Directors' Report for the Year Ended 31 March 2020 (continued)

Financial risk management

The financial risks the Directors consider relevant to the Company include currency risk, credit risk and liquidity risk. The Company follows the board-approved policies of its parent Vodafone Group Plc, to manage these principal financial risks. These risks are mitigated by the fact that the counterparty of the majority of debtor balances are other Vodafone Group companies who are considered able to repay their debts.

The treasury function of the Vodafone Group provides a centralised treasury service to the Company, and follows a framework of policies and guidelines authorised and reviewed annually by the Vodafone Group Plc Board.

The Group's internal auditors review the internal control environment regularly. There has been no significant change during the financial year to the types of financial risks faced by the Company, or the Company's approach to the management of those risks. Further details of the Group's policies on financial risk management can be found in the annual report and financial statements of Vodafone Group Plc for the year ended 31 March 2020.

Risks and Uncertainties

The Directors have assessed the risks that the Company is exposed to and have not identified any material risks. Business risks relating to the Vodafone Group are disclosed in the Annual Report of Vodafone Group Plc, which does not form part of these financial statements.

Financial position and Liquidity

The Directors consider that the Company has sufficient funding to meet its financial needs as they fall due. Accordingly, the Directors have prepared the financial statements on a going concern basis.

The Directors have reviewed the financial position of the Company, including the arrangements with Vodafone Group Plc undertakings. The Directors have also considered the financial position of the Company's ultimate parent Vodafone Group Plc, including centralised treasury arrangements and the availability of a credit facility.

On the basis of their assessment of the Company's financial position, the factors likely to affect its future development and performance, and the enquiries made of the directors of Vodafone Group Plc, the Company's Directors have no reason to believe that a material uncertainty exists that may cast doubt about the ability of the Company to continue as a going concern. Accordingly, they expect that the Company will be able to continue in operational existence for the foreseeable future and hence continue to adopt the going concern basis of accounting in preparing the annual financial statements.

Research and development

The Company does not perform any research or development activities.

Directors' Report for the Year Ended 31 March 2020 (continued)

Going concern

The potential impact of COVID-19 on the Company has been considered as part of the Company's going concern assessment. In reaching its conclusion, the Directors also considered the findings of the work performed by Group to support the statement on the long-term viability of the Group. This included key changes to the principal risks relevant to the sustainability of the Group's operations in light of the COVID-19 pandemic, sensitivity analysis, scenario assessments, and combinations thereof, including that of a longer-term global recession with likely impacts beyond 2020.

In conclusion, the Directors have a reasonable expectation that the Company has adequate resources to continue in operational existence for the foreseeable future. The net current assets position at 31 March 2020 was £515,000 (2019: £515,000). The Directors are satisfied that, at the time of approving the financial statements, it is appropriate to adopt the going concern basis of accounting in preparing the financial statements.

Statement of Directors' Responsibilities

The Directors are responsible for preparing directors' report and the financial statements in accordance with applicable law and regulations.

Company law requires the Directors to prepare financial statements for each financial year. Under that law the Directors have elected to prepare the financial statements in accordance with United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice), including FRS 102.

Under company law, the Directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the Company and of the profit or loss of the Company for that period. In preparing these financial statements, the Directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and accounting estimates that are reasonable and prudent;
- present information, including accounting policies, in a manner that provides relevant, reliable, comparable and understandable information;
- state whether applicable UK Accounting Standards, including FRS 102 have been followed subject to any material departures disclosed and explained in the financial statements; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Company will continue in business.

The Directors are responsible for keeping proper accounting records that are sufficient to show and explain the Company's transactions and disclose with reasonable accuracy at any time the financial position of the Company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for the system of internal control, for safeguarding the assets of the Company and, hence, for taking reasonable steps for the prevention and detection of fraud and other irregularities.

Directors' Report for the Year Ended 31 March 2020 (continued)

Indemnification of directors

In accordance with the Company's articles of association and to the extent permitted by law, the Directors may be granted an indemnity from the Company in respect of liabilities incurred as a result of their office. In respect of those matters for which the Directors may not be indemnified, Vodafone Group Plc maintained a directors and officers' liability insurance policy throughout the financial year. This policy is renewed annually in August. Neither the Company's indemnity nor the insurance provides cover in the event that the Director is proven to have acted dishonestly or fraudulently.

Events after the reporting period

The COVID-19 pandemic has brought significant disruption to the staff, suppliers and customers of the Vodafone Group. It is likely to change the global economic, social, political and business landscape for the foreseeable future. The Vodafone Group Annual report contains full details of the strategy and five-point plan, which the Group have adopted to identify new opportunities which, may arise or risks which, may change materially.

The Directors have considered the impact of Covid-19 and would not envisage any consequential impact on the Company.

The Company will continue to monitor the implications for Vodafone's operations in light of the new trading relationship between the UK and the EU, which has yet to be negotiated. The Group established a cross-functional steering committee that has identified the impact of the UK and EU failing to reach a free trade agreement on the Group's operations and has produced a comprehensive mitigation plan. The lack of an agreed free trade deal between the UK and EU could lead to a fall in consumer and business confidence. Such a fall in confidence could, in turn, reduce consumer and business spend on Group products and services, but we would not envisage this would directly impact the Company.

Ordinary shares are classified as equity. Equity instruments are measured at the fair value of the cash or other resources received or receivable, net of the direct costs of issuing the equity instruments. If payment is deferred and the time value of money is material, the initial measurement is on a present value basis.

3 Critical accounting estimates and judgements

Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.
