Notes to the Abbreviated Accounts

For the year ending 31 January 2012

1 **Accounting policies**

Basis of preparing the financial statements

The financial statements have been prepared on the going concern basis which assumes that the company will continue in operational existence in the foreseeable future. The validity of this assumption depends on the continued support of the company's directors for the forthcoming year. The directors believes that it is appropriate for the going concern basis to be used.

Accounting convention

The financial statements have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

Turnover

Turnover represents net invoiced sales of goods, excluding value added tax.

Deferred tax

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date.

Hire purchase and leasing commitments

Assets obtained under hire purchase contracts or finance leases are capitalised in the balance sheet. Those held under hire purchase contracts are depreciated over their estimated useful lives. Those held under finance leases are depreciated over their estimated useful lives or the lease term, whichever is shorter. The interest element of these obligations is charged to the profit and loss account over the relevant period. The capital element of the future payments is treated as a liability. Rentals paid under operating leases are charged to the profit and loss account on a straight line basis over the period of the lease.

Depreciation

Depreciation has been provided at the following rates in order to write off the assets over their estimated useful lives.

Plant and machinery	15% on reducing balance
Motor vehicles	25% on reducing balance
Computer equipment	15% on reducing balance
