in which timing differences reverse, based on tax rates and laws enacted or substantively enacted at the balance sheet date.

Hire purchase and leasing commitments

Assets obtained under hire purchase contracts or finance leases are capitalised in the balance sheet. Those held under hire purchase contracts are depreciated over their estimated useful lives. Those held under finance leases are depreciated over their estimated useful lives or the lease term, whichever is shorter. The interest element of these obligations is charged to the profit and loss account over the relevant period. The capital element of the future payments is treated as a liability.

Pension costs and other post-retirement benefits

The company operates a defined contribution pension scheme. Contributions payable to the company's pension scheme are charged to the profit and loss account in the period to which they relate

Revaluation Reserve

Surpluses arising on the revaluation of individual tangible fixed assetsare credited to a revaluation reserve. On the disposal of any such revalued asset the corresponding surplus or defecit is transferred to the profit &loss account.

Depreciation

Depreciation has been provided at the following rates in order to write off the assets over their estimated useful lives.

Short leasehold	20% on cost
Long leasehold	2% on cost

Plant and machinery 25% on reducing balance Fixtures and fittings 25% on reducing balance Motor vehicles 25% on reducing balance
