NOTES TO THE ABBREVIATED ACCOUNTS
YEAR ENDED 31 JANUARY 2008

1. Accounting policies

Basis of accounting

The financial statements have been prepared under the historical cost convention, and in accordance with applicable accounting standards

Cash flow statement

The company has taken advantage of the exemption in Financial Reporting Standard No 1 "Cash flow statements" from the requirement to produce a cash flow statement on the grounds that it is a small company

Turnover

The turnover shown in the profit and loss account represents amounts invoiced during the period in relation to the provision of consultancy services, exclusive of Value Added Tax

Pension costs

The company operates a defined contribution pension scheme for employees. The assets of the scheme are held separately from those of the company. The annual contributions payable are charged to the profit and loss account.

Deferred taxation

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date, where transactions or events that result in an obligation to pay more or a right to pay less tax in the future have occurred by the balance sheet date with certain limited exceptions.

Deferred tax is calculated on an undiscounted basis at the tax rates that are expected to apply in the periods in which the timing differences are expected to reverse, based on tax rates and laws enacted or substantively enacted at the balance sheet date.

Financial instruments

Financial instruments are classified and accounted for, according to the substance of the contractual arrangement, as either financial assets, financial liabilities or equity instruments. An equity instrument is any contract that evidences a residual interest in the assets of the company after deducting all of its liabilities.
