Basis of accounting

The financial statements have been prepared under the historical cost convention, and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

Going concern

The directors are of the opinion that it is appropriate to prepare the accounts on a going concern basis in spite of a net asset deficiency of £28,702. Turnover

The turnover shown in the profit and loss account represents amounts sold during the year, exclusive of Value Added Tax. Income is recognised at the point at which goods are despatched and title to the goods is transferred to the customers.

Stocks

Stocks are valued at the lower of cost and net realisable value, after making due allowance for obsolete and slow moving items.

Operating lease agreements

Rentals applicable to operating leases where substantially all of the benefits and risks of ownership remain with the lessor are charged against profits on a straight line basis over the period of the lease.

Pension costs

The company operates a defined contribution pension scheme for employees. The assets of the scheme are held separately from those of the company. The annual contributions payable are charged to the profit and loss account.

2. RELATED PARTY TRANSACTIONS
