NOTES TO THE FINANCIAL STATEMENTS

YEAR ENDED 31 MARCH 2021

1. General information

The company is a private company limited by guarantee, registered in Scotland. The address of the registered office is 26-30 Marine Place, Buckie, Moray, AB56 1UT. The company is a public benefit entity.

2. Statement of compliance

These financial statements have been prepared in compliance with Section 1A of FRS 102, 'The Financial Reporting Standard applicable in the UK and the Republic of Ireland' and the requirements of the Companies Act 2006 as applicable to companies subject to the small companies regime.

3. Accounting policies

Basis of preparation

The financial statements have been prepared on the historical cost basis. The financial statements are prepared in £ sterling, which is the functional currency of the entity.

Fixed assets

The company policy for fixed assets is not to capitalise any items below the value of £1,000.

Going concern

The directors have a reasonable expectation that the company has adequate resources to continue in operational existence in the foreseeable future.

Judgements and key sources of estimation uncertainty

In the application of the company's accounting policies, the directors are required to make judgements, estimates and assumptions about the carrying amount of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates. The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised where the revision affects only that period, or in the period of the revision and future periods where the revision affects both current and future periods.

Employee benefits

The cost of short term employee benefits are recognised as a liability and an expense, unless those costs are required to be recognised as part of the cost of stock or non-current assets.

The cost of any unused holiday entitlement is recognised in the period in which the employee's services are received.

Turnover

Turnover represents income receivable for levies in respect of the year, net of VAT, together with grants and other income receivable for the year. Income is recognised on an invoice basis.

Government grants

Government grants are recognised at the fair value of the asset received or receviable when there is reasonable assurance that the grant conditions will be met and the grants will be received.

A grant that specifies performance conditions is recognised in income when the performance conditions are met. Where a grant does not specify performance conditions it is recognised in income when the proceeds are received or receivable. A grant received before the recognition criteria are satisfied is recognised as a liability.

Operating leases

Rentals applicable to operating leases where substantially all of the benefits and risks of ownership remain with the lessor are charged against profits on a straightline basis over the period of the lease.

Financial instruments

The following assets and liabilities are classified as financial instruments - bank, trade debtors and trade creditors. Cash and cash equivalents in the statement of financial position comprise cash at bank and in hand held on demand. Trade debtors and creditors are measured at the undiscounted amounts receivable from the customer or payable to a supplier, which is normally the invoiced price. Trade debtors are assessed at the end of each reporting period for the objective evidence of impairment. If such evidence is found, an impairment loss is recognise in the statement of income and retained earnings.

Defined contribution plans

The company operates a defined contribution pension scheme for employees. The assets of the scheme are held separately from those of the company. The annual contributions payable are charged to the profit and loss account.

4. Company limited by guarantee

Every member of the company undertakes to contribute to the assets of the company in the event of the same being wound up while he/she is a member, or within one year after he/she ceased to be a member, for payment of the debts and liabilities of the company contracted before he/she ceases to be a member, and of the costs, charges and expenses of winding up, and for the adjustment of the rights of the contributories among themselves, such amount as may be required not exceeding £1.

5. Employee numbers
